## **Politics And Exegesis Origen And The Two Swords:**

Politics and Exegesis Gerard E. Caspary, 2022-08-19 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1979 Between Prophecy and Apocalypse Matthew Gabriele, 2024-02-24 The tenth and eleventh centuries in medieval Europe are commonly seen as a time of uncertainty and loss an age of lawless aristocrats of weak political authority of cultural decline and dissolute monks and of rampant superstition It is a period often judged from its margins compared mostly negatively to what came before and what would follow We impose upon it both a sense of nostalgia and a teleology as they somehow knowingly foreshadow what is to come Seeking to complicate this mischaracterisation which is primarily the invention of nineteenth and early twentieth century historiography this book maps the movement between two intellectual stances a shift from prophetic to apocalyptic thinking Although the roots of this change lay in Late Antiquity the fulcrum of this transition lies in the tenth and eleventh centuries Biblical commentators in the fourth and fifth centuries enforced a particular understanding of sacred time that held until the ninth century when exegetes of the ninth century found in their commentaries a different plan for God's new chosen people This came into stark relief as the new kingdom of Israel the Frankish empire under the Carolingians had splintered in the 840s God was manifesting his displeasure with the chosen people by fire and sword What was perhaps unforeseen was that these commentaries that were written in the specific context of the Carolingian Civil War would be heavily copied and read for the next 200 years Ideas that formed in a world that actively lamented the loss of empire had to be translated to a world that could only dream of that empire As they spread across Europe these ideas became the basis for monastic educational practices and bled into other types of textual production such as supposedly secular histories Between Prophecy and Apocalypse charts an intellectual transformation triggered when the prescriptions laid out towards the end of the Carolingian empire began to be realized in subsequent centuries Nostalgia entwined with an attentiveness to possible futures and spun together so tightly as to become a double helix Ultimately this book will offer a way to understand the central Middle Ages a period of dynamic intellectual ferment when ideas could inspire action and seemingly banal conceptions of time and history could inspire moments of dramatic transformation and horrific violence From Clement to Origen David Ivan Rankin, 2016-04-15 From Clement to Origen addresses the engagement of a number of pre Nicene Church Fathers with the surrounding culture David Rankin considers the historical and social context of the Fathers grouped in cities and regions their writings and theological reflections and discusses how the particular engagement of each with major aspects of the surrounding culture influences informs and shapes their thought and the articulation of that thought The social and historical context of the Church Fathers is explored with respect to the Roman state the imperial office and imperial cult Greco Roman

class structures and the patron client system issues of wealth production and other commercial activity the major philosophical thinkers in antiquity and to rhetorical theory and practice and the higher learning of the day     **Early Christian Historiography** G. W. Trompf, 2016-04-08 First Published in 2014 This book describes the developing application of retributive principles in historical narratives before Christ It assesses degrees of concern in the first history writers of the world s most widespread monotheistic tradition to discern divine justice in human affairs     Spiritualia and Pastoralia Frederick J. McGinness, Alexander Dalzell, 1998     *Theology and Social Theory* John Milbank, 2008-04-15 This is a revised edition of John Milbank s masterpiece which sketches the outline of a specifically theological social theory The Times Higher Education Supplement wrote of the first edition that it was a tour de force of systematic theology It would be churlish not to acknowledge its provocation and brilliance Featured in The Church Times 100 Best Christian Books Brings this classic work up to date by reviewing the development of modern social thought Features a substantial new introduction by Milbank clarifying the theoretical basis for his work Challenges the notion that sociological critiques of theology are scientific Outlines a specifically theological social theory and in doing so engages with a wide range of thinkers from Plato to Deleuze Written by one of the world s most influential contemporary theologians and the author of numerous books     Humanism and Empire Alexander Lee (Historian), 2018 The first comprehensive synoptic study of humanistic ideas of Empire in the period c 1250 1402 Humanism and Empire offers a radical new interpretation of fourteenth century political thought and raises wide ranging questions about the foundations of modern constitutional ideas and the origins of the concept of liberty     *Eusebius, Christianity and Judaism* Gohei Hata, Harold W. Attridge, 2022-10-04 Eusebius of Caesarea lived at a crucial turning point in the history of the Christian church He was an important witness to the polemical and apologetic attitudes that characterized much early Christian literature The most voluminous writer of the early fourth century he was also the first comprehensive historian of his community seeking a philosophy to explain the whole course of history from the beginning to his own time This volume places Eusebius work in proper perspective The contributors all recognized specialists in early Christianity shed light on the person and circumstances of Eusebius himself This collection of essays focuses on elements of the story that Eusebius tells the story of the early church its relationship to Judaism or its confrontation with the Roman Empire and explores gaps left by Eusebius The writers offer a cross section of current scholarly methods in the study of early Christianity and Judaism     **Milan Undone** John Gagné, 2021-01-01 In 1499 Milan was an independent state with a stable government But over the next thirty years it descended into chaos amid the Italian Wars John Gagné details Milan s social and political breakdown The Renaissance may have been the cradle of the modern nation state but it was also a time when sophisticated sovereigns collapsed     **Caesar and the Lamb, Second Edition** George Kalantzis, 2025-05-30 Through the available patristic writings Caesar and the Lamb focuses on the attitudes of the earliest Christians on war and military service Kalantzis provides the reader with many new translations of pre Constantinian texts and tells the story of the struggle

