Politics Of Lawmaking In Post Mao China Institutions Processes And Democratic Prospects:

The Politics of Lawmaking in Post-Mao China, 1999 This volume examines how China's political and legal structure is quietly but dramatically changing from within rather than being overthrown from below as in Eastern Europe The Politics of Lawmaking in Post-Mao China Murray Scot Tanner, Associate Professor of Political Science Murray Scot Tanner, 1999 China's struggle to develop its legal system is helping to drive an inadvertent transition towards democratization in the future Since Mao Zedong's death the China Communist Party's CCP leaders have increasingly shifted to drafting most of their key policies as laws rather than Party edicts The result has been a quiet but dramatic change in Chinese politics recasting the relationship between the key lawmaking institutions the Communist Party bureaucracy the Cabinet State Council and China's legislature the National People's Congress NPC No longer a rubber stamp NPC leaders and deputies though still overwhelmingly members of the Communist Party have become far more assertive and less disciplined in their dealings with other top Party and government leaders Deputies now commonly stall amend block and increasingly vote no on proposals approved by the Party Politburo and the Cabinet China's NPC like successful legislatures elsewhere has also used its growing bureaucracy and subcommittees as institutional weapons to expand its influence over policy The Politics of Lawmaking in China is the first book to examine all of the changing political institutions involved in lawmaking and show how their evolution is reshaping Chinese politics Drawing on internal documentation and interviews it includes new information about how the CCP leadership attempts to guide the increasingly important process of lawmaking and how this power has eroded greatly since 1978 Through detailed case studies the book demonstrates how and why the top leadership is often forced to settle for far less than it wants in hammering out laws Rather than encouraging the sort of anti communist mass uprising from below that occurred in Eastern Europe in 1989 this book argues that China's changes in lawmaking are contributing to a more quiet transition from within the Communist system *The New Cambridge Handbook of Contemporary China* Colin Mackerras, 2001-10-15 Completely revised and updated the New Cambridge Handbook of Contemporary China is an indispensable and manageable guide to the world's most populous nation Emphasising the period from the 1990s the book covers and includes the following subjects a chronology detailing events since 1949 politics and law biographies of eminent individuals an annotated bibliography of books journals and websites relevant to China in the 1990s and beyond foreign relations especially with the United States and Russia the economy including China's main economic reform programs and objectives education population and a gazetteer With an excellent selection of figures diagrams and maps this book will be the standard reference to contemporary China for students teachers journalists travelers academic and government researchers business people policy makers and general readers **The Cultural Logic of Politics in Mainland China and Taiwan** Tianjian Shi, 2015 This book uses surveys statistics and case studies to explain why and how cultural norms affect political attitudes and behavior The Paradox of China's Post-Mao Reforms Merle Goldman, Roderick

MacFarquhar, 1999 China's bold program of reforms launched in the late 1970s the move to a market economy and the opening to the outside world ended the political chaos and economic stagnation of the Cultural Revolution and sparked China's unprecedented economic boom Yet while the reforms made possible a rising standard of living for the majority of China's population they came at the cost of a weakening central government increasing inequalities and fragmenting society The essays of Barry Naughton Joseph Fewsmith Paul H B Godwin Murray Scot Tanner Lianjiang Li and Kevin J O'Brien Tianjian Shi Martin King Whyte Thomas P Bernstein Dorothy J Solinger David S G Goodman Kristen Parris Merle Goldman Elizabeth J Perry and Richard Baum and Alexei Shevchenko analyze the contradictory impact of China's economic reforms on its political system and social structure They explore the changing patterns of the relationship between state and society that may have more profound significance for China than all the revolutionary movements that have convulsed it through most of the twentieth century *Chinese Authoritarianism in the Information Age* Suisheng Zhao, 2019-06-24 This book examines information and public opinion control by the authoritarian state in response to popular access to information and upgraded political communication channels among the citizens in contemporary China Empowered by mass media particularly social media and other information technology Chinese citizens' access to information has been expanded Publicly focusing events and opinions have served as catalysts to shape the agenda for policy making and law making narrow down the set of policy options and change the pace of policy implementation Yet the authoritarian state remains in tight control of media including social media to deny the free flow of information and shape public opinion through a centralized institutional framework for propaganda and information technologies The evolving process of media control and public opinion manipulation has constrained citizens' political participation and strengthened Chinese authoritarianism in the information age The chapters originally published as articles in the *Journal of Contemporary China* **Unstately Power** Lynn T. White, III, 2015-06-03 A critique of America's flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews *Comparing Asian Politics* Sue Ellen M. Charlton, 2011-05-14 *Comparing Asian Politics* presents an invaluable comparative examination of politics and government in three Asian nations India China and Japan The author elucidates the links between politics and each nation's distinctive cultural and historical contexts and demonstrates the intermingling and grafting of Asian traditions with the influence of Western values and institutions National identity political cohesion and socioeconomic change emerge as central to how politics has developed in each nation state Including new focus boxes on political and social issues and other important countries in Asia this third edition provides insight into topics such as the significance of constitutions in the political process the parliamentary system in Asia the regionalization of politics and the importance of levels of government the decay of one party rule the links between development and democratization and the impact of globalization This essential book not only illuminates the politics of India

