Politics Of Industrial Recruitment Japanese Automobile Investment And Economic Development In The American States:

The Politics of Industrial Recruitment Ernest J. Yanarella, William Green, 1990-06-15 The essays in this volume explore the phenomenon of foreign industrial recruitment in terms of the experience of six mid American states Michigan Ohio Indiana Illinois Kentucky and Tennessee in attracting Japanese automobile assembly facilities This experience and the choice of plant sites by Mazda Honda Fuji Isuzu Mitsubishi Toyota and Nissan was invariably determined by multi state negotiations and escalating state government incentive packages To understand this phenomenon and its consequences the essays in this volume sketch its comparative historical economic and legal dimensions examine the dynamics of Japanese automobile investment in terms of the six site specific studies and then place these industrial recruitment experiences within a wider framework of federal state relations and the prospects for a national industrial policy Part I illuminates the background to and the comparative setting for the mid American competition for Japanese automobile plants in the era of international corporate flight Part II carefully probes the dynamics of development in terms of six site specific studies Finally Part III places these six state industrial recruitment experiences within the wider framework of federal state relations This book makes informative reading for anyone interested in the automobile industry Japanese American trade policies and federal state relations *The Political Economy of Japanese Foreign Direct Investment in the US and the UK* C.

Aaron, 1998-10-26 Inward investment by Japanese manufacturing multinationals has come to have a profound influence on the UK and US economies Focusing on the 1970s and 1980s this study looks at the political economy of the investment location decision using an original analytical framework and four detailed case studies In addition to the larger issues of protectionism globalization and inter firm competition it investigates whether and how subnational factors can influence the specific subnational locational decision an issue of great interest to any subnational region attempting to adapt to structural shifts in the global economy The New Competition for Inward Investment Nicholas A. Phelps, Philip Raines, 2003-01-01

The competition for inward investment among regions and within and between nations is intense and the promotional agencies concerned are increasingly innovative in their competitive strategies This book examines the new competition for inward investment *Japanese Inward Investment in UK Car Manufacturing* Young-Chan Kim, 2018-02-06 This title was first published in 2002 This compelling text provides fresh insight into an area that is often touched upon but rarely examined in any great detail the relationship between Multinational Enterprises MNEs and their host governments Taking Japanese Foreign Direct Investment FDI strategy arguably the model of FDI Young Chan Kim takes a revealing look at why the United Kingdom UK has dominated among the EU member states for FDI destination while ironically losing its nationalized car manufacturers Scholars of business history international business and business economics will find this work invaluable

Tennessee Government and Politics John R. Vile, Mark E. Byrnes, 1998 Tennessee has been a bellwether of recent trends

in politics and governmental policies The state s reforms in health care education and economic development have anticipated changes nationwide TENNESSEE GOVERNMENT AND POLITICS offers a timely and comprehensive new survey of the state s political evolution *North American Auto Unions in Crisis* William C. Green, Ernest J. Yanarella, 1996-02-01 In this edited volume U S and Canadian political scientists sociologists and labor educators contribute to the debate of the crisis of the Fordist regime of mass production and its implications for organized labor They present the first comparative cross national study of the labor relations in Japanese North American automobile transplants Japanese joint ventures with the Big Three automakers and Japanese style General Motors auto plants They specifically focus on the challenges the Japanese lean production model has posed to North American auto labor s organizing collective bargaining and shop floor representation experiences and how the United Auto Workers and the Canadian Auto Workers have responded to these challenges The authors point to the pressing need for the North American labor movement whose legal rights are rooted in a mass production regime to rethink its interests and goals if it is to successfully confront the formidable obstacles presented by a changing international and hemispheric political economy increasingly dominated by Japanese lean production practices

Heartland Robert Perrucci, 2017-09-29 The idea for this book was formed during the early 1980s when the author was studying the impact of plant closings on displaced workers and communities In one community workers who were displaced by a plant closing expected to receive retraining funds through the Job Training and Partnership Act JTPA only to find that the state had committed all the JTPA funds to train new workers for a Japanese transplant Soon it became apparent that deindustrialization job loss and economically depressed communities were linked with the escalating interstate competition to provide multi million dollar incentive packages for businesses to settle in their state When Japanese automobile companies

considered coming to the United States they fueled the interstate competition for these large projects which promised thousands of jobs and economic growth

