Politics Of Natureworth Con

Daniel Robinson

Politics Of Naturewordsworth Con:

Wordsworth's View of Nature Norman Lacey, 2013-12-19 Originally published in 1948 this book provides a discussion of Wordsworth's perspective on nature taking into account his position as the only poetic figure in whom it is possible to study the transition from Romantic into Victorian This transition both in social and literary terms is presented as being of fundamental importance to gaining an understanding of the Victorian age The text incorporates detailed analysis of The Prelude and Lyrical Ballads together with other areas of Wordsworth's oeuvre This book will be of value to anyone with an interest in Wordsworth Romanticism and the beginnings of the Victorian age **Politics of Romanticism** Zoe

Beenstock, 2016-04-08 Redefines Romantic sociability through a reading of social contract theory The Politics of Romanticism examines the relationship between two major traditions which have not been considered in conjunction British Romanticism and social contract philosophy She argues that an emerging political vocabulary was translated into a literary vocabulary in social contract theory which shaped the literature of Romantic Britain as well as German Idealism the philosophical tradition through which Romanticism is more usually understood Beenstock locates the Romantic movement's coherence in contract theory's definitive dilemma the critical disruption of the individual and the social collective By looking at the intersection of the social contract Scottish Enlightenment philosophy and canonical works of Romanticism and its political culture her book provides an alternative to the model of retreat which has dominated accounts of Romanticism of the last century Key Features Develops new understanding of Romanticism as political movement Offers fresh readings of canonical works by Coleridge Wordsworth Godwin Mary Shelley and Carlyle by tracing their implicit dialogue with the political philosophy of Rousseau and other Enlightenment political theorists Shows that the philosophical routes of Romanticism and its ties to German Idealism originate in empiricism Carries important consequences for the contemporary understanding of the self an understanding that is partly rooted in notions that originated with the Romantics Wordsworth's Second Nature James Chandler, 1984-12-15 Wordsworth is England's greatest poet of the French Revolution he witnessed some of its events first hand participated in its intellectual and social ambitions and eventually developed his celebrated poetic campaign in response to its enthusiasms But how should that response be understood Combining careful interpretive analysis with wide ranging historical scholarship Chandler presents a challenging new account of the political views implicit in Wordsworth's major works in The Prelude above all but also in the central lyrics and shorter narrative poems Central to the discussion which restores Wordsworth to both the French and English contexts in which he matured is a consideration of his relation to Rousseau and Burke Chandler maintains that by the time Wordsworth set forth his program for poetry in 1798 he had turned away from the Rousseauist idea of nature that had informed his early republican writings He had already become a poet of what Burke called second nature human nature cultivated by custom habit and tradition and an opponent of the quest for first principles that his friend Coleridge could not forsake In his analysis of the poetry Chandler suggests that even

Wordsworth's most apparently private moments the lyrical spots of time ideologically embodied the uncalculated habits of an oral narrative discipline and a native English mind Dissenting republican Leslie F. Chard,2015-07-24 No detailed description available for Dissenting republican *Wordsworth's Ethics* Adam Potkay,2015-03-15 A comprehensive examination that breathes new life into Wordsworth and the ethical concerns that were vital to his nineteenth century readers Why read Wordsworth's poetry indeed why read poetry at all Beyond any pleasure it might give can it make one a better or more flourishing person These questions were never far from William Wordsworth's thoughts He responded in rich and varied ways in verse and in prose in both well known and more obscure writings Wordsworth's Ethics is a comprehensive examination of the Romantic poet's work delving into his desire to understand the source and scope of our ethical obligations Adam Potkay finds that Wordsworth consistently rejects the kind of impersonal utilitarianism that was espoused by his contemporaries James Mill and Jeremy Bentham in favor of a view of ethics founded in relationships with particular persons and things The discussion proceeds chronologically through Wordsworth's career as a writer from his juvenilia through his poems of the 1830s and 40s providing a valuable introduction to the poet's work The book will appeal to readers interested in the vital connection between literature and moral philosophy *Melville and the Politics of Identity* Julian Markels,1993

