**European Integration and Supranational Governance** Wayne Sandholtz,Alec Stone Sweet,1998-09-24 The European Union began in 1957 as a treaty among six nations but today constitutes a supranational polity one that creates rules that are binding on its 15 member countries and their citizens This majesterial study confronts some of the most enduring questions posed by the remarkable evolution of the EU Why does policy making sometimes migrate from the member states to the European Union And why has integration proceeded more rapidly in some policy domains than in others A distinguished team of scholars lead by Wayne Sandholtz and Alec Stone Sweet offers a fresh theory and clear propositions on the development of

the EU Combining broad data and probing case studies the volume finds solid support for these propositions in a variety of policy domains The coherent theoretical approach and extensive empirical analyses together constitute a significant challenge to approaches that see the EU as a straightforward product of member state interests power and bargaining This volume clearly demonstrates that a nascent transnational society and supranational institutions have played decisive roles in constructing the European Union

*The Politics of Europeanization* Kevin Featherstone, Claudio M. Radaelli, 2003-06-05 The Politics of Europeanization looks at the political aspects of European integration from the point of view of domestic politics In doing so it goes beyond the classic analysis of how policies are made in Brussels and raises instead the question what is the power of Europe in national contexts The questions at the heart of this volume are crucial both for our understanding of European integration and for their policy implications What does Europeanization really mean How can it be measured How is the European Union affecting domestic politics and policies in member states and candidate countries Is Europeanization an irreversible process Does it mean convergence across Europe How and why do differences remain The contributors explain and question the power of Europe by providing theoretical and empirical perspectives on domestic politics and institutions government and administration public policies political actors and business groups The volume contains a new research agenda for the nascent literature on Europeanization

European Monetary Integration & Domestic Politics James I. Walsh, 2000 Three nations in similar economic situations since the 1970s have pursued different monetary strategies Walsh argues that monetary policies produce predictable winners and losers and that policy choice is a function of how industrial firms banks and unions use their political resources

*The Politics of European Integration* Michael O'Neill, 2002-09-11 The debate over European integration is a central issue in the study of contemporary Europe This book seeks to guide the student through the most important of the integration theories and academic literature on this vital topic The reader starts with an expansive and wide ranging introductory essay which offers a clear overview and analysis of the shifting terms of the debate on European integration during the post war period Part two provides key extracts from the seminal authors who have contributed to and fashioned this debate throughout its duration It brings together the most important parts from the most essential and influential literature on this important topic This reader will be of value to the growing number of students at both undergraduate and postgraduate level who are undertaking courses in European studies and European politics It will be especially useful to those who require some knowledge of the origins and developments of this important issue at the centre of the debate over Europe

Building Europe Cris Shore, 2013-11-05 The development of the European Union has been one of the most profound advances in European politics and society this century Yet the institutions of Europe and the Eurocrats who work in them have constantly attracted negative publicity culminating in the mass resignation of the European Commissioners in March 1999 In this revealing study Cris Shore scrutinises the process of European integration using the techniques of anthropology and drawing on thought from across the social sciences Using the findings of numerous

interviews with EU employees he reveals that there is not just a subculture of corruption within the institutions of Europe but that their problems are largely a result of the way the EU itself is constituted and run. He argues that European integration has largely failed in bringing about anything but an ever closer integration of the technical, political and financial elites of Europe at the expense of its ordinary citizens. This critical anthropology of European integration is essential reading for anyone with an interest in the culture and politics of the EU.

**Integrating Europe** Jeffrey Stacey, 2010-04-15. In *Integrating Europe: Informal Politics and Institutional Change*, the author explains why the European Union (EU) member states actively surrender policy making power to supranational authorities in unconventional ways. In light of the general antipathy toward giving up national sovereignty in European societies even where pro-European sentiment thrives, why do national governments allow the creation of any new EU laws or policies whose effects they cannot keep under their general control? Why do EU member states allow any sovereignty transfer to occur outside of inter-governmental treaties which are the only legitimate EU bargains found in the EU's formal sphere? Deploying the tools of rational choice institutionalist theory, the author argues that informal bargains struck between the EU's primary organizational actors, the European Council, European Commission and European Parliament, have paradoxically resulted in increased integration. As the EU is an ideal laboratory for testing different institutionalist hypotheses for explaining institutional change, the author focuses on the ongoing competition to alter the EU rules that allocate power and with an approach that allows for feedback loops among agents and structures, makes an argument that flies in the face of realist and intergovernmentalist theories. While some have shed light on the importance of informal dynamics in the legal sphere of the EU, this book does the same for the policy making sphere.

