*The Politics of Environment in Southeast Asia* Philip Hirsch, Carol Warren, 1998 Charts the emergence of the environment as an issue of public debate in the region of Southeast Asia The volatile tensions between the winners and losers in this struggle for the environment will focus increased attention on the region [The Politics of Environment in Southeast Asia](#)

Philip Hirsch, Carol Warren, 2002-01-31 The Politics of Environment in Southeast Asia charts the emergence of the environment as an issue of public debate in the region Through a series of case studies the authors explore the coalescence of social forces around environmental issues the process of alliance formation and the role of state institutions media and NGOs in the complex political battles over resource allocation The volatile tensions between the winners and losers in this struggle for the environment will make Southeast Asia a focus of increased attention **Environmental Politics and**

**Governance in Southeast Asia** Syed Mohammed Ad'ha Aljunied, 2025-10-02 In this book Aljunied analyses how ASEAN and its key maritime member states of Singapore Malaysia and Indonesia govern environmental issues through strategic engagements with social forces In the new millennium ASEAN states power is enhanced and solidified through regulatory statehood strategic renewal and moral ideology in order to subdue civil resistance while managing non traditional security threats Through a comparative analysis of Southeast Asia this book highlights how state capitalist society relations are shaped by politics of scale and social conflict in order to reinforce authoritarianism and intensify capitalism development agendas at the expense of environmental preservation With this the book explores how civil society challenge and are suppressed by state power at national and regional platforms A pioneering scholarly work this book represents a major contribution to the intersection between political science environmental governance and Southeast Asian Studies by offering rich theoretical and empirical insights into the dynamics of state capitalist society relations in an era of global environmental crisis [Governing Climate Change in Southeast Asia](#) Jens Marquardt, Laurence L. Delina, Mattijs Smits, 2021-12-07 This

volume showcases the diversity of the politics and practices of climate change governance across Southeast Asia Through a series of country level case studies and regional perspectives the authors in this volume explore the complexities and contested nature of climate governance in what can be considered as one of the most dynamic and multi faceted regions of the world They reflect upon the tensions between authoritarian and democratic climate change governance the multiple roles of civil society and non state interventions and the conflicts between state planning and market driven climate change governance Shedding light on climate change mitigation and adaptation efforts in Southeast Asia this book presents the various formal and informal institutions of climate change governance their relevant actors procedures and policies Empirical findings from a diverse set of environments are merged into a cross country comparison that allows for elaborating on similar patterns whilst at the same time highlighting the distinct features of climate change governance in Southeast Asia Drawing on case studies from all Southeast Asian countries namely Brunei Darussalam Cambodia Indonesia Laos Malaysia Myanmar

the Philippines Singapore Thailand Timor Leste and Viet Nam this book will be of great interest to students scholars and practitioners dealing with climate change and environmental governance

**Environmental Cooperation in Southeast Asia** Paruedee Nguitragee, 2010-10-04 One of the most challenging environmental threats to the ten countries of the Association of Southeast Asian Nations ASEAN has been the haze the sickening and deadly cloud of smoky pollution caused by widespread burning of land and forests in Indonesia This book examines both the threat and response to it by analysing environmental cooperation in Southeast Asia from an international regime perspective Tracing the development of regional cooperation on the haze and evaluating the effectiveness of the cooperation the author argues that the haze crisis combined with the economic crisis of 1997 has profoundly challenged the ASEAN modus operandi and resulted in ASEAN's efforts to establish an environmental regime to cope with environmental challenges The emerging ASEAN haze regime is a unique case study of a regional environmental institution in multi levelled global environmental governance Based on in depth original research this case study is integrated into international relations political science and comparative political analysis literatures and contributes to a better understanding of processes within the regional organisation

**International Environmental Laws Controlling Transboundary Atmospheric Pollution in Southeast Asia - Rajawali Pers** Dr. Sukanda Husin, S.H., LL.M., 2023-07-07 The issue of global warming and global climate change as mainly caused by transboundary air pollutants has emerged since the middle of the 1970 s To some extent the impacts of global warming and global climate change are still considered uncertain by a great many nations However several environmental catastrophes have been proved highly related to the release of certain noxious emissions creating global warming and global climate change Global warming is presently one of the most threatening environmental issues facing the world Although the uncertainty of the issue is still high the United Nations Organization based on precautionary principle concluded the 1985 Vienna Convention for the Protection of the Ozone Layer hereinafter cited as the Ozone Convention the 1987 Montreal Protocol on Substances that Deplete the Ozone Layer and the United Nations Framework Convention on Climate Change in 1992 ASEAN has not done much to implement the Ozone Convention and the Climate Change Convention in the region ASEAN tended to pass soft laws rather than hard laws to deal with transboundary atmospheric pollution especially resulting from land and forest fires The book is therefore necessary to examine a specific regional environmental policies and laws dealing with global warming and climate change in Southeast Asia ASEAN the Association of Southeast Asian Nations as a fairly big regional cooperation with a great many environmental problems is chosen as examples on how a region implements international treaties coping with the issues of global warming and climate change and on what prospects a region might have in tackling the issues

