## **Politics Of A Persian Dynasty:**

**Politics of a Persian Dynasty** Stephen Ruzicka, 1992-01-01 Scholars commonly view the fourth century B C Aegean and eastern Mediterranean world before the time of Alexander the Great in terms of Greek concerns and activities In Politics of a Persian Dynasty however Stephen Ruzicka adopts a non Greek perspective and reconstructs the history of the Hecatomnid dynasty of Caria in the context of Aegean and eastern Mediterranean politics Located in the southwestern corner of Anatolia modern Turkey Caria was one of the semiautonomous satrapies of the Persian Empire in the fourth century It was governed from the 390s to the 330s by the Hecatomnids a native dynastic family whose best known member was Maussollus This comprehensive account provides the first substantial treatment of the dynasty as a whole At first sight one of the lesser histories of the fourth century world the Hecatomnids story is one of great intrinsic interest involving the pursuit of wealth and power in the tangled complex of Aegean Anatolian and Persian politics the modernization of a traditional society and great feats of building including one of the wonders of the ancient world the Mausoleum at Halicarnassus Lying on the fringes of both the Greek and Persian worlds Hecatomnid Caria was a region where different often conflicting political forces converged Ruzicka s account reveals a picture of activities in marked contrast with Demosthenes charges of Hecatomnid imperialism on which succeeding accounts have been built Rather than being concerned with aggression and expansion Ruzicka argues the Hecatomnids sought simply to survive amid the vicissitudes of fourth century Aegean Anatolian and eastern Mediterranean politics While concentrating on the Hecatomnids Ruzicka also offers fresh insights into the Persian Egyptian conflict in the fourth century the background of the King s Peace the Great Satraps Revolt of the 360s the Social War and the Macedonian expansion of the 340s and 330s This reconstruction of Hecatomnid history thus sheds new light on affairs throughout the fourth century Aegean and eastern Mediterranean world from a non Greek point of view **Pahlavi**

**Iran and the Politics of Occidentalism** Zhand Shakibi, 2019-12-12 Zhand Shakibi presents a new interpretation of the political and social dynamics of the last decade of the Shah s rule that challenges the binary view of pro West Shah and anti West Ayatollah by drawing attention to the Pahlavi state s reaction to the intellectual and societal backlash against cultural and moral Occidentalism in its last decade Revising the dominant historiography of the Pahlavi ideological and discursive approach to the West this book draws attention to the changes in the attitude of the Shah the Empress and state intellectuals towards the position and imagery of the West in state conceptions of the authenticity of Iranian national culture and identity Drawing on a wide range of primary sources Shakibi presents the multi faceted relationship of the Pahlavi state to the West and the institutions that were created to manage this such as the Rastakhiz Party This study argues that the Pahlavi state having recognized this backlash attempted to limit the threat to its legitimacy by reformulating intellectual discourses of anti West Occidentalism and incorporating them into the ideology of the Rastakhiz Party In so doing it played a critical role in exacerbating societal sensitivities about the spread of Western influences **Poetics and Politics of Iran's National**

least 50 per cent of its lifetime Since 1776 the United States has spent over one hundred years at war The dream of peace has been universal in the history of humanity So why have we so rarely been able to achieve it In A Political History of the World Jonathan Holslag has produced a sweeping history of the world from the Iron Age to the present that investigates the causes of conflict between empires nations and peoples and the attempts at diplomacy and cosmopolitanism A birds eye view of three thousand years of history the book illuminates the forces shaping world politics from Ancient Egypt to the Han Dynasty the Pax Romana to the rise of Islam the Peace of Westphalia to the creation of the United Nations This truly global approach enables Holslag to search for patterns across different eras and regions and explore larger questions about war diplomacy and power Has trade fostered peace What are the limits of diplomacy How does environmental change affect stability Is war a universal sin of power At a time when the threat of nuclear war looms again this is a much needed history intended for students of international politics and anyone looking for a background on current events Accustomed to Obedience? Joshua P. Nudell,2023-03-06 Many histories of Ancient Greece center their stories on Athens but what would that history look like if they didn t There is another way to tell this story one that situates Greek history in terms of the relationships between smaller Greek cities and in contact with the wider Mediterranean In this book author Joshua P Nudell offers a new history of the period from the Persian wars to wars that followed the death of Alexander the Great from the perspective of Ionia While recent scholarship has increasingly treated Greece through the lenses of regional polis and local interaction there has not yet been a dedicated study of Classical Ionia This book fills this clear gap in the literature while offering Ionia as a prism through which to better understand Classical Greece This book offers a clear and accessible narrative of the period between the Persian Wars and the wars of the early Hellenistic period two nominal liberations of the region The volume complements existing histories of Classical Greece Close inspection reveals that the Ionians were active partners in the imperial endeavor even as imperial competition constrained local decision making and exacerbated local and regional tensions At the same time the book offers interventions on critical issues related to Ionia such as the Athenian conquest of Samos rhetoric about the freedom of the Greeks the relationship between Ionian temple construction and economic activity the status of the Panionion Ionian poleis and their relationship with local communities beyond the circle of the dodecapolis and the importance of historical memory to our understanding of ancient Greece The result is a picture of an Aegean world that is more complex and less beholden narratives that give primacy to the imperial actors at the expense of local developments **Government Leaders, Military Rulers and Political Activists** David W. Del Testa,2014-01-27 In each volume an introductory essay outlines of history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives The biographies that follow are organized in an A Z format each biography is divided into a life section describing the individual s life and influences and a legacy section summarizing the impact of that individual s work throughout history These biographies cover a diverse group of men and women from around

the globe and throughout history Franklin Delano Roosevelt Mao Tse tung and Genghis Khan are among the 200 well known historical figures included in this volume Examples of other lesser known yet important individuals covered in this work are Gustavas Adolphus Swedish empire creator Hatshepsut queen of ancient Egyptian dynasty and Jean Jaur s French socialist leader and pacifist Each synopsis provides information on each individual s enduring impact on the common understanding of fundamental themes of human existence      *Empire and Politics in the Eastern and Western Civilizations* Andrea Balbo,Jaewon Ahn,Kihoon Kim,2022-08-22 The volume includes the proceedings of the 2nd Roma Sinica project conference held in Seoul in September 2019 and aims to compare some features of the ancient political thought in the Western classical tradition and in the Eastern ancient thought The contributors coming from Korea Europe USA China Japan propose new patterns of interpretation of the mutual interactions and proximities between these two cultural worlds and offer also a perspective of continuity between contemporary and ancient political thought Therefore this book is a reference place in the context of the comparative research between Roman and early Greek thought and Eastern thought Researchers interested in Cicero Seneca Plato post Platonic and post Aristotelic philosophical schools history ancient Roman and Chinese languages could find interesting materials in this work      **Syllabus of Lectures** Henry Morse Stephens,1918      *Comparative Political Philosophy* Anthony Parel,Ronald C.