The Politics of Language in Romantic Literature Richard Marggraf Turley,2002-12-11 This innovative study examines a range of canonical and non canonical materials to open a new narrative on the mutually illuminating interchange between Romantic literature and philological theory in the late eighteenth and early nineteenth centuries Arguing that philology can no longer be treated as something that did not happen to Romantic authors this book undertakes a substantial revision of our understanding of the intellectual and political contexts that helped determine the Romantic consciousness William Wordsworth's Poetry Daniel Robinson,2010-10-07 Daniel Robinson provides a comprehensive guide to studying Wordsworth at undergraduate level **Literature and the Growth of British Nationalism** Francesco Crocco,2014-01-23 This book explores how British Romantic poetry the writing reading and critical reception of it reinforced British nationalism in the 19th century ripening the political processes of nationhood that began with the first Act of Union in 1707 Using archival research on literary collections criticism and reviews this study documents the rise of bardic criticism in the 18th century a style of literary criticism that reinvented the vernacular poet as a national bard and established a national role for poetry Within this context this book offers a new reading of major works by Romantic poets from Wordsworth and Coleridge to Felicia Hemans and Anna Letitia Barbauld illuminating the ways they corroborated the public image of poets as bona fide national bards and advanced British nationalism even when they intentionally set out to oppose or reform the politics of state

The Eclectic Magazine of Foreign Literature, Science, and Art ,1904 **The Living Age** ,1904 British Romanticism in Asia Alex Watson,Laurence Williams,2019-02-15 This book examines the reception of British Romanticism in India and East Asia including China Japan Korea and Taiwan Building on recent scholarship on Global Romanticism it

develops a reciprocal cross cultural model of scholarship in which Asian Romanticism is recognized as itself an important part of the Romantic literary tradition It explores the connections between canonical British Romantic authors including Austen Blake Byron Shelley and Wordsworth and prominent Asian writers including Natsume S seki Rabindranath Tagore and Xu Zhimo The essays also challenge Eurocentric assumptions about reception and periodization exploring how since the early nineteenth century British Romanticism has been creatively adapted and transformed by Asian writers *Eclectic Magazine of Foreign Literature, Science, and Art*, 1904

Main Currents in Western Environmental Thought P. R. Hay, 2002 Topics covered include the roots of environmental philosophy the development of ecophilosophy deep ecology and ecofeminism how religion relates to environmental values environmentalists writings on science and epistemology animal liberation the role of place the economic dimensions of environmental thought environmental writing in various political traditions and green writers critiques of political movements The work draws from the disciplines of philosophy political science psychology sociology and cultural studies

William Wordsworth's Golden Age Theories During the Industrial Revolution M. Keay, 2001-09-26 Wordsworth s romantic critique of industrial life and society was backward looking His Golden Age ideal of pastoral life and rural relationships falls within the scope of English populism as found among the middle ranks of small independent producers and their ideologues Furthermore his rural education and up bringing in the remote North of England explain his long term shift from radical and whig reformer to tory placeman in the years 1789 to 1832 as well as his relative demise as a poet *Technology in the Western Political Tradition* Jerry Weinberger, Arthur M. Melzer, Richard Zinman, 2019-05-15 This well integrated group of thirteen papers addresses the intriguing and perplexing issue of whether modern government can handle the problem of technology

Wordsworth's Bardic Vocation, 1787-1842 Richard Gravil, 2014-09-08 Wordsworth s Bardic Vocation the most comprehensive critical study of the poet since the 1960s presents the poet as balladist sonneteer minstrel elegist prophet of nature and national bard The book argues that Wordsworth s uniquely various oeuvre is unified by his sense of bardic vocation Like Walt Whitman or the bards of Cumbria Wordsworth sees himself as the people s remembrancer Like them he sings of nature and endurance laments the fallen fosters national independence and liberty His task is to reconcile in one society the living and the dead and to nurture both the people and the kind Review Comment This erudite exposition profligate with its ideas succeeds as few others have done in apprehending Wordsworth s career holistically incorporating all its diversities and apparent inconsistencies into a unified vision It justifies fully the notion proposed by Hughes and Heaney that he was England s last national poet Duncan Wu Review of English Studies

On Poetic Interpretation of Nature John Campbell Shairp, 1882 *The Green Studies Reader* Laurence Coupe, 2000 Laurence Coupe brings together a collection of extracts from a wide range of both historical and contemporary ecocritical texts

Publications Colorado College, 1904

Decoding **Politics Of Naturewordsworth Con**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Politics Of Naturewordsworth Con**," a mesmerizing literary creation penned with a celebrated wordsmith, readers attempt an enlightening odyssey, unraveling the intricate significance of language and its enduring effect on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
