Politics, Policies, and Economic Development in Latin America Robert G. Wesson, 1984 **Politics, Policies, & Economic Development in Latin America**, 1984 Political Institutions and Economic Growth in Latin America: Essays in Policy, History, and Political Economy Stephen Haber, 2000 **Brazil's Economic and Political Future** Julian M. Chacel, 2019-03-05 The 1985 elections in Brazil returned South America's largest country to democratic rule after two decades of military government But the Sarney administration faces substantial economic and political challenges over a 250 percent annual inflation rate a foreign debt of more than 115 billion and over a 20 percent unemployment rate This collec

Perón and the Enigmas of Argentina Robert D. Crassweller, 1987 A study of the life of Juan Peron focusing on the values emotions and psychological links of the appeal of Peronism and its mythology and longevity **The Political Economy of Development in the Newly Industrializing Countries** Jenn-Jaw Soong, 1991 Background Notes, Colombia, 1986 *The Brazilian Economy* Werner Baer, 2001-05-30 Bringing the analysis of Brazil's economic performance up to date Baer's classic text remains the only book in English to provide a thorough historical statistical and institutional description of the Brazilian economy After touching on such issues as Brazil's exporting economy prior to the 1930s the impact of external shocks and the historical struggle to bring inflation under control the book turns to contemporary issues The changing nature of Brazil's international trading and investment links the past role of state enterprises and the process of privatization the agricultural sector environmental issues and the economics of the health delivery system are thoroughly examined Offering a full statistical and institutional description of Brazil's economy this book includes a review of the major controversies surrounding such issues as the high degree of concentration in the country's income distribution the causes of inflation the impact of various stabilization programs and the influences of the state in the economy Scholars students international institutions dealing with development and corporate officers dealing with Latin America will welcome this up to date definitive book on one of the world's largest economies **Recidivism in the Caribbean** Dacia L. Leslie, 2019-04-26 This book provides a detailed and practical exploration of criminal recidivism and social reintegration in Jamaica It uses various methods to seek the authentic voices of inmates ex prisoners deported migrants and practitioners drawing on an original study to examine factors that might help ex prisoners more successfully transition from a prison environment to life within the community Leslie also raises important questions about the Jamaican state's capacity to meet the needs of inmates particularly as a large number of its citizens are subject to forced repatriation to their homeland by overseas jurisdictions due to their offending Recidivism in the Caribbean provides a unique insight into institutional and community life in a post colonial society whilst linking practices theories of offender management It will particularly appeal to criminologists and sociologists interested in tertiary crime prevention but also those interested in correctional policy and practice punishment and deviance Research in the History of Economic Thought and Methodology Luca Fiorito, Scott Scheall, Carlos Eduardo

Sustaining Development in Mineral Economies Richard Auty,2002-09-26 This highlights the drawbacks of possessing natural mineral resources These can quickly become a curse on the ore exporting economies of developing countries leading to drainage of resources and the faltering of long term growth

The Political Economy of Taiwan's Development into the 21st Century Gustav Ranis,Sheng-Cheng Hu,Yun-Peng Chu,1999-02-24 a welcome book of particular use to graduate schools A J H Latham Asia Pacific Business Review Over the past four decades Taiwan has achieved remarkable economic growth In this important book a distinguished group of contributors employs a comparative perspective to explore the reasons behind and the lessons to be learned from Taiwan s success

Democracy on Trial, All Rise! Anuradha Kataria,2011 There is a widening gap between democracy as a theory and its practice While supposedly a solution to the problems of the developing world in practice democracy has more often led to instability civil wars genocides fundamentalism crime and corruption In contrast in the West voting rights were extended gradually over a century or two in tandem with economic empowerment and also social awakening The democratic republics that evolved out of this long process were stable and progressive In the developing world a shortcut to the end and premature political opening up has proven disastrous for many a nation like Nigeria Iraq Congo Kenya Pakistan South Africa etc Even in the few stable ones like India democracy has failed to make a dent in poverty alleviation and has instead got caught in divisive election stunts At the same time some unitary states like China have surged far ahead of others and broken out of the largely poor and deteriorating mould Why What are the reasons democracy does not work in the developing world Could it be made to work through improvements or is it the wrong model altogether The notion that democracy is going to transform our world holds little credence to anyone who has witnessed its true colors like the author has hailing from India and also having lived in China and some other countries Thus as a scientist and researcher she has studied the history politics and economics of some 150 countries across the world The book delves into the complex world of subversive election winning strategies secession movements coalition governments the meaning of freedom to people living amidst violence and poverty as well as a study of other sociopolitical systems Without any a priori theories willing to go where the evidence leads the author is able to point out the Emperor s new clothes for what they truly