of the earliest church to bear witness to the nations that enveloped them as they transformed the dominant narratives of citizenship loyalty freedom power and control Kalantzis examines writings on war and military service in the first three centuries of the Christian church in an organized manner but the ways the communities of Christ at the margins of power and society thought of themselves and the state are not presented here through the lens of antiquarian curiosity At the heart of Caesar and the Lamb is a desire to understand the world in which Christianity arose and to ask questions of the past that may help us understand the early character of the Christian faith with the hope that such an enterprise will also help us evaluate its expression in our own time

**The Dangers of Ritual** Philippe Buc, 2021-07-13 Central to current understandings of medieval history is the concept of political ritual encompassing events from coronations to funerals entries into cities civic games banquets hunting acts of submission or commendation and more Ritual asks Philippe Buc In *The Dangers of Ritual* he boldly argues that the concept shouldn't be so central after all Modern day scholars gently seduced by twentieth century theories of ritual often misinterpret medieval documents that ostensibly describe such events in part because they fail to appreciate the intentions behind them The book begins with four case studies whose arrangement backward from texts on tenth century kingship to fourth century representations of Christian martyrdom allows for the line of development to be peeled back layer by layer It then turns to an analysis of the formation of the intellectual traditions that contemporary historians have employed to interpret medieval documents Tracing the emergence of the concept of ritual from the Reformation to the mid twentieth century Buc highlights the continuities yet also the profound transformations between the early medieval understandings and our own social scientific models Medieval historians will find this book an indispensable resource for its insights into methodological issues crucial to their discipline As Buc demonstrates only rigorous attention to the contexts within which authors worked can allow us to reconstruct from medieval documents how rituals might have functioned Ultimately he argues too swift an application of contemporary models to highly complex textual artifacts blinds us to the specificities of early medieval European political culture

*Peace and Reconciliation in the Classical World* E. P. Moloney, Michael Stuart Williams, 2017-02-03 Warfare has long been central to a proper understanding of ancient Greece and Rome worlds where war was as the philosopher Heraclitus observed both king and father of all More recently however the understanding of Classical antiquity solely in such terms has been challenged it is recognised that while war was pervasive and a key concern in the narratives of ancient historians a concomitant desire for peace was also constant This volume places peace in the prime position as a panel of scholars stresses the importance of peace as a positive concept in the ancient world and not just the absence of or necessarily even related to war and considers examples of conflict resolution conciliation and concession from Homer to Augustine Comparing and contrasting theories and practice across different periods and regions this collection highlights first the open and dynamic nature of peace and then seeks to review a wide variety of initiatives from across the Classical world

**Slandering the Jew** Susanna Drake, 2013-07-16 As Christian

leaders in the first through fifth centuries embraced ascetic interpretations of the Bible and practices of sexual renunciation. Sexual slander such as the accusations Paul leveled against wayward Gentiles in the New Testament played a pivotal role in the formation of early Christian identity. In particular the imagined construct of the lascivious literal minded Jew served as a convenient foil to the chaste Christian ideal. Susanna Drake examines representations of Jewish sexuality in early Christian writings that use accusations of carnality fleshliness bestiality and licentiousness as strategies to differentiate the spiritual Christian from the carnal Jew. Church fathers such as Justin Martyr Hippolytus of Rome Origen of Alexandria and John Chrysostom portrayed Jewish men variously as dangerously hypersexual at times literally seducing virtuous Christians into heresy or as weak and effeminate unable to control bodily impulses or govern their wives. As Drake shows these carnal caricatures served not only to emphasize religious difference between Christians and Jews but also to justify increased legal constraints and violent acts against Jews as the interests of Christian leaders began to dovetail with the interests of the empire. Placing Christian representations of Jews at the root of the destruction of synagogues and mobbing of Jewish communities in the late fourth and early fifth centuries. Slandering the Jew casts new light on the intersections of sexuality violence representation and religious identity.

**Cultures of Power** Thomas N. Bisson, 2013-04-19 The authors of *Cultures of Power* proffer diverse perspectives on the prehistory of government in Northern France Spain Germany the Low Countries and England. Political social ecclesiastical and cultural history are brought to bear on topics such as aristocracies women rituals commemoration and manifestations of power through literary legal and scriptural means.

**Rethinking the Medieval Senses** Stephen G. Nichols, Andreas Kahlitz, Alison Calhoun, 2008 Organised within historical thematic and contextual frameworks this collection of essays examines the psychological rhetorical and philological complexities of sensory perception from the classical period to the late Middle Ages.