Kentucky Government, Politics, and Public Policy James C. Clinger,Michael W. Hail,2013-11-05 The cornerstone of the American republic is an educated active and engaged citizenry however the multifaceted inner workings of government and the political forces that shape it are incredibly complex Kentucky Government Politics and Public Policy is the first book in nearly three decades to provide a comprehensive overview of the commonwealth s major governing and political institutions and the public policy issues that profoundly affect Kentuckians daily lives In this groundbreaking volume editors James C Clinger and Michael W Hail have assembled respected scholars from across the state to inform citizens about their governing institutions the consequences of their policy choices and the intricacies of the political process They provide clear and authoritative information on Kentucky s government and explain significant trends and patterns exploring the legacy of the state s political history and illuminating the contributions of influential Kentucky politicians such as Henry Clay Abraham Lincoln and Jefferson Davis The contributors also address essential topics such as the structure and function of the three branches of government the constitution and federalism and intergovernmental relations as well as administration budgeting and finance They analyze key issues in education policy economic and community development and health care in great detail explaining persistently controversial topics such as campaign finance the cost of elections ethics and the oversight of regulatory agencies From the executive branch to the legislature from the court system to political parties there is no better primer on government in the commonwealth

Americanizing Japanese Firms Yukio Yotsumoto,2010-05-10 Americanizing Japanese Firms examines the concept of corporate social responsibility in Japanese manufacturing companies within the United States The study compares the corporate philanthropy of Japanese companies against American and British companies Specifically the study investigates characteristics of Japanese companies that influence the level and nature of the corporate philanthropy undertaken The relationship between size of the company and the level and nature of corporate social responsibility is also examined Finally the study explores how Japanese corporations learn about the American approach of corporate philanthropy In his investigations the author considered two contexts first the constitutions of Japan and the United States are analyzed at a national level to determine the position or importance of corporate philanthropy within the societies comparatively and second the communities in which corporations are located and act for social contribution are investigated

Foreign Direct Investment and Development Theodore H. Moran,1998 Foreign Direct Investment and Development is an excellent textbook for courses in trade development and international political economy

The Changing U.S. Auto Industry James M. Rubenstein,2002-03-11 In recent years car production in the United States has undergone changes on a scale unknown since the pioneering era prior to World War One New plants have been opened in the interior of the country while most of those located along the east and west coast have been closed The Changing U S

Auto Industry uses concepts drawn from geography such as access to markets and shipments of parts to understand some of the reasons for the recent changes. Also critical is the changing role of labour in the production process including the search by Japanese firms for a union free environment, the relocation of some production to Mexico and the debate over the appropriate level of union management cooperation.

Japanese Direct Investment in U.S. Manufacturing Christine Evans-Klock, 2005 *Unwanted Company* Jonathan Crystal, 2018-07-05

In the last quarter century the U S economy has been transformed by a large inflow of direct investment from abroad. Foreign companies mainly from Europe and Japan have built factories and acquired U S firms at an ever increasing rate. Jonathan Crystal finds inconsistencies in how American businesses have responded to this globalization of production. U S firms especially multinationals have conflicting interests regarding investment protection. Crystal shows many American firms under siege from overseas competitors have already expended considerable energy in obtaining trade protection but they are competing not only with foreign imports but also with locally established foreign owned firms. American businesses may favor stricter regulation of foreign companies that threaten their bottom line but they also consider their own interests as global investors subject to retaliatory protection in other countries. Restrictions on foreign investment it seems are not so attractive when they are imposed by other countries. *Unwanted Company* examines the different ways in which important U S industries including semiconductors, automobiles, steel, consumer electronics, telecommunications and airlines reacted to this new challenge. It focuses on the political responses of U S owned firms to how Washington ought to regulate foreign direct investment and how it ought to treat foreign owned firms in the United States. Some industries welcomed or at least didn't oppose foreign investment whereas others sought restrictive and discriminatory policies. Crystal demonstrates how the nature of the domestic political environment shapes the translation of economic interests into policy preferences.

