The Politics of Community Elizabeth Frazer, Nicola Lacey, 1993 **The Problems of Communitarian Politics**

Elizabeth Frazer, 1999-10-28 The book examines the development of the idea of community in western liberal democracy and the way in which it inspires participants in community development and community politics Controversially the book argues that community is a contradictory idea which ultimately frustrates participants in democratic politics Feminist Philosophy

Herta Nagl-Docekal, 2018-03-08 Are we in a post feminist era Has the term feminist grown out of its resisted stance What from today's standpoint is an appropriate concept of feminist philosophy And is it not the case that all people thinking democratically must share its central concern In this book internationally acclaimed philosopher Herta Nagl Docekal discusses and critiques the theories of today Her study ranges across philosophical anthropology aesthetics philosophy of science the critique of reason political theory and philosophy of law Continually confronting the persistent problem of the hierarchical relations of the sexes Nagl Docekal affirms the importance of feminist thought as she presses for effective approaches to common problems

Breach of the Peace Pamela R. Ferguson, 2014-03-18 Pamela Ferguson describes and critiques the commonly prosecuted crime of breach of the peace She traces the development of the crime from the mid 19th century to the present day and also considers related statutory offences The latter include those offences created by the Criminal Justice and Licensing Scotland Act 2010 and the Offensive Behaviour at Football and Threatening Communications Scotland Act 2012 It is argued that breach of the peace remains an overly broad and ill defined crime despite the appeal court's attempts at narrowing its definition *Rebuilding Communities in an Age of Individualism* Paul Hopper, 2017-07-05

As modern societies become increasingly individualistic this fascinating book examines how we can maintain and revive local communities and community life It demonstrates how the major developments and processes of our time notably globalization post industrialism and de traditionalization contribute to this individualism to the detriment of community life The author examines how community is a necessary and important component of human life and discusses possible ways in which to arrest its decline In this regard strategies geared to fostering trust and social capital are outlined as the basis for reinvigorating community life The volume provides a coherent and distinct analysis of community as well as offering concrete policy prescriptions to counter the excessive individualism of our times In both the nature and scope of its analysis it offers a unique contribution to an extremely important issue in the contemporary period one that increasingly preoccupies politicians academics and ordinary citizens Autonomy and Identity Ros Hague, 2011-04-06 This book examines issues raised by

feminist theory and contemporary political theory around questions of identity and autonomy Drawing on Hegel

Given the polemic nature of promoting community in schools and society today, this fascinating book uses an interdisciplinary approach of political philosophy and sociology to develop theoretical principles for the promotion of communities and subsequently applies them to the realities of schools and society. Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title and author

Shifting Boundaries Tim Schouls, 2011-11-01 Canada is often called a pluralist state but few commentators view Aboriginal self government from the perspective of political pluralism Instead Aboriginal identity is framed in terms of cultural and national traits while self government is taken to represent an Aboriginal desire to protect those traits Shifting Boundaries challenges this view arguing that it fosters a woefully incomplete understanding of the politics of self government Taking the position that a relational theory of pluralism offers a more accurate interpretation Tim Schouls contends that self government is better understood when an identification perspective on Aboriginal identity is adopted instead of a cultural or national one He shows that self government is not about preserving cultural and national differences as goods in and of themselves but rather is about equalizing current imbalances in power to allow Aboriginal peoples to construct their own identities In focusing on relational pluralism Shifting Boundaries adds an important perspective to existing theoretical approaches to Aboriginal self government It will appeal to academics students and policy analysts interested in Aboriginal governance cultural studies political theory nationalism studies and constitutional theory

and gay rights through law but is sceptical about how useful law can be in eradicating discriminatory social practices This work sheds new light on the equal rights debate and raises issues of central importance to the role of law in society
