Politics In Transition:

Power and Interdependence Robert Owen Keohane, Joseph S. Nye, 1977 Governance and Transition Politics in Kenya Peter Wanyande, Mary Omosa, Chweya Ludeki, 2007 *Regulatory Politics in Transition* Marc Allen Eisner, 2000 In *Regulatory Politics in Transition* Marc Allen Eisner argues that to understand fully the importance of regulatory policy we need to survey the critical policy shifts brought about during the Progressive period the New Deal and the contemporary period Eisner adopts a regulatory regime framework to address the combination of policy change and institutional innovation across multiple policies in each period For each of these periods Eisner examines economic structural changes and the prevailing political economic and administrative theories that conditioned the design of new policies and institutions Throughout Eisner adds a valuable historical dimension to the discussion of regulation by showing how policies and institutions were shaped by particular historical and political circumstances The new edition examines how the efficiency regime of the 1980s found a new expression in the regulatory reinvention during the Clinton presidency Moreover it explores the impact of globalization trends and international regimes upon the politics of regulation and asks whether a new global regime is on the horizon

Political Transition Paul Gready, 2003-04-20 In the twentieth century many countries around the globe experienced rapid and often traumatic political transformations From East Germany and Northern Ireland to Argentina Chile and Zimbabwe political transition has been momentous and has had a deep impact on the individual culture of each society This collection explores these periods of political transition and the impact that they have had through an analysis of memory identity space place and voice Concentrating in particular on post colonial and post oppressive regimes in Europe Southern Africa and Latin America the contributors assess how individuals come to terms with rapid political change and the enduring legacies of the past in the present They examine how political transformations affect people's memories and identities reworking spaces places and voices and how both official and unofficial mechanisms set up to cope with these changes impact on these issues Juxtaposing different country and regional experiences and different historical eras this is a comprehensive guide to the vast range of issues involved in political transition

Political Transition and Democratic Consolidation Adriano Nervo Codato, 2006 How does a political regime evolve How and when does an old regime turn itself into a new one When does a political change occur What is the first thing to change in a political transformation and what is the degree and the speed of this change What are the causes of this transformation And when exactly does this change end When the new regime is completely established What concepts can we use to understand each moment of the political transition How can we think about the whole process In 2005 Brazil completes twenty continuous years of civil government a striking exception in the country's history all of them except one chosen by direct elections The long transition from the dictatorial regime to a non dictatorial one not necessarily democratic began in 1974 Fifteen years after in 1989 a new stage in this process begins overcoming the instability of the national political scene From this moment on the consolidation of democracy becomes the

central problem of the national political agenda There are many ways of telling and explaining this history This book presents a survey of the different interpretations of this important period of Brazilian history and at the same time outlines some criticisms on the mainstream interpretations in Brazilian Political Science The History and Political Transition of Zimbabwe Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe s ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics *The Mexican Military and Political Transition* Robin Claire Bedingfield, 1992 *The Politics of Memory in Post-Authoritarian Transitions, Volume One* Joanna Marszałek-Kawa, Joanna Piechowiak-Lamparska, Anna Ratke-Majewska, 2017-01-06 History is a powerful tool in the hands of politicians and can be a destructive weapon since power over the past is the power to decide who is a hero and who is a traitor Tradition the memory of ancestors and the experience of previous generations are the keys that unlock the door to citizens minds and allow certain ideas visions and political programs to flourish However can history be a proper political weapon during democratisation processes when the past is clearly separated from the present Are the new order and society founded on the basis of some interpretation of the past or rather are they founded only with reference to the imagined future of the nation This book explores such questions through a detailed description of the use of remembrance policies during political transformations It discusses how interpretations of the past served the accomplishment of transitional objectives in countries as varied as Chile Estonia Georgia Poland South Africa and Spain The book is a unique journey through different parts of the world different cultures and different political systems investigating how history was remembered and forgotten by certain democratic leaders Individual chapters discuss how governments remembrance policies were used to create a new citizen to change a political culture and to justify the vision of the society promoted by the new elites They explain why some difficult topics were avoided by politicians and why sometimes there was no transitional justice or punishment of the leaders of the authoritarian state The book will be of interest to anyone wishing to explore policies of remembrance democratisation and the role of

memory in contemporary societies *Political Economy of Transition and Development* Nauro F. Campos, Jan Fidrmuc, 2003-11-30 *Political Economy of Transition and Development* collects the proceedings of an international conference that brought the leading thinkers in this field to the Center for European Integration Studies of the University of Bonn in May 2002 The contributions analyze the various interactions between institutions policy choices economic developments and political outcomes in transition and developing countries The first five chapters give a relatively broad assessment of the various reform paths and outcomes in the transition and developing countries The remaining eight chapters proceed to analyze important aspects of transition such as voting behavior political regime choice corruption social capital growth and inequality and EU enlargement The resulting volume thus combines a bird's eye perspective with a relatively narrow focus on selected key issues pertaining to the ongoing transition process in Central and Eastern Europe The Politics of Central Europe Attila Ágh, 1998-07-29 This book provides a thorough introduction to Central and Eastern Europe since its emergence from the Soviet bloc It uses theories of democratization to develop a common conceptual and theoretical framework