**European Integration and Consensus Politics in the Low Countries** Hans Vollaard, Jan Beyers, Patrick Dumont, 2014-08-13. The Netherlands, Belgium and Luxembourg are well known cases of consensus politics. Decision making in the Low Countries has been characterized by broad involvement, power sharing and making compromises. These countries were also founding member states of the European Union (EU) and its predecessors. However, the relationship between European integration and the tradition of domestic consensus politics remains unclear. In order to explore this relationship, this book offers in-depth studies of a wide variety of political actors such as governments, parliaments, political parties, courts, ministries and interest groups, as well as key policy issues such as the ratification of EU treaties and migration policy. The authors focus not only on Europeanization but also analyse whether European integration may gradually undermine the fundamental characteristics of consensus politics in the Low Countries. Drawing on consociationalism and Europeanization research, this volume provides a comprehensive overview of Europeanization in these three EU member states as well as a better understanding of the varieties of consensus politics across and within these countries. This book will be of interest to students and scholars of European studies, European integration, European law, political science, European political economy and comparative politics.

**The European Commission and the Integration of Europe** Liesbet Hooghe, 2001. What kind

of European Union do top Commission officials want Should the European Union be supranational or intergovernmental Should it promote market liberalism or regulated capitalism Should the Commission be Europe's government or its civil service This 2002 book examines top officials' preferences on these questions through analysis of unique data from 137 interviews Understanding the forces that shape human preferences is the subject of intense debate Hooghe demonstrates that the Commission has difficulty shaping its employees' preferences in the fluid multi-institutional context of the European Union Top officials' preferences are better explained by experiences outside rather than inside the Commission political party country and prior work leave deeper imprints than directorate general or cabinet Preferences are also influenced more by internalized values than by self-interested career calculation Hooghe's findings are surprising and will challenge a number of common assumptions about the workings and motives of the European Commission **Europeanised Politics?** Klaus H.

Goetz, Simon Hix, 2012-12-06 This comparative examination of the impact of European integration on the politics and government of EU member states covers the parties the legal system voters and public administration The New Politics of European Integration Ghita Ionescu, 1972-06-18 *Routledge Handbook of European Politics* José Magone, 2014-12-17

Since the Treaty of the European Union was ratified in 1993 the European Union has become an important factor in an ever-increasing number of regimes of pooled sovereignty This Handbook seeks to present a valuable guide to this new and unique system in the twenty-first century allowing readers to obtain a better understanding of the emerging multilevel European governance system that links national politics to Europe and the global community Adopting a pan-European approach this Handbook brings together the work of leading international academics to cover a wide range of topics such as the historical and theoretical background the political systems and institutions of both the EU and its individual member nations political parties and party systems political elites civil society and social movements in European politics the political economy of Europe public administration and policy making external policies of the EU This is an invaluable and comprehensive resource for students scholars researchers and practitioners of the European Union European politics and comparative politics

The Political Economy of European Integration Finn Laursen, 2023-12-11 The study of European integration produced much scholarly debate in the 1950s and 60s The following two decades saw few works on European integration that included more elaborate discussions of theory and methodology most studies in that period were fairly descriptive In recent years there has been renewed theoretical interest in European integration This book however is one of the first to discuss and apply various political economy approaches explicitly to integration including classical integration theory and modern public choice theories Areas covered include common policies and decision making as well as the external relations of the EU The influence of the European Parliament the concept of subsidiarity trade policy Economic and Monetary Union reform of the Common Agricultural Policy relations with EFTA and Eastern European countries as well as enlargement are all discussed Audience Of interest to both scholars and policy makers concerned with these issues **European Union Politics** Michelle