Competing for Capital Kenneth P. Thomas, 2000-10-19

As corporations search for new production sites governments compete furiously using location subsidies and tax incentives to lure them. Yet underwriting big business can have its costs: reduction in economic efficiency, shifting of tax burdens, worsening of economic inequalities or environmental degradation. *Competing for Capital* is one of the first books to analyze competition for investment in order to suggest ways of controlling the effects of capital mobility. Comparing the European Union's strict regulation of state aid to business with the virtually unregulated investment competition in the United States and Canada, Kenneth P. Thomas documents Europe's relative success in controlling and decreasing subsidies to business even while they rise in the United States. Thomas provides an extensive history of the powers granted to the EU's governing European Commission for controlling subsidies and draws on data to show that those efforts are paying off. In reviewing trends in North America he offers the first comprehensive estimate of U S subsidies to business at all levels to show that the United States is a much higher subsidizer than it portrays itself as being. Thomas then suggests what we might learn from the European experience to control the effects of capital mobility not only within or between states but also

globally within NAFTA and the World Trade Organization as well. He concludes with policy recommendations to help promote international cooperation and cross fertilization of ways to control competition for investment. The Limits Of Globalization Alan Scott, 2013-01-11 Both the force and the limitations of the globalizing forces operating in the world today can best be understood through an analysis of their concrete manifestations. Using examples from the people's art of Potsdammer Platz to the ways in which Western cultural icons are reinterpreted in Asian magazines, this collection of essays unpicks the rhetoric of globalization in political analysis, cultural theory, and urban and economic sociology, and exposes the myth of the global society as in many cases a dangerous exaggeration. *Development Centre Studies Policy Competition for Foreign Direct Investment: A study of Competition among Governments to Attract FDI* Oman Charles P., 2000-03-09 This book looks at the evidence and assesses the impact of competition among governments to attract FDI. It finds little evidence directly to support fears of a global race to the bottom in labour and environmental standards. Japan in the Bluegrass Pradyumna P. Karan, 2021-11-21 Fifteen years after Toyota announced it would build a manufacturing plant in the heart of the Bluegrass, Kentucky crafts are being used to help sell Camrys at car dealerships in Japan, and sushi and Japanese condiments are widely stocked on grocery shelves in a number of cities across Kentucky. In early 2000, the state boasted more than 100 Japanese companies representing a total investment of more than seven billion dollars, employing more than 33,000 Kentuckians. *Japan in the Bluegrass* is the first book to focus on the regional and local impact of the globalization of Japanese businesses, particularly Toyota in the United States. Fourteen American and Japanese contributors include geographers, political scientists, sociologists, and an economist, urban planner, and environmental scientist, and their essays go beyond the traditional exploration of politics and economics to examine the social, cultural, and environmental effects of Japanese investment in Kentucky. The authors examine the factors that brought these companies to this part of the United States, which range from a well-developed system of highways to cooperation from state and local governments to hefty incentive packages. They discuss the significant influence of Toyota and its suppliers on local communities in Kentucky, as well as in Toyota City, Japan. Essays also cover the social and cultural shifts that have resulted from Japanese investment, including educational activities in public schools, the relationship between business and local media, and the integration of Japanese managers and their families into Kentucky communities. **Hybrid Factory** Tetsuo Abo, 1994-05-12 As Japanese automotive and electronics firms have expanded their operations into the United States, more attention has been focused on Japanese management and manufacturing. In *Hybrid Factory*, a team of Japanese and American scholars explores the potential for the effective transfer of Japanese management and production systems that have been credited with giving Japanese firms their competitive superiority to a much different national culture. The book looks in particular at which management factors that provide strength to Japanese production systems can survive the transfer to the United States, or whether the radically different social and cultural environment makes such a transfer impossible.