Comparative Environmental Politics Paul F. Steinberg, Stacy D. Vandever, 2012-02-17 Combining the theoretical tools of comparative politics with the substantive concerns of environmental policy experts explore responses to environmental problems across nations and political systems How do different societies respond politically to environmental problems around the globe Answering this question requires systematic cross national comparisons of political institutions regulatory styles and state society relations The field of comparative environmental politics approaches this task by bringing the theoretical tools of comparative politics to bear on the substantive concerns of environmental policy This book outlines a comparative environmental politics framework and applies it to concrete real world problems of politics and environmental management After a comprehensive review of the literature exploring domestic environmental politics around the world the book provides a sample of major currents within the field showing how environmental politics intersects with such topics as the greening of the state the rise of social movements and green parties European Union expansion corporate social responsibility federalism political instability management of local commons and policymaking under democratic and authoritarian regimes It offers fresh insights into environmental problems ranging from climate change to water scarcity and the disappearance of tropical forests and it examines actions by state and nonstate actors at levels from the local to the continental The book will help scholars and policymakers make sense of how environmental issues and politics are connected around the globe and is ideal for use in upper level undergraduate and graduate courses **Political Transition and**

Inclusive Development in Malawi Dan Banik, Blessings Chinsinga, 2016-06-10 Malawi is among the few countries in sub Saharan Africa that has witnessed significant improvements in relation to meeting the Millennium Development Goal MDG targets It exhibits some of the main challenges facing African democracies while they attempt to consolidate the benefits of democratisation *Political Transition and Inclusive Development in Malawi* critically analyses opportunities and constraints

related to the impact of democracy on development in one of the world's poorest countries. The book explores how and to what extent processes related to democratic and economic governance can be strengthened in order to make political and administrative authorities more responsive to development needs. It also considers characteristics of successful implementation of public policy and the effective and timely delivery of basic services in local contexts, increased citizen participation and dialogue with local government authorities, factors that enable civil society organisations to hold political and administrative officials to account, and better utilisation of academic research for improved evidence-based policy formulation and implementation. This volume will be of great interest to scholars in development studies, African studies, politics, law, and anthropology, as well as policymakers and those interested in democracy, governance, human rights, and the implementation of anti-poverty programmes, development administration, and decentralisation.

Sustainable Peacebuilding and Social Justice in Times of Transition Mieke T.A. Lopes Cardozo, Elizabeth J.T. Maber, 2018-10-26. This book offers a unique insight into the ways in which education systems, governance, and actors at multiple scales interact in initial steps towards building peace. It presents a spectrum of recently conducted research in the context of Myanmar, a society in the midst of challenging transitions, politically, socio-culturally, and economically. Divided into 3 thematic research areas, the first part on Myanmar's policy landscape aims to unravel the integration of peacebuilding into the education sector at macro and micro policy levels. The second part examines the role teachers play in processes of peacebuilding, and the third part examines ways in which formal and non-formal peacebuilding education programs address the agency of youth in Myanmar. This book is an essential guide for students embarking in the field of education, conflict, and peacebuilding.

Political Change, Democratic Transitions and Security in Southeast Asia Mely Caballero-Anthony, 2009-12-16. The fragility of democracy in Southeast Asia is a subject of increasing concern. While there has been significant movement in the direction of democratisation, the authoritarian tendencies of popularly elected leaders and the challenges posed by emerging security threats have given rise to a shared concern about the return of military rule in the region. This book examines the nature of political transitions in Southeast Asia and why political transitions towards political liberalisation and democracy have often failed to take off. It considers political systems in Southeast Asia that have gone through significant periods of transition but continue to face serious challenges toward democratic consolidation. Some key questions that the book focuses on are: Are emerging democracies in the region threatened by weak, failed, or authoritarian leadership? Are political institutions that are supposed to support political changes toward democratisation weak or strong? How can democratic systems be made more resilient? What are the prospects of democracy becoming the defining political landscape in Southeast Asia?
