Politics Of Land Ralph Naders Study Group Report On Land Use In California:

Politics of Land Robert C. Fellmeth, 1973 A condensation of Power and land in California prepared by the Center for Study of Responsive Law Ecological Research Series, 1976 EPA-600/3, 1976-04 **The Politics of Air Pollution** George A. Gonzalez, 2012-02-01 Who has been at the political forefront of clean air policy development in the United States In *The Politics of Air Pollution* George A Gonzalez argues that the answer is neither the federal government nor environmental groups but rather locally oriented economic elites in conjunction with state and local governments These local growth coalitions composed of mostly large landholders land developers and the owners of regional media and utility firms support clean air policies insofar as they contribute to the creation of a positive investment climate and in turn bring about greater profits through increased land values and an expanded local consumer base **Imperial San Francisco** Gray Brechin, 2006-10-03 Imperial San Francisco provides a myth shattering interpretation of the hidden costs that the growth of San Francisco has exacted on its surrounding regions presenting along the way a revolutionary new theory of urban development Palo Alto Daily News 86 photos **Imperial San Francisco, With a New Preface** Gray Brechin, 2006-10-03 First published in 1999 this celebrated history of San Francisco traces the exploitation of both local and distant regions by prominent families the Hearsts de Youngs Spreckelses and others who gained power through mining ranching water and energy transportation real estate weapons and the mass media The story uncovered by Gray Brechin is one of greed and ambition on an epic scale Brechin arrives at a new way of understanding urban history as he traces the connections between environment economy and technology and discovers links that led ultimately to the creation of the atomic bomb and the nuclear arms race In a new preface Brechin considers the vulnerability of cities in the post 9 11 twenty first century

Bitter Wages: Ralph Nader's Study Group Report on Disease and Injury on the Job Joseph A. Page, Mary-Win O'Brien, Ralph Nader, 1973 Study of occupational health and occupational safety in the USA comments on relevant labour legislation the Occupational Health and Safety Act of 1970 examines the attitudes of employers trade unions local government central government etc and discusses ways of improving working conditions in factories References Valley of Heart's Delight Anne Marie Todd, 2022-10-25 This agricultural history explores the transformation of the Santa Clara Valley over the past one hundred years from America's largest fruit producing region into the technology capital of the world In the latter half of the twentieth century the region's focus shifted from fruits such as apricots and prunes to computers Both personal and public rhetoric reveals how a sense of place emerges and changes in an evolving agricultural community like the Santa Clara Valley Through extensive archival research and interviews Anne Marie Todd explores the concepts of place and placelessness arguing that place is more than a physical location and that exploring a community's sense of place can help us to map how individuals experience their natural surroundings and their sense of responsibility towards the local environment Todd extends the concept of sense of place to describe Silicon Valley as a non place where weakened or

disrupted attachment to place threatens the environment and community The story of the Santa Clara Valley is an American story of the development of agricultural lands and the transformation of rural regions *The Pacific Historical Review* Anna Marie Hager,1976 **Encyclopedia of White-Collar and Corporate Crime** Lawrence M. Salinger,2013-06-14 Since the first edition of the Encyclopedia of White Collar and Corporate Crime was produced in 2004 the number and severity of these crimes have risen to the level of calamity so much so that many experts attribute the near Depression of 2008 to white collar malfeasance namely crimes of greed and excess by bankers and financial institutions Whether the perpetrators were prosecuted or not white collar and corporate crime came near to collapsing the U S economy In the 7 years since the first edition was produced we have also seen the largest Ponzi scheme in history Maddoff an ecological disaster caused by British Petroleum and its subcontractors Gulf Oil Spill and U S Defense Department contractors operating like vigilantes in Iraq Blackwater White collar criminals have been busy and the Second Edition of this encyclopedia captures what has been going on in the news and behind the scenes with new articles and updates to past articles Farming for Profit in a Hungry World Michael Perelman,1978-02 Dawn at Mineral King Valley Selmi, Daniel P.,2022-07-06 The story behind the historic Mineral King Valley case which reveals how the Sierra Club battled Disney s ski resort development and launched a new environmental era in America In our current age of climate change induced panic it s hard to imagine a time when private groups were not actively enforcing environmental protection laws in the courts It wasn t until 1972 however that a David and Goliath esque Supreme Court showdown involving the Sierra Club and Disney set a revolutionary legal precedent for the era of environmental activism we live in today Set against the backdrop of the environmental movement that swept the country in the late 1960s and early 1970s Dawn at Mineral King Valley tells the surprising story of how the US Forest Service the Disney company and the Sierra Club each struggled to adapt to the new rapidly changing political landscape of environmental consciousness in postwar America Proposed in 1965 and approved by the federal government in 1969 Disney s vast development plan would have irreversibly altered the practically untouched Mineral King Valley a magnificently beautiful alpine area in the Sierra Nevada mountains At first the plan met with unanimous approval from elected officials government administrators and the press it seemed inevitable that this expanse of wild natural land would be radically changed and turned over to a private corporation Then the scrappy Sierra Club forcefully pushed back with a lawsuit that ultimately propelled the modern environmental era by allowing interest groups to bring litigation against environmentally destructive projects An expert on environmental law and appellate advocacy Daniel P Selmi uses his authoritative narrative voice to recount the complete history of this revolutionary legal battle and the ramifications that continue today almost 50 years later **Dawn at Mineral King Valley** Daniel P. Selmi,2024-05-08 Law professor Daniel Selmi chronicles a seminal case that opened a new field of law environmental protection It shows how against long odds the Sierra Club prevented the Walt Disney Company from building a massive ski resort in the magnificent Mineral King Valley of the Sierra Nevada

