**Images of Others** Nathaniel Levtow, 2008-06-30 In this volume Nathaniel Levtow articulately interacts with Mesopotamian and Israelite iconoclastic traditions locating Israelite polemics against cult images among a spectrum of ancient West Asian literary genres and ritual practices that target the embodied deities of political opponents Levtow argues that Israelite parodies of Mesopotamian iconic cult were not unique expressions of aniconic monotheism but assertions of Israelite political potency during and shortly after the Babylonian Exile By interpreting Israelite icon parodies in this context Levtow rejects the idea of idolatry as a static native Israelite descriptive category and highlights the ability of Israelite writers to compose authoritative classifications of cult that profoundly influenced ancient and modern understandings of iconic worship practices He concludes that biblical representations of iconic cult reveal dynamic acts of Israelite social formation and exemplify the enduring power of the cult image in ancient West Asian societies [The Politics of Ancient Israel](#) Norman Karol Gottwald, 2001-01-01 This work offers a reconstruction of the politics of ancient Israel within the wider political environment of the ancient Near East Gottwald begins by questioning the view of some biblical scholars that the primary factor influencing Israel's political evolution was its religion **Politics in Ancient Israel** Eben Scheffler, 1999

*Piety and Politics* Dale Launderville, 2003 Ancient kings who did not honor the gods overlooked an indispensable means for ruling effectively in their communities In many traditional societies royal authority was regarded as a divine gift bestowed according to the quality of the relationship of the king both to God or the gods and to the people The tension and the harmony within these human and divine relationships demanded that the king repeatedly strive to integrate the community's piety with his political strategies This fascinating study explores the relationship between religion and royal authority in three of history's most influential civilizations Homeric Greece biblical Israel and Old Babylonian Mesopotamia Dale Launderville identifies similar contrasting and analogous ways that piety functioned in these distinct cultures to legitimate the rule of particular kings and promote community well being Key to this religiopolitical dynamic was the use of royal rhetoric which necessarily took the form of political theology By examining a host of ancient texts and drawing on the insights of philosophers poets historians anthropologists social theorists and theologians Launderville shows how kings increased their status the more they demonstrated through their speech and actions that they ruled on behalf of God or the gods Launderville's work also sheds light on a number of perennial questions about ancient political life How could the people call the king to account Did the people forfeit too much of their freedom and initiative by giving obedience to a king who symbolized their unity as a community How did the religious traditions serve as a check on the king's power and keep alive the voice of the people This study in comparative political theology elucidates these engaging concerns from multiple perspectives making *Piety and Politics* of interest to readers in fields ranging from biblical studies and theology to ancient history and political science

**Politics in the Hebrew Bible** Matthew B. Schwartz, Kalman J. Kaplan, 2013-09-05 We live in an age when it is not uncommon for politicians to invoke religious doctrine to explain their beliefs and positions on everything from domestic to foreign policy And yet many of us would be hard pressed to pinpoint the exact source of these political beliefs in the religious texts that are said to have spawned them In *Politics in the Hebrew Bible* God Man and Government Kalman J Kaplan and Matthew B Schwartz offer a genre straddling examination of the political themes in the Jewish Bible By studying the political implications of 42 biblical stories organized into the categories Social Order Government and Leadership Domestic Relations Societal Relations Morale and Mission and Foreign Policy the authors seek to discern a cohesive political viewpoint embodied by the Jewish Bible Throughout the text the views put forth in the Jewish Bible are compared to those put forth by Greco Roman philosophers in order to argue that the Bible offers a

worldview that fosters a high degree of creative individualism within a supportive non chaotic and well functioning society  
Kaplan and Schwartz are generous with their explanations of Greco Roman philosophical concepts in the introductory chapters and with giving background information about the biblical stories engaged in the text
