The Politics of Food for Peace Peter A. Toma, 1967 **Vietnam and the American Political Tradition** Randall B. Woods, 2003-02-24 This volume is intended to demonstrate how opposition to the war in Vietnam the military industrial complex and the national security state crystallized in a variety of different and often divergent political traditions Indeed for many of the figures discussed dissent was a decidedly conservative act in that they felt that the war threatened traditional values mores and institutions even though their definitions of what was sacred differed profoundly To an extent many of the dissenters treated in this volume were at one time Cold War liberals During the course of the Vietnam War they came to see the foreign policy which they were supporting with its willingness to invoke the democratic ideal and at the same time tolerate dictatorships in the cause of anticommunism as morally and politically corrupt Most dissenters increasingly came to perceive cold war liberalism as a radical departure that threatened the fundamental ideals of the republic Kennedy, Johnson, and the Nonaligned World Robert B. Democratic Commitments Lisa L. Martin, 2000-04-17 From the refusal of the U S Congress to approve fast track trade authority and certain foreign aid packages to the obstacles placed by Western European parliaments in the path of economic integration legislatures often interfere with national leaders efforts to reach and implement predictable international agreements This seems to give an advantage to dictators who can bluff with confidence and make decisions without consultation and many assume that even democratic governments would do better to minimize political dissent and speak foreign policy from a single mouth In this thoughtful empirically grounded challenge to the assumption that messy domestic politics undermine democracies ability to conduct international relations Lisa Martin argues that legislatures and particularly the apparently problematic openness of their proceedings actually serve foreign policy well by giving credibility to the international commitments that are made Examining the American cases of economic sanctions the use of executive agreements versus treaties and food assistance in addition to the establishment of the European Union Martin concludes that if institutionalized even rancorous domestic conversations between executives and legislatures augment rather than impede states international dealings Such interactions strengthen and legitimize states bargaining positions and international commitments increasing their capacity to realize international cooperation By expanding our comprehension of how domestic politics affect international dialogue this work is a major advance in the field of international relations and critical reading for those who study or forge foreign policy *Food for Peace* United States.