China and Japan in relation to one another it also suggests to readers how their own experience of politics can be informed by understanding the politics and government of these three Asian nations

Chinese Law: Context and Transformation Jianfu Chen, 2015-12-22 Eight years of changes in China have passed since the publication of the previous highly successful edition of this book These changes have not just been about economic development Among the many transformations there has been another quiet peaceful and largely successful but far from perfect revolution in the area of law whose deficiencies have been more often mercilessly examined and documented than have its historical achievements and significance This legal revolution is the subject matter of the present book Like the previous edition it examines the historical and politico economic context in which Chinese law has developed and transformed focusing on the underlying factors and justifications for changes It attempts to sketch the main trends in legal modernisation in China offering an outline of the main features of contemporary Chinese law and a clearer understanding of its nature from a developmental perspective It offers comprehensive coverage of topics such as legal culture and modern law reform constitutional law legal institutions law making administrative law criminal law criminal procedure law civil law property family law contracts law on business entities securities bankruptcy intellectual property law on foreign investment and trade and implementation of law Fully revised updated and considerably expanded this edition of Chinese Law Context and Transformation is a valuable and important resource for researchers policy makers and teachers alike

China's Party Congress Guoguang Wu, 2015-09-18 Nominally the highest decision making body in the Chinese Communist Party the Party Congress is responsible for determining party policy and the selection of China's leaders Guoguang Wu provides the first analysis of how the Party Congress operates to elect Party leadership and decide Party policy and explores why such a formal performance of congress meetings delegate discussions and non democratic elections is significant for authoritarian politics more broadly Taking institutional inconsistency as the central research question this study presents a new theory of mutual contextualization to reveal how informal politics and formal institutions interact with each other Wu argues that despite the prevalence of informal politics behind the scenes authoritarian politics seeks legitimization through a combination of political manipulation and the ritual mobilization of formal institutions This ambitious book is essential reading for all those interested in understanding contemporary China and an innovative theoretical contribution to the study of comparative politics

China's Social Policy Kinglun Ngok, Chak Kwan Chan, 2015-10-23 This book critically and comprehensively examines China's welfare development amidst its rapid economic growth and increasing social tensions It covers the main policy areas from China's inception of the open door policy in 1978 to the new administration of Jinping Xi and Keqiang Li including social security health education housing employment rural areas migrant workers children and young people disabled people old age pensions and non governmental organisations In particular it critically analyses the impact of policy changes on the well being of Chinese people

Making Autocracy Work Rory Truex, 2016-10-27 Can meaningful representation emerge in an

authoritarian setting If so how when and why Making Autocracy Work identifies the trade offs associated with representation in authoritarian environments and then tests the theory through a detailed inquiry into the dynamics of China's National People's Congress NPC the country's highest formal government institution Rory Truex argues that the Chinese Communist Party CCP is engineering a system of representation within bounds in the NPC encouraging deputies to reflect the needs of their constituents but only for non sensitive issues This allows the regime to address citizen grievances while avoiding incendiary political activism Data on NPC deputy backgrounds and behaviors is used to explore the nature of representation and incentives in this constrained system The book challenges existing conceptions of representation authoritarianism and the future of the Chinese state Consultative institutions like the NPC are key to making autocracy work **China,**

Democracy, and Law, 2021-12-06 This landmark volume deals with such essential questions as What points of departure or resources can be identified in Chinese history and culture for what we call democracy What are and have been their potential for development in a modern China confronted with powerful Western influences Are there any connections between imperial China's strong legal tradition and the PRC's current endeavour to restore the rule of law in a context of legal globalization in which China itself is an important participant How serious or superficial should the political opening which started in the 1980s be regarded and the discourse on human rights currently heard in official circles And finally how relevant is Taiwan's experiment with democratic institutions In this rich and inspiring volume foremost French scholars carefully clarify the process of political and legal change convincingly showing that these questions cannot be answered without a proper understanding of centuries of Chinese juridical philosophical religious and political thought Ouvrage publi avec le soutien du Centre national du livre Published with financial support by the Centre national du livre **China's Trapped Transition**

Minxin PEI, 2009-06-30 In a book sure to provoke debate Minxin Pei examines the sustainability of the Chinese Communist Party's reform strategy pursuing pro market economic policies under one party rule Combining powerful insights with empirical research China's Trapped Transition offers a provocative assessment of China's future as a great power
