Politics Of Breast Cancer Screening:

The Politics of Breast Cancer Screening Alison Hann, 1996 This book looks at the national breast cancer screening programme in the UK and examines the policy making process from the standpoint of political science *Understanding the Mammography Controversy* Madelon L. Finkel, 2005-07-01 Takes us through the development of breast cancer and spotlights the current controversy surrounding the use of mammography to screen for the disease **The Biopolitics of Breast Cancer** Maren Klawiter, 2008 For nearly forty years feminists and patient activists have argued that medicine is a deeply individualizing and depoliticizing institution According to this view medical practices are incidental to people's transformation from patients to patient activists The Biopolitics of Breast Cancer turns this understanding upside down Maren Klawiter analyzes the evolution of the breast cancer movement to show the broad social impact of how diseases come to be medically managed and publicly administered Examining surgical procedures adjuvant therapies early detection campaigns and the rise in discourses of risk Klawiter demonstrates that these practices created a change in the social relations if not the mortality rate of breast cancer that initially inhibited but later enabled collective action Her research focuses on the emergence and development of new forms of activism that range from grassroots patient empowerment to environmental activism and corporate funded breast cancer awareness The Biopolitics of Breast Cancer opens a window onto a larger set of changes currently transforming medically advanced societies and ultimately challenges our understanding of the origins politics and future of the breast cancer movement Maren Klawiter holds a PhD in sociology from the University of California Berkeley She is currently pursuing a law degree at Yale University **Patient No More** Sharon Batt, 2003

The Big Squeeze Handel E. Reynolds, 2012-07-12 In 2009 an influential panel of medical experts ignited a controversy when they recommended that most women should not begin routine mammograms to screen for breast cancer until the age of fifty reversing guidelines they had issued just seven years before when they recommended forty as the optimal age to start getting mammograms While some praised the new recommendation as sensible given the smaller benefit women under fifty derive from mammography many women's groups health care advocates and individual women saw the guidelines as privileging financial considerations over women's health and a setback to decades long efforts to reduce the mortality rate of breast cancer In *The Big Squeeze* Dr Handel Reynolds a practicing radiologist notes that this episode was only the most recent controversy in the turbulent history of mammography since its introduction in the early 1970s In a book written for the millions of women who face the decision about whether to get a mammogram health professionals interested in cancer screening and public health policymakers Reynolds shows how pivotal decisions made during mammography's initial launch made it all but inevitable that the test would be contentious He describes how at several key points in its history the emphasis on mammography screening as a fundamental aspect of women's preventive health care coincided with social and political developments from the women's movement in the early 1970s to breast cancer activism in the 1980s and 90s At the

same time aggressive promotion of mammography made the screening tool the cornerstone of a huge new industry Taking a balanced approach to this much disputed issue Reynolds addresses both the benefits and risks of mammography charting debates for example that have weighed the early detection of aggressively malignant tumors against unnecessary treatments resulting from the identification of slow growing and non life threatening cancers The Big Squeeze ultimately helps to evaluate the ongoing public health controversies surrounding mammography and provides a clear understanding of how mammography achieved its current primacy in cancer screening

Cancer and the Politics of Care Linda Rae Bennett, Lenore Manderson, Belinda Spagnoletti, 2023-02-13 This timely volume responds to the epic impacts of cancer as a global phenomenon Through the fine grained lens of ethnography the contributors present new thinking on how social economic race gender and other structural inequalities intersect compound and complicate health inequalities Cancer experiences and impacts are explored across eleven countries Argentina Brazil Denmark France Greece India Indonesia Italy Senegal the United Kingdom and the United States The volume engages with specific cancers from the point of primary prevention to screening diagnosis treatment or its absence and end of life care Cancer and the Politics of Care traverses new theoretical terrain through explicitly critiquing cancer interventions their limitations and success the politics that drive them and their embeddedness in local cultures and value systems It extends prior work on cancer by incorporating the perspectives of patients and their families at risk groups and communities health professionals cancer advocates and educators and patient navigators The volume advances cross cultural understandings of care resisting simple dichotomies between caregiving and receiving and reveals the fraught ethics of care that must be negotiated in resource poor settings and stratified health systems Its diversity and innovation ensures its wide utility among those working in and studying medical anthropology social anthropology and other fields at the intersections of social science medicine and health equity

Environmental Politics and Liberation in Contemporary Africa M.A. Salih, 2013-03-14 Nowadays the environment looms large in the analysis of conflict in developing societies and the precise role it plays is the subject of an ongoing debate The debate has moved on from the earlier but still popular notions of power struggles class struggles and ethnic conflicts to a perception of conflict as the product of intense group competition for resources Where the state controls the distribution of resources itself inevitably becomes party to conflicts whose bone of contention is access to state power as the most efficient means of gaining access to resources The resources in question are social health education transportation communication recreation etc and material land water housing jobs contracts licenses permits etc In parts of the world and especially in Africa diminishing resources and authoritarian state rule exacerbate group competition leading to political confrontation This is the line I have followed in analysing conflict in the Horn of Africa Markakis 1987 1998 Mohamed Salih's first contribution in this volume is to move the debate a step beyond this line which can be criticized as unduly materialist He does it by bringing culture into the realm of resources not only as a resource in itself but also as the agency that assigns

natural resources their value Culture thus becomes a contextual element in conflict over resources whose value is culturally determined