Mountains Proposed in 1965 the vast Disney development would have irretrievably altered the relatively untouched Mineral King Valley in the Southern Sierra Nevada mountains The Sierra Club's lawsuit against the development went to the United States Supreme Court and resulted in an immensely important decision that not only ultimately preserved the Mineral King Valley but also opened the way for environmental groups to challenge other destructive projects throughout the country by finding that public interest groups had standing or the right to bring lawsuits like this The story is set against the backdrop of the environmental movement that suddenly emerged and swept the country in the late 1960s and early 1970s

The Fruited Plain Walter Ebeling, 2023-11-15 Some consider American agriculture as one of the wonders of the modern world In this book Walter Ebeling tells its story Professor Ebeling grew up on a farm loves the soil and had the good fortune to have been closely associated with the land in all its aspects Beginning with a brief history of why and how preagricultural peoples changed from hunters and gatherers and eventually became tillers of the soil Professor Ebeling then deals with the seven geographic regions of the United States from the East to California giving the history and present status of agriculture for each region Although the main thrust of *The Fruited Plain* is the drama romance and excitement of the American agricultural experience Professor Ebeling is concerned with the environmental ecological and sociological aspects of agriculture and its supporting industries He discusses environmental problems in America that began when the Indians shifting agriculture allowing for long periods of soil restoration was replaced by the white man's permanent agriculture He examines the modern technology for a successful and environmentally viable permanent agriculture and how it can be implemented on a much larger scale The questions asked and answered are what are the principal environmental problems What is being and or can be done about soil erosion Scarcity of water Urban encroachment on agricultural lands What directions can be taken by benevolent technology Does technology have remedies for land that is susceptible to water erosion and loss of topsoil Likewise pollution and environmental degradation resulting from excessive use of pesticides Our society much recognize the importance of protecting our agricultural resources and Professor Ebeling in this monumental book gives many suggestions on how to accomplish the sustained utilization of America's great resource the farmlands Some consider American agriculture as one of the wonders of the modern world In this book Walter Ebeling tells its story Professor Ebeling grew up on a farm loves the soil and had the good fortune to have been closely associated with the land in all i

The Silicon Valley of Dreams David Pellow, Lisa Sun-Hee Park, 2002-12-22 Examines the environmental racism at the foundation of the Silicon Valley economy Next to the nuclear industry the largest producer of contaminants in the air land and water is the electronics industry Silicon Valley hosts the

highest density of Superfund sites anywhere in the nation and leads the country in the number of temporary workers per capita and in workforce gender inequities Silicon Valley offers a sobering illustration of environmental inequality and other problems that are increasingly linked to the globalization of the world's economies In *The Silicon Valley of Dreams* the authors take a hard look at the high tech region of Silicon Valley to examine environmental racism within the context of immigrant patterns labor markets and the historical patterns of colonialism One cannot understand Silicon Valley or the high tech global economy in general they contend without also understanding the role people of color play in the labor force working in the electronic industry's toxic environments These toxic work environments produce chemical pollution that in turn disrupts the ecosystems of surrounding communities inhabited by people of color and immigrants The authors trace the origins of this exploitation and provide a new understanding of the present day struggles for occupational health and safety *The Silicon Valley of Dreams* will be critical reading for students and scholars in ethnic studies immigration urban studies gender studies social movements and the environment as well as activists and policy makers working to address the needs of workers communities and industry
