Politics And Economics Of Park Management:

The Politics and Economics of Park Management Terry Lee Anderson, Alexander James, 2001 The Politics and Economics of Park Management examines national protected area systems in both developed and developing countries that have made a transformation from fortress parks to a sustainable use model The contributors park management academics and members of nongovernmental organizations contend that successful institutional change in protected area systems involves not only the adoption of appropriate legal and regulatory regimes covering sustainable use but also the development of an informal culture of sustainable resource use among all of a park's stakeholders While this latter requirement is often difficult to achieve the contributors show how these informal attitudes may evolve over time both within the management structure of a park agency and the community of resource users The case studies cited represent examples of successful institutional change demonstrating both financial and conservation benefits to protected area agencies that should serve as model for managing parks today

Managing Protected Areas Michael Lockwood, Graeme Worboys, Ashish Kothari, 2012-05-04 This handbook produced by world renowned experts from the World Conservation Union IUCN spans the full terrain of protected area management and is the international benchmark for the field The book employs dozens of detailed international case studies hundreds of concise topical snapshots maps tables illustrations and a colour plate section as well as evaluation tools checklists and numerous appendices to cover all aspects of park management from biodiversity to natural heritage to financial management The book establishes a conceptual underpinning for protected area management presents guiding principles for the 21st century reflects recent work on international best practice and provides an assessment of skills required by professionals As the most authoritative guide ever compiled to the principles and practice of protected area management this volume is essential for all professionals and students in all countries and contexts

Parks in Transition Brian Child, 2013-06-17 Parks face intense pressure from both environmental and developmental perspectives to conserve biodiversity and provide economic opportunities for rural communities These imperatives are often in conflict while potential solutions may be subject to theoretical and practical disagreement and complicated by pressing economic political and cultural considerations Parks in Transition collects the work of the most distinguished scholars and practitioners in this field drawing on insight from over 50 case studies and synthesizing them into lessons to guide park management in transitional economies where the challenges of poverty and governance can be severe The central message of the book is that parks are common property regimes that are supposed to serve society It analyses and sheds light on the crucial questions arising from this perspective If parks are set aside to serve poor people should conservation demands over rule demands for jobs and economic growth Or will deliberately using parks as bridgeheads for better land use and engines for rural development produce more and better conservation The issue that arises at all levels is that of accountability including the problematic linkages between park authorities and political systems and the question of how to measure park performance This book

provides vital new insights for park management regarding the relationship between conservation and commercialization performance management new systems of governance and management and linkages between parks landscape and the land use economy

Environmental Conflict and Democracy in Canada Laurie E. Adkin, 2010-01-01 The urgent need to resolve conflicts over forests fisheries farming practices urban sprawl and greenhouse gas reductions among many others calls for a critical rethinking of the nature of our democracy and citizenship This work aims to move the ideas of green democracy and ecological citizenship from the margins to the centre of discussion and debate in Canada Environmental Conflict and Democracy in Canada offers sixteen case studies to demonstrate that environmental conflicts are always about our rights and responsibilities as citizens as well as the quality of our democratic institutions By bringing together environmental politics and democratic theory this path breaking collection charts a new course for research and activism one that reveals the deficits of citizenship and how democracy must be extended to achieve a socially just ecologically sustainable society

The Political Economy of Democratic Transitions Stephan Haggard, Robert R. Kaufman, 2018-06-05 In the last two decades there has been a widespread movement from authoritarian to democratic rule among developing countries often occurring against a backdrop of severe economic crises and the adoption of market oriented reforms The coincidence of these events

raises long standing questions about the relationship between economic and political change In this book Stephan Haggard and Robert Kaufman explore this relationship addressing a variety of questions What role have economic crises played in the current wave of political liberalization and democratization Can new democracies manage the daunting political challenges posed by economic reform Under what economic and institutional conditions is democracy most likely to be consolidated Drawing on contemporary political economy and the experiences of twelve Latin American and Asian countries they develop a new approach to understanding democratic transitions Haggard and Kaufman first analyze the relationship between economic crisis and authoritarian withdrawal and then examine how the economic and institutional legacies of authoritarian rule affect the capacity of new democratic governments to initiate and sustain economic policy reform Finally the authors analyze the consolidation of political and economic reform over the long run Throughout they emphasize the relationship between economic conditions the interests and power of contending social groups and the mediating role of representative institutions particularly political parties

