and Morality Susan Mendus, 2013-04-25 Public disenchantment with politics has become a key feature of the world in which we live. Politicians are increasingly viewed with suspicion and distrust and electoral turnout in many modern democracies continues to fall. But are we right to display such contempt towards our elected representatives? Can politicians be morally good or is politics destined to involve dirty hands or the loss of integrity as many modern philosophers claim? In this book Susan Mendus seeks to address these important questions to assess whether this apparent tension between morality and politics is real and if so why. Beginning with an account of integrity as involving a willingness to stand by one's most fundamental moral commitments, the author discusses three reasons for thinking that politics undermines integrity and is incompatible with morality. These are the relationship between politics and utilitarian calculation, the possibility that the realm of politics is a separate realm of value and the difficulty of reconciling the demands of different social roles. She concludes that in the modern world we all risk losing our integrity. To that extent we are all politicians. Moreover, we have reason to be glad that politicians are not always morally good. Written with verve and clarity, this book provides students and general readers an accessible guide to the philosophical debates about the complex relationship between politics and morality in the contemporary world.

Dialectics and Contemporary Politics John Grant, 2011-06-09 *Dialectics and Contemporary Politics* develops a full theory of dialectics in order to reset the terms of dialectical critique and affirm its ability to produce radical insights about contemporary society. Dialectical thought has been the subject of sustained criticism since the 1960s when competing approaches such as structuralism, genealogy, deconstruction and post Marxism took political theorizing in new directions.

Making Democracy Fun Josh A. Lerner, 2014-02-21 Drawing on the tools of game design to fix democracy. Anyone who has ever been to a public hearing or community meeting would agree that participatory democracy can be boring. Hours of repetitive presentations alternately alarmist or complacent for or against accompanied by constant heckling often with no clear outcome or decision. Is this the best democracy can offer? In *Making Democracy Fun* Josh Lerner offers a novel solution for the sad state of our deliberative democracy: the power of good game design. What if public meetings featured competition and collaboration such as team challenges, clear rules presented and modeled in multiple ways, measurable progress such as scores and levels and engaging sounds and visuals? These game mechanics would make meetings more effective and more enjoyable even fun. Lerner reports that institutions as diverse as the United Nations, the U.S. Army and grassroots community groups are already using games and game-like processes to encourage participation. Drawing on more than a decade of practical experience and extensive research, he explains how games have been integrated into a variety of public programs in North and South America. He offers rich stories of game techniques in action in children's councils, social service programs and participatory budgeting and planning. With these real-world examples in mind, Lerner describes five kinds of games and twenty-six game mechanics that are especially relevant for democracy. He finds that when governments and organizations use games and design their programs to be more like games, public participation becomes

more attractive effective and transparent Game design can make democracy fun and make it work **Comparative Politics**

Insaiddoo,2023-08-23 Can

Democracy survive in Africa and if it does what will be the future of democracy in Africa in a world that is increasingly characterized by a wave of authoritarianism spearheaded by Vladimir Putin s Russia Xi Jinping s China and their minions That Russia is the citadel of authoritarianism is evidenced by Russia s unprovoked brutal attack on the independent sovereign nation of Ukraine with an ostensible motive of depriving the citizens of Ukraine of their democratic rights and imposing dictatorship on the good people of Ukraine If democracy freedom and liberty is to survive in any part of Africa then all African nations should unanimously join the free nations to vehemently condemn Vladimir Putin s unprovoked brutal invasion of Ukraine and the carnage it has wrought on the innocent children women and men of the nation Furthermore freedom loving African nations must simultaneously send an unambiguous message to Xi Jinping the Communist leader of China to desist from imposing autocracy on the peace loving democratic society of Taiwan For many years African nations have been impoverished and oppressed by puppet regimes in Africa imposed from outside the continent who did and continue to do the bidding of their foreign masters African leaders know or must know that Vladimir Putin s invasion of Ukraine is to play a similar high stakes game of installing a puppet regime that Moscow can easily manipulate to the detriment of the vast majority of Ukrainians Putin is pursuing a similar pernicious policy in Africa to install puppet regimes and extend his autocratic values in Central Africa Mali Burkina Faso Sudan Eritrea Equatorial Guinea Angola and others The future of democracy in Africa hinges in part on Putin exploiting the so called Russia Africa Summit to circumvent Africa s march to consolidate democracy and freedom on the continent Africa s freedom lovers should seek to pressure Vladimir Putin

to unilaterally abandon his brutal and merciless invasion of an unprovoked sovereign state of Ukraine or else should refuse to be a party to the so called Russia Africa Summit

International Trade Negotiations and Domestic Politics Oluf Langhelle, 2013-08-29 In spite of many years of negotiation on trade liberalization progress seems to have stalled This book explores why resistance to further market liberalization seems so strong given that the benefits are seen to outweigh the costs This volume argues that in order to understand the slow progress of World Trade Organization negotiations we need to take into consideration the intermestic character of trade politics that is the way in which international and domestic aspects of politics and policies have been woven together and become inextricably related to each other This is a general trend in our globalizing world and one that is most pronounced in the case of trade politics and policy International Trade Negotiations and Domestic Politics therefore presents an in depth analysis of institutions ideas interests and actors in the interplay between international trade negotiations and national negotiating positions At the international level the authors focus on the multilateral negotiations within the World Trade Organization together with the plurilateral and bilateral negotiations on free trade agreements At the regional and domestic level they analyze the trade politics and policies of two established powers the European Union and the USA two rising powers China and India and a small industrialized country with an open economy Norway
