The Struggle Over Democracy in the Middle East Nathan J. Brown,Emad Shahin,2013-07-03 Many residents of the Middle East and more recently Western powers have placed great hope in democratization in the region Bringing together a number of experts on the region to provide a broad ranging survey of individual countries this book examines the experiences of activists parties religious groups and governments the influences exerted on them and the difficulties involved in bringing democracy to the Middle East

Political Civility in the Middle East Frederic Volpi,2014-06-11 Contemporary debates about civility are shaped by the dominant liberal and secular narratives of a peaceful world of sovereign nation states For contemporary scholars and policy makers the challenge is to insert meaningfully the political evolution of the Middle East in the dominant liberal democratic discourse about the current international order without invoking ill conceived notions of Islamic exceptionalism The analyses gathered in this book challenge conventional western perspectives on civility as an expression of state guaranteed free association in a non violent space of discourse and behaviour Considering the articulation of civil and civilized state society relations in contemporary Middle Eastern polities this book proposes both conceptual and empirical insights into the dynamics of the local national and trans national formation of civility and of the civil sphere Bypassing traditional oppositions between the western and Islamic modernity it provides an account of the communicative clusters of civility that represent the everyday formations of Islamic and secular subjects in settings organized by authoritarian inclined state institutions and practices It examines how the

grassroots formation of new religious and secular identities subjectivities and their relations with the Other underpin as well as challenge and transform the state led processes of political ordering of a national and regional community This book was originally published as a special issue of Third World Quarterly *Negotiating Change* Jeremy Jones,2006-11-24 The Middle East is frequently portrayed as a collection of stubbornly authoritarian states whose behaviour can only be changed by the table thumping or even the military intervention of the US government But as Jeremy Jones uncovers in this fascinating book the region is in fact engaged in a profound and tumultuous process of political change The movements seeking democracy and reform that have emerged are rooted in local cultures and political traditions And because of this they are overlooked obstructed or even undermined by the US s pursuit of a one size fits all Western democratic model A veteran Harvard Middle East analyst Jeremy Jones travels from Morocco to Oman from Egypt to Iran listening to grassroots activists and interviewing major political leaders such as Turkish Prime Minister Erdogan He provides a vivid picture of the changing political cultures of the Middle East He looks at new forms of political Islam from Hamas in the West Bank to the Justice and Development Party in Turkey to Hizballah in Lebanon demonstrating how each movement grew out of its local context He meets women politicians in the Gulf Hamas leaders in Ramallah and democracy activists in Jordan and Syria seeking to understand how these new forces relate to each other to their societies and to Western policies In a trenchant critique of the much vaunted US democratisation agenda Jones concludes that a participatory and accountable political culture is slowly emerging in spite not because of Western foreign policies **Good Governance in the Middle East Oil Monarchies** Martin

Hetherington,Tom Pierre Najem,2003-09-02 This book examines the concept of good governance and how it is applied in the states of the Gulf Co operation Council Break all the Borders Ariel I. Ahram,2019-01-09 Since 2011 civil wars and state failure have wracked the Arab world underlying the misalignment between national identity and political borders In Break all the Borders Ariel I Ahram examines the separatist movements that aimed to remake those borders and create new independent states With detailed studies of the Islamic State in Iraq and Syria the federalists in eastern Libya the southern resistance in Yemen and Kurdish nationalist parties Ahram explains how separatists captured territory and handled the tasks of rebel governance including managing oil exports electricity grids and irrigation networks Ahram emphasizes that the separatism arose not just as an opportunistic response to state collapse Rather separatists drew inspiration from the legacy of Woodrow Wilson and ideal of self determination They sought to reinstate political autonomy that had been lost during the early and mid twentieth century Speaking to the international community separatist promised a more just and stable world order In Yemen Syria Iraq and Libya they served as key allies against radical Islamic groups Yet their hopes for international recognition have gone unfulfilled Separatism is symptomatic of the contradictions in sovereignty and statehood in the Arab world Finding ways to integrate instead of eliminate separatist movements may be critical for rebuilding regional order