Neoliberalism and the Political Economy of Tourism Jan Mosedale, 2016-03-10 Tourism has become increasingly shaped by neoliberal policies yet the consequences of this neoliberalisation are relatively under explored This book provides a wide ranging inquiry into the particular manifestations of different variants of neoliberalism highlighting its uneven geographical development and the changing dynamics of neoliberal policies in order to explain and evaluate the effects of neoliberal processes on tourism Covering a variety of different aspects of neoliberalism and tourism the chapters investigate how different types of tourism are used as part of more general neoliberalisation agendas how neoliberalism differs according to the geographic context the importance of discourse in shaping neoliberal practices and the different approaches of putting the neoliberal ideology into practice Aiming to initiate debates about the connections between neoliberalism and tourism and advance further research avenues this book makes a timely contribution which discusses the relationships between markets nation states and societies from a social science perspective

Neoliberalism is considered as a political economic ideology as variants of the global neoliberal project as discourse and practices through which neoliberalism is enacted

Factors Affecting the Productivity of Urban Parks Thomas A. More, 1990 The park system of two Massachusetts cities Holyoke pop 44 819 and Fitchburg pop 39 332 produced an estimated 605 608 visitor hours of use during the summer of 1979 The average park produced 7 877 visitor hours in Holyoke and 9 624 in Fitchburg though use levels varied widely Contrary to original expectations neighborhood characteristics had little influence on use levels Rather park characteristics particularly activities and amenities had a significant effect on use City officials wishing to maximize the use of their park system should consider investments in these resources while researchers build a more thorough systematic body of knowlege about urban parks and their users

South Korea at the Crossroads Scott A. Snyder, 2018-01-02 Against the backdrop of China's mounting influence and North Korea's growing nuclear capability and expanding missile arsenal South Korea faces a set of strategic choices that will shape its economic prospects and national security In *South Korea at the Crossroads* Scott A Snyder examines the trajectory of fifty years of South Korean foreign policy and offers predictions and a prescription for the future Pairing a historical perspective with a shrewd understanding of today's political landscape Snyder contends that South Korea's best strategy remains investing in a robust alliance with the United States Snyder begins with South Korea's effort in the 1960s to offset the risk of abandonment by the United States during the Vietnam War and the subsequent crisis in the alliance during the 1970s A series of shifts in South Korean foreign relations followed the Nordpolitik engagement with the Soviet Union and China at the end of the Cold War Kim Dae Jung's Sunshine Policy designed to bring North Korea into the international community trustpolitik which sought to foster diplomacy with North Korea and Japan and changes in South Korea's relationship with the United States Despite its rise as a leader in international financial development and climate change forums South Korea will likely still require the commitment of the United States to guarantee its security Although China is a tempting option Snyder argues that only the United States is both credible and capable in this role South Korea remains vulnerable relative to other

regional powers in northeast Asia despite its rising profile as a middle power and it must balance the contradiction of desirable autonomy and necessary alliance

Sustainable Value Chain Management François Maon, Sankar Sen, 2016-04-01 The way organizations manage their value chain has changed dramatically over the past decade Today organizations take account of economic issues but they also adopt a broader perspective of their purpose including social and environmental issues Yet despite its global spread sustainable value chain management remains an uncertain and poorly defined ambition with few absolutes The social and environmental issues that organizations should address easily can be interpreted as including virtually everything Current literature on the topic seeks to understand the effects and management of initiatives dealing with diversity human rights safety philanthropy community and environment However the penetration of social and environmental considerations into value chain management is described as desire lacking reality thereby making the idea a patchy success The objective of this research anthology is to investigate different angles of sustainable value chain management The book's 27 chapters fill holes and explore new fields the chapters are organised in five sections Sustainable value chains context drivers and barriers Sustainable value chains managing activities Sustainable value chains managing networks and collaboration Sustainable value chains integrative perspectives and Sustainable value chains specific sectorial and industry perspectives