are It may be time to challenge our perfect theory as democracy may not be the answer to the developing world's problems The quest for truth leads us to surprising answers in terms of progressive transient alternatives for the developing world as well as some pointers for streamlining democracy the system per se Democracy on Trial is a compelling discovery of fresh answers and pragmatic solutions to the pressing problems of our times from large scale abject poverty in developing countries across Asia and Africa to many civil wars and ongoing mayhem in others One book that comes close to the perspective in Democracy on Trial All Rise is The Future of Freedom by Fareed Zakaria Zakaria's is the first book to acknowledge democracy's failure in the developing world but it leaves the important question what is the alternative largely unanswered and falls back on rationalizations to conclude Most of the current literature on democracy is primarily theoretical in nature and addresses some of its faults but democracy per se is eulogized The new title is different in that it answers the question of what is the alternative or a way forward based on an empirical analysis that carries the reader along to the conclusions The perspective is new as yet unexplored and marries the progressive with the pragmatic *Handbook on Governance and Development* Wil Hout, Jane Hutchison, 2022-12-08 This Handbook provides readers with an expert overview of the key theoretical approaches to governance and development covering a broad range of policy areas and domains Utilising a critical approach to issues from a multidisciplinary perspective the contributions in this Handbook review different social contexts and policy areas governance arrangements and processes relating to issues of development

Handbook of the Economics of Finance SET: Volumes 2A & 2B George M. Constantinides, Milton Harris, Rene M. Stulz, 2013-01-21 This two volume set of 23 articles authoritatively describes recent scholarship in corporate finance and asset pricing Volume 1 concentrates on corporate finance encompassing topics such as financial innovation and securitization dynamic security design and family firms Volume 2 focuses on asset pricing with articles on market liquidity credit derivatives and asset pricing theory among others Both volumes present scholarship about the 2008 financial crisis in contexts that highlight both continuity and divergence in research For those who seek insightful perspectives and important details they demonstrate how corporate finance studies have interpreted recent events and incorporated their lessons Covers core and newly developing fields Explains how the 2008 financial crises affected theoretical and empirical research Exposes readers to a wide range of subjects described and analyzed by the best scholars *International Policy Studies* Stuart S. Nagel, David Rosenblum, 2000 The basic elements of this book involve integrating five policy problems and four fields of knowledge The five policy problems are economic technology social political and legal The four developing regions are Africa Asia Eastern Europe and Latin America The four fields of knowledge are natural science social science humanities and law

Inequality in Latin America David M. De Ferranti, 2004-01-01 Latin America and the Caribbean has been one of the regions of the world with the greatest inequality This book explores why the region suffers from such persistent inequality identifies how it hampers development and suggests ways to achieve greater equity in the distribution of wealth incomes and

opportunities The study draws on data from 20 countries based on household surveys covering 36 million people and reviews extensive economic sociological and political science studies on inequality in Latin America Four broad areas for action by governments and civil society groups to break the destructive pattern are outlined 1 build more open political and social institutions that allow the poor and historically subordinate groups to gain a greater share of agency voice and power in society 2 ensure that economic institutions and policies seek greater equity through sound macroeconomic management and equitable efficient crisis resolution institutions that avoid the large regressive redistributions that occur during crises and that allow for saving in good times to enhance access by the poor to social safety nets in bad times 3 increase access by the poor to high quality public services especially education health water and electricity as well as access to farmland and the rural services and protect and enforce the property rights of the urban poor 4 reform income transfer programmes so that they reach the poorest families