**Beginning At Jerusalem** Glenn W. Olsen, 2010-10-29 A highly regarded historian and professor presents a sustained reflection on the meaning of the Church's life in time. Divided into five parts each section takes up a period of Church history and considers how the developments in church history relate to the Church today. From doctrines to customs Olsen examines both the theological and historical impact of each new development. Beginning with ancient Christianity the author illustrates how both secularization and sacralization take place in history and how it corresponds to our own age. Taking the reader from late ancient and early medieval Christianity to the full bloom of medieval scholasticism and scholarship to the dawn of the Renaissance and the aggressively anti religious time of the Enlightenment Olsen considers all aspects of every age. The final section is a discussion of the Church in our own time confronting such problems as modernization and the relation of the Church to culture. Appendices expand on The Catechism of the Catholic Church's teaching on the relation between prayer and history.

**Pseudo-Dionysius** Paul Rorem, 1993-02-25 Dionysius the Areopagite is the biblical name chosen by the pseudonymous author of an influential body of Christian theological texts dating from around 500 C E. The *Celestial Hierarchy* The

Ecclesiastical Hierarchy The Divine Names and The Mystical Theology offer a synthesis of biblical interpretation liturgical spirituality and Neoplatonic philosophy Their central motif which has made them the charter of Christian mysticism is the upward progress of the soul toward God through the spiritual interpretation of the Bible and the liturgy Dionysius continually reminds his readers however that all human concepts fall short of the transcendence of God and must therefore be abandoned in negotiations and silence In this book Rorem provides a commentary on all of the Dionysian writings chapter by chapter and examines especially their complex inner coherence The Dionysian influence on medieval theology is introduced in essays on specific topics hierarchy biblical symbolism angels Gothic architecture liturgical allegory the scholastic doctrine of God and the mystical theology of the western Middle Ages Rorem's book makes these texts more accessible to both scholars and students and includes a comprehensive bibliography of secondary sources

**A Whole World** James Merrill, 2021-04-06 A NEW YORK TIMES NOTABLE BOOK OF THE YEAR The selected correspondence of the brilliant poet one of the twentieth century's last great letter writers I don't keep a journal not after the first week James Merrill asserted in a letter while on a trip around the world Letters have got to bear all the burden A vivacious correspondent whether abroad where avid curiosity and fond memory frequently took him or at home he wrote eagerly and often to family and lifelong friends American and Greek lovers confidants in literature and art about everything that mattered aesthetics opera and painting housekeeping and cooking the comedy of social life the mysteries of the Ouija board and the spirit world and psychological and moral dilemmas in funny dashing unrevised missives composed to entertain himself as well as his recipients On a personal nemesis the ambivalence I live with It worries me less and less It becomes the very stuff of my art on a lunch for Wallace Stevens given by Blanche Knopf It had been decided by one and all that nothing but small talk would be allowed on romance in his late fifties I must stop acting like an orphan gobbling cookies in fear of the plate's being taken away on great books they burn us like radium with their decisiveness their terrible understanding of what happens Merrill's daily chronicle of love and loss is unfettered self-critical full of good gossip and attuned to the wicked irony the poignant detail a natural extension of the great poet's voice

History on the Edge Michelle R. Warren, 2000 Written from a post colonial North American perspective this study considers the ways in which medieval British writers in the wake of the Norman Conquest used Arthurian historiography to reflect their fears about colonial contamination and about borders in general The first half of the study examines the presentation of British history in works written on the Anglo-Welsh border Warren then examines literature from the continent to look at British history from a Norman perspective Parts of this study have been previously published

The Sleep of Behemoth Jehangir Yezdi Malegam, 2013-03-12 In The Sleep of Behemoth Jehangir Yezdi Malegam explores the emergence of conflicting concepts of peace in western Europe during the High Middle Ages Ever since the Early Church Christian thinkers had conceived of their peace separate from the peace of the world guarded by the sacraments and shared only grudgingly with powers and principalities To kingdoms and communities they

had allowed attenuated versions of this peace modes of accommodation and domination that had tranquility as the goal After 1000 reformers in the papal curia and monks and canons in the intellectual circles of northern France began to reimagine the Church as an engine of true peace whose task it was eventually to absorb all peoples through progressive acts of revolutionary peacemaking Peace as they envisioned it became a mandate for reform through conflict coercion and insurrection And the pursuit of mere tranquility appeared dangerous and even diabolical As Malegam shows within western Christendom s major centers of intellectual activity and political thought the clergy competed over the meaning and monopolization of the term peace contrasting it with what one canon lawyer called the sleep of Behemoth a diabolical false peace of lassitude and complacency one that produced unsuitable forms of community and friendship that must be overturned at all costs Out of this contest over the meaning and ownership of true peace Malegam concludes medieval thinkers developed theologies that shaped secular political theory in the later Middle Ages The Sleep of Behemoth traces this radical experiment in redefining the meaning of peace from the papal courts of Rome and the schools of Laon Liege and Paris to its gradual spread across the continent and its impact on such developments as the rise of papal monarchism the growth of urban communal self government and the emergence of secular and mystical scholasticism