Gender and American Politics Sue Tolleson-Rinehart, Jyl J Josephson, 2016-09-16 Studies of gender and American political life most often focus only on women This book fills the gap by examining and comparing the roles and behavior of both men and women in political decision making public policy and political institutions Now updated and expanded the book presents a full complement of empirical studies of real and imagined gender gaps New to this edition are chapters on the media legislative behavior foreign policy and the future of the gender dimension in American politics The book is structured to parallel the typical course on the American political system

Policy and Politics for Nurses and Other Health Professionals Donna M. Nickitas, Donna J. Middaugh, Nancy Aries, 2010-03-26 **Policy and Politics for Nurses and Other Health Professionals: Advocacy and Action** Donna M. Nickitas, Donna J. Middaugh, Veronica Feeg, 2018-08-22

Policy and Politics for Nurses and Other Health Professionals Third Edition focuses on the idea that all healthcare providers require a fundamental understanding of the healthcare system including but not limited to knowledge required to practice their discipline Pragmatic Women and Body Politics Margaret Lock, Patricia Alice Kaufert, 1998-01-29 This thought provoking volume compares the responses of women in a variety of countries and cultural settings to modern medical technologies The contributors describe how women in East Africa deal with infertility how American women respond to pre natal diagnostic screening how women in China and Japan choose to make use of reproductive technologies The essays also explore wider themes such as the emergence of the breast cancer movement and how women confront environmental hazards which threaten them and their families It is often assumed that women are passive in the face of biomedical technology but this book shows that they make pragmatic choices with responses ranging from acceptance to rejection or indifference The reception of biomedical technology is situated in its local cultural contexts and vital issues of women s health are related to political and ethnic concerns

Evidence-Based Healthcare in Context Jon Adams, 2016-12-05 With new methods of treatment standardisation resulting in various benefits for patient outcomes evidence based medicine and evidence based practice have emerged as defining features of western healthcare provision in recent years Most health professions are now adopting some form of evidence based framework for clinical training and practice However the rise of evidence based healthcare has drawn sustained criticism regarding the limits of trial based evidence the reductive character of epidemiological study designs and the potential for an erosion of the importance of lay perspectives and clinical judgement Evidence Based Healthcare in Context introduces readers to the social cultural and historical underpinnings of evidence in healthcare critically examining questions about what constitutes evidence and effectiveness from perspectives outside medicine including those of patients complementary medicine and midwifery It focuses on the application of contemporary theoretical debates around the nature of medical and health knowledge providing readers with a series of critical analyses of the production application and translation of evidence in a range of healthcare contexts Featuring cutting edge work from

leading social scientists in the UK US Canada Norway Australia and New Zealand this volume draws on the latest empirical research to provide a thorough critical overview of this important field of health research *Policy and Politics for Nurses and Other Health Professionals* Donna Nickitas, Donna Middaugh, Nancy Aries, 2010-10-25 Policy and Politics for Nurses and Other Healthcare Professionals Advocacy and Action provides a nursing focus within an interdisciplinary approach which intertwines to create an understanding of economics politics and policy in relation to health care Contributors to this text offer future nurses and healthcare providers keen insight about clinical practice and its derivation from regulation laws and policies that have roots in public policy and politics This innovative text also offers practical knowledge on how healthcare professionals can get involved and be proactive in the policy that directly affects their profession and patients Key pedagogical features include chapter objectives summaries examples boxed articles case studies review questions key terms photographs and a tool kit that includes a skills section **The Personal and the Political** Ulrike Boehmer, 2000-05-11 An in depth consideration of women s activism in the AIDS and breast cancer movements *Politics, Health, and Health Care* Theodore R.  Protection and Affordable Care Act of 2010 Thinking Through Breast Cancer Mary Ann G. Cutter, 2018-03-06 Anyone who
 has been diagnosed with breast cancer or knows someone who has been diagnosed with breast cancer recognizes that cancer
 raises a host of questions concerning its nature and how we treat it Such questions frame the difficult decisions that patients
 must make about their treatment and care Thinking Through Breast Cancer is a philosophical investigation of how breast
 cancer is described explained evaluated and socialized in medicine Written by a breast cancer survivor the book interweaves
 personal experience with a systematic breakdown of key and highly pertinent philosophical concepts and brings to light
 insights that emerge in metaphysics epistemology ethics social and political philosophy and bioethics Further it is an
 investigation of the ethical implications of understanding breast cancer Cutter seamlessly combines clinical information with
 philosophical analysis and makes recommendations as to how we can navigate the complex and at times uncertain terrain of
 breast cancer knowledge and care In this way the book is not simply a survey of what we know about breast cancer but a
 personal search for guidance about navigating the complex confusing and frightening terrain of breast cancer diagnosis

Anticipation and Medicine Owen Dempsey, 2018-10-09. Anticipation in Medicine: A Critical Analysis of the Science Praxis and Perversion of Evidence-Based Healthcare looks at an aspect of healthcare rarely addressed: how the capitalist interest in diagnosis and treatment impacts upon the patient and, by extension, the system of healthcare itself. Using Lacanian structures of discourse, Dr. Owen Dempsey critiques the praxis of scientific Evidence-Based Medicine (EBM) applied to anticipatory and preventive healthcare under capitalism and ultimately what constitutes good care. This book features up-to-date case studies that combine real-life patients and the psychological impacts of anticipatory care, such as cancer screening in the modern era. The book identifies the dangers of anticipatory care in medicine and provides compelling and new possibilities for progressing towards a more emancipatory conception of a less knowing, less apparently compassionate, as well as less harmful practice of health care. This is fascinating reading for academics, students, and practitioners interested in critical health psychology, the practice of scientific medicine, and the politics of health and social care.