The Politics of NGOs in Southeast Asia Gerard Clarke, 2006-05-17 The Politics of NGOs in Southeast Asia traces the history of the emergence of NGOs in the Philippines and southeast Asia and the political factors which encouraged this The main focus is on the period from the mid 1990s when NGOs first became a notable force in the

region It documents the complex relations between NGOs and other political actors including the state organised religion foreign donors the business sector and underground insurgent groups and their impact on NGO strategy **The Forests for the Palms** Helena Varkkey,2021 *Routledge Handbook of the Environment in Southeast Asia* Philip Hirsch,2016-09-13 The environment is one of the defining issues of our times and it is closely linked to questions and dilemmas surrounding economic development Southeast Asia is one of the world s most economically and demographically dynamic regions and it is also one in which a host of environmental issues raise themselves The Routledge Handbook of the Environment in Southeast Asia is a collection of 30 chapters dealing with the most significant scholarly debates in this rapidly growing field of study Structured in four main parts it gives a comprehensive regional overview of and insight into the environment in Southeast Asia Wide ranging and balanced this handbook promotes scholarly understanding of how environmental issues are dealt with from diverse theoretical perspectives It offers a detailed empirical understanding of the myriad environmental problems and challenges faced in Southeast Asia This is the first publication of its kind in this field a helpful companion for a global audience and for scholars of Southeast Asian studies from a variety of disciplines **Development, Governance and Environment in South Asia** Mohammad Alauddin,Samiul Hasan,2016-07-27 The worst chemical disaster ever could be happening right now In India and Bangladesh between forty and eighty million people are at risk of consuming too much arsenic from well water that might have already caused one hundred thousand cancer cases and thousands of deaths Many millions elsewhere in South East Asia and South America may soon suffer a similar fate *Venomous Earth* is the story of this tragedy the geology the biology the politics and the history It starts in Ancient Greece touches down in today s North America and takes in William Morris alchemy farming medicine mining and a cosmetic that killed two popes **The Politics of Southeast Asia's New Media** William Atkins,2013-11-19 The past decade has seen a major structural shift in broadcasting in Southeast Asia with the development of digital satellite and cable broadcasting This shift has impacted upon some of the most information sensitive governments in the world Singapore Malaysia and until recently Indonesia Atkins traces this development in five countries showing that the challenge to authoritarian regimes anticipated by modern theorists as a result of the globalization of news and information is not materializing Instead a new commercial elite has arisen Southeast Asia s own mini moguls who act as gatekeepers for state interests as partners to global media companies **The Political Economy of Foreign Policy in Southeast Asia** David Wurfel,Bruce Burton,2016-07-27 This is the first book in several years to review the foreign policies of major Southeast Asian states and the first ever to include those frequently neglected smaller states It is also unique in the editors adherence to a new comparative framework which attempts to weave together the earlier literature on comparative foreign policy analysis and current concepts of political economy Comparative foreign policy studies are introduced by three distinguished scholars in that field A general survey of international relations in Southeast Asia then precedes the country chapters all authored by experienced specialists A concluding chapter attempts to

