Critical Theories, Radical Pedagogies, and Global Conflicts Gustavo Fischman, 2005 We are living in a time of resurgent global conflicts and imperialistic tensions a time in which many children are being left behind by school systems that appear more concerned with developing accountability schemes and standardized models of testing than with defending the right of every child to have access to a good education The efforts of countless teachers activists and families working and living in poor areas around the world are labeled as failures entirely discredited on the basis of their expendability in relation to capital gains or simply ignored In response to these oppressive and challenging conditions this book's contributors a group of committed educators and activists working in an ethos of solidarity across geopolitical and geographical borders have advanced arguments and strategies that link educational transformation to the larger struggle to transform oppressive social relations In a clear attempt to move beyond both nostalgia and romanticism Critical Theories Radical Pedagogies and Global Conflicts draws from a range of viewpoints conceptual and thematic transnational and crosscultural First World and Third World to articulate new directions for teachers and activists working to demonstrate that another education and indeed another world is possible

Rethinking Online Education

Bessie Mitsikopoulou, 2015-11-17 Rethinking Online Education analyzes online educational materials on the recent Iraq war aimed to be used by U S educators in elementary and secondary schools It is suggested that far from being ideologically neutral these educational materials weave together resources which provide a coherent view of the Iraq war theme and can thus been seen as constituting a kind of an informal curriculum Mitsikopoulou argues that the teacher resources adhere to different pedagogical discourses and constitute materializations of two broad approaches to education A number of pedagogical issues are also raised in the discussion What is the difference between critical thinking and critical pedagogy How is the genre of lesson plan realized in different teaching philosophies and how do curricular texts change when they are delivered online This important book highlights the need to explore the new forms of textuality which emerge from online curricular materials and to develop an understanding of the processes of text composition distribution and consumption

Critical Pedagogy in the Twenty-First Century Curry Malott, Brad J. Porfilio, 2011-03-01 This book simultaneously provides multiple analyses of critical pedagogy in the twenty first century while showcasing the scholarship of this new generation of critical scholar educators Needless to say the writers herein represent just a small subset of a much larger movement for critical transformation and a more humane less Eurocentric less paternalistic less homophobic less patriarchal less exploitative and less violent world This volume highlights the finding that rigorous critical pedagogical approaches to education while still marginalized in many contexts are being used in increasingly more classrooms for the benefit of student learning contributing however indirectly to the larger struggle against the barbarism of industrial neoliberal militarized destructiveness The challenge for critical pedagogy in the twenty first century from this point of view includes contributing to the manifestation of a truly global critical pedagogy that is epistemologically democratic and against human suffering and capitalist exploitation These rigorous democratic critical standards for measuring the value of our scholarship including this volume of essays should be the same that we use to critique and transform the larger society in which we live and work

Ball,2000 *The Power and Freedom of Black Feminist and Womanist Pedagogy* Gary L. Lemons,,

Cheryl R. Rodriguez, 2022-10-03 *The Power and Freedom of Black Feminist and Womanist Pedagogy Still Woke* celebrates and reaffirms the power of Black feminist and womanist pedagogies and practices in university classrooms. Employing autocritography through personal reflection research and critical analysis, the contributors to the volume boldly tell groundbreaking stories of their teaching experiences and their evolving relationships to Black feminist and womanist theory and criticism. From their own unique perspectives, each contributor views teaching as a life-changing collaborative and interactive endeavor with students. Moreover, each of them envisions their pedagogical practice as a strategic vehicle to transport the legacy of struggles for liberating social justice and transformative change in the U.S. and globally. Firmly grounded in Black feminist and womanist theory and practice, this book honors the herstorical labor of Black women and women of color intellectual activists who have unapologetically held up the banner of freedom in academia.

Adult Education and the Postmodern Challenge Ian Bryant, Rennie Johnston, Robin Usher, 2004-08-02 This book offers some suggestions as to ways forward from this dilemma. Drawing on the new intellectual frameworks of critical pedagogy, feminism, and postmodernism, and their impact upon educational theory, practice, and research, the book focuses on the changing contexts of adult education. By building on the notion of going beyond the limits of certain current adult education orthodoxies, the authors try to provide alternatives for practice. The final three chapters deal with research focusing on a critical macro analysis of mainstream paradigms, a review of alternative approaches, and a more micro analysis centering on the role of the socially located self in the research process.

Neoliberalism And Education In The Americas Adriana Puiggrós, 2019-03-13 This book is a trenchant analysis of schooling within the capitalist world system where educational reforms are directed to the satisfaction of the business community, military-industrial complex, and corporate sector.