The Political Economy of Foreign Direct Investment in Korea You-il Lee, Richard Lee, Yoon-Jong Jang, 2025-08-15 One of the most spectacular phenomena in the South Korean political economy has been the remarkable escalation of international capital investment particularly inward foreign direct investment FDI This book provides an in depth look at the evolution of FDI in Korea from the late 1990s to the present day Charting Korea's transition from state led capitalism to a more liberalized market this book assesses the complex interplay between government policy foreign capital inflows and multinational corporations MNCs It analyzes the key economic policies of the past as well as more recent measures by the Moon Jae in and Yoon Suk Yeol administrations The book then conducts an analysis of the socio economic cultural and political dynamics that shape strategies of MNCs today The book draws on 36 interviews with CEOs of foreign companies operating in Korea to seek their insights into the realities of doing business in Korea It closes by highlighting the current challenges Korea faces today in integrating into the international economy and suggests solutions for sustaining its economic growth This book will appeal to scholars of political economy Korean studies and economic development It will also interest business leaders and policymakers seeking a deeper understanding of insights into Korea's economic climate

Nature-Based Tourism in Asia's Mountainous Protected Areas Thomas E. Jones, Huong T. Bui, Michal Apollo, 2021-07-23 This book provides holistic insights into management of protected areas across East Asia and identifies current trends in mountain tourism within the broader field of human geography and nature conservation The book describes the diversification in visitors and expanding protected areas territories in different Asian countries during recent years It also compares protected areas networks in the context of

the changing demographic profiles of visitors and provides an interdisciplinary transnational appraisal of mountain based tourism in Asia based on national and international statistics The research combines specific case studies at the individual country and destination level with trans regional trends thereby offering analysis from both the perspective of supply parks protected areas and stakeholders and demand mountain tourist market trends and segments The book is a useful resource for students and academics in tourism and protected areas studies as well as social scientists and policy makers interested in Asian countries

Public Policy Praxis Randy S. Clemons, Mark K. McBeth, 2020-03-03 Public administration and policy analysis education have long emphasized tidiness, stages and rationality but practitioners frequently must deal with a world where objectivity is buffeted by repressed by and sometimes defeated by value conflict Politics and policy are messy and power explains much more about the policy process than does rationality Public Policy Praxis now in a thoroughly revised fourth edition uniquely equips students to better grapple with ambiguity and complexity By emphasizing mixed methodologies the reader is encouraged through the use of a wide variety of policy cases to develop a workable and practical model of applied policy analysis Students are given the opportunity to try out these globally applicable analytical models and tools in varied case settings e.g. county city federal international plus urban and rural while facing wide ranging topics starving farmers and the red panda in Nepal e-cigarettes GMOs the gig economy and opioid abuse that capture the diversity and reality of public policy analysis and the intergovernmental and complex nature of politics The fourth edition expands upon its thorough exploration of specific tools of policy analysis such as stakeholder mapping content analysis group facilitation narrative analysis cost benefit analysis futuring and survey analysis Along with teaching how to the authors discuss the limitations the practical political problems and the ethical problems associated with different techniques and methodologies Many new cases have been added along with clear instructions on how to do congressional research and a Google Trends analysis An expanded online Teaching Appendix is included for adopters offering original cases answers to problems alternative approaches to case use teaching exercises student assignments pedagogical ideas and supplemental material directly tied to concepts covered in the text With an easily accessible and conversational writing style Public Policy Praxis is an ideal textbook for undergraduate and graduate courses in public policy analysis community planning leadership social welfare policy educational policy family policy and special seminars