identify the emerging patterns of Southeast Asian foreign policy and suggest explanations for them      *Politics of Human Rights in Southeast Asia* Philip J. Eldridge, 2013-01-11 The divide between the West and Southeast Asia seems to be nowhere more apparent than in debates about human rights Within these diverse geographical political and cultural climates human rights seem to have become relative and the quest for absolutes seems unattainable In this new book Philip J Eldridge seeks to question this stalemate He argues that the Association of Southeast Asian Nations inclusion in United Nations human rights treaties could be the common ground that bridges the gap between East and West Eldridge uses topical case studies and primary research from Malaysia Indonesia East Timor and Australia to compare the effectiveness of United Nations human rights directives on local democracies This study presents insightful research into a hotly debated topic As such it will be a thought provoking resource for students of human rights politics and international relations      *Dictionary of the Modern Politics of Southeast Asia* Joseph Chinyong Liow, 2022-07-21 The past three decades since the end of the Cold War have been a time of remarkable change for Southeast Asia Long seen as an arena for superpower rivalry Southeast Asia is increasingly coming into its own by locating itself at the forefront of regional integration initiatives that involve not only the states of the region but major external powers such as the United States China India Japan and Australia Extensively updated and revised in light of these changes and developments this fifth edition of Dictionary of the Modern Politics of Southeast Asia remains indispensable This new edition starts with profiles of each Southeast Asian country before providing over 500 alphabetically arranged individual entries each containing detailed accounts and analyses of major episodes and treaties political parties and institutions civil society movements and regional and international organizations Biographies of significant political leaders and personalities both past and present are also provided Entries are comprehensively cross referenced and an index by country directs readers to all entries concerning a particular country The Dictionary concludes with an extensive bibliography that serves as a guide to further reading An essential one stop reference book this book is an indispensable tool for all scholars and students of Asian politics and international affairs and a vital resource for journalists diplomats policy makers and others with an interest in the region      *Government & Politics in Southeast Asia* John Funston, 2001 In this substantial and referenced study nine leading scholars present from inside the history society geography economy and governmental institutions of each of the 10 ASEAN countries Brunei Cambodia Indonesia Laos Malaysia Myanmar Philippines Singapore Thailand and Vietnam      **Confronting Environmental Change in East & Southeast Asia** Paul G. Harris, 2004      **Media, Politics and Environment** Detlef Briesen, Sarada Prasanna Das, 2023-07-15 Environmental protection has not equally established itself as a permanent fixture in the political systems of all countries to date governments and entire societies have responded to environmental challenges in a variety of ways and concrete environmental policy is still a highly national matter Moreover the perception of environmental problems varies considerably on a global scale The reasons normally cited for these differences largely stem from the environmental policy

debates themselves e.g poverty ignorance capital interests etc In contrast this book shows that concrete environmental policy emerges from a complex interplay of mass media and political conflicts first the mass media provide the framework for national environmental policy through agenda setting framing and scandalization second the mass media thereby change values in the political and social discourse e.g by altering the perception of global commons and expanding the possibilities of interest articulation and third this can lead to political decision making processes in which legal and other measures for environmental protection are enforced The book systematically compares industrialized countries such as Germany and Japan with several rapidly emerging countries in South and Southeast Asia ASEAN Environmental Law, Policy and Governance Kheng Lian Koh, 2009 ASEAN Environmental Law Policy and Governance Selected Documents in two volumes contains a judicious compilation of relevant ASEAN environmental instruments These documents deal with ASEAN's progressive development of environmental law policy and governance Volume I consists of two parts Part I OCo OC Setting the Stage for ASEAN Environmental Cooperation Harmonization and IntegrationOCO OCo contains documents which are directly or indirectly related to various aspects of the environment including their potential impact The scope of environmental law is wide ranging and its interrelationship straddles the three mutually reinforcing ASEAN pillars namely security economic and socio cultural Part II deals with the OC General Legal Frameworks on the EnvironmentOCO It is subdivided into A Programmes Strategies Plans of Action and Blueprints and B Declarations Resolutions and Accord The forthcoming Volume II will deal with key sectoral areas including nature conservation and biodiversity water resources management animal and human health climate change and energy transboundary pollution and disaster management and emergency response The book will be of interest to all ASEAN government officials diplomats and its peoples ASEAN dialogue partners entities associated with ASEAN comparative environmental lawyers and every ASEAN watcher The Economies of Southeast Asia Teofilo C. Daquila, 2005 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally this book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies *Routledge Handbook of South Asian Politics* Paul R. Brass, 2010-04-30 The Routledge Handbook of South Asian Politics examines key issues in politics

of the five independent states of the South Asian region India Pakistan Bangladesh Sri Lanka and Nepal Written by experts in their respective areas this Handbook introduces the reader to the politics of South Asia by presenting the prevailing agreements and disagreements in the literature In the first two sections the Handbook provides a comprehensive introduction to the modern political history of the states of the region and an overview of the independence movements in the former colonial states The other sections focus on the political changes that have occurred in the postcolonial states since independence as well as the successive political changes in Nepal during the same period and the structure and functioning of the main governmental and non governmental institutions including the structure of the state itself unitary or federal political parties the judiciary and the military Further the contributors explore several aspects of the political process and political and economic change especially issues of pluralism and national integration political economy corruption and criminalization of politics radical and violent political movements and the international politics of the region as a whole This unique reference work provides a comprehensive survey of the state of the field and is an invaluable resource for students and academics interested in South Asian Studies South Asian Politics Comparative Politics and International Relations
