## **Politics And Society In Eastern Europe:**

**Politics and Society in Eastern Europe** Joni Lovenduski, Jean Woodall, 1987-01-01      **Democracy and Civil Society in Eastern Europe** Paul G. Lewis, 2016-07-27 The book presents an informed and wide ranging examination of issues surrounding the development and future prospects of civil society in Eastern Europe The contributions mostly by leading East European scholars relate the key concept of civil society to the processes that led to the collapse of communism and which bear on prospects for the establishment of a democratic order throughout the region The development of the concept is related to questions like those surrounding economic policy and reform and the women s movement      **The Experience of Democratization in Eastern Europe** Richard Sakwa, 1999-05-17 Drawing on a selection of papers presented to the Fifth World Congress of Central and East European Studies held in Warsaw in August 1995 the book presents a broad cross section of thinking about postcommunist developments in Eastern Europe and the former Soviet Union Specialists from the region and the West apply their unique insights to challenge some conventional views on the transition The book is both diverse and focused suggesting that the experience of democratisation is an open ended process in which those involved learn both from their own experience and from comparative transitions elsewhere It provides a rich source for the comparative analysis of democratisation      **Comparative Political Systems** Charles F. Andrain, 1994 This book focuses on the economic changes produced by different political systems and on the social impact of regime transformations It addresses several key policy issues How does the policy process operate in various types of political systems What impact do public policies and policy outcomes wield on transformations in a political system How does public policy preference in different political systems affect democracy capitalism and socialism      **Civil Society Before Democracy** Nancy Bermeo, Philip Nord, 2000-11-15 Bringing together historians and political scientists this unique collaboration compares nineteenth century civil societies that failed to develop lasting democracies with civil societies that succeeded Much of the current literature on the connection between civil society and consolidating democracy focuses exclusively on single contemporary polities that are ever changing and uncertain By studying historical cases the authors are able to demonstrate which civil societies developed in tandem with lasting democracies and which did not Contrasting these two sets of cases the book both enlightens readers about individual countries and extracts lessons about the connections between civil society and democracy in contemporary times Above all the authors ask the vital but under researched question OHow and why does democratic civil society develop O      Civil Society in Communist Eastern Europe Matt Killingsworth, 2024-10-31 As well as promoting debates about liberal democracy the dramatic events of 1989 also bought forth a powerful revival in the interest of the notion of civil society This revival was reflected mainly in two broad tracts of literature The first focused primarily on events surrounding the Solidarity movement in Poland and the tumultuous events of 1980 81 The second was concerned with the Velvet Revolutions more broadly Following the events of 1989 there appeared a number of works sharing the common

central argument that civil society played a key role in the overthrow of these Communist regimes in 1989 Killingsworth's book presents three broad arguments all of which reject the way civil society has been applied in the analysis of opposition and dissent in totalitarian Czechoslovakia the GDR and Poland First it argues that the totalitarian nature of Soviet type regimes means that it was not possible for a genuine civil society to exist Second the civil society paradigm as it has been applied to opposition and dissent in Soviet type regimes in Eastern Europe lacks analytical rigour Thirdly the book argues that the dominant liberal interpretation of dissenting opposition in Soviet type regimes is politically and morally flawed

**Civil Society in Democratization** Peter J. Burnell, Peter Calvert, 2004 Featuring a broad range of perspectives on the democratic process this collection of essays explores the development of civil society and how civil societies manage democratic change around the world

**Developments in Central and East European Politics 4** Stephen White, Judy Batt, Paul G. Lewis, 2007 The face of Central and Eastern Europe has been dramatically transformed since the collapse of communism The region faces new challenges including the needs to find a balance between effective leadership and accountability and to reverse the economic decline of the late communist years Addressing these concerns and others Developments in Central and East European Politics 4 brings together specially commissioned chapters by leading scholars from both sides of the Atlantic The chapters all of which are new to this edition focus on key features of the political systems that have emerged following the transition to postcommunist rule and the enlargement of the European Union through 2006 Full attention is given to the pattern of events in individual nations but the main emphasis is on the framework of politics across the region constitutions leadership parliaments parties and electoral systems and the process of politics as it is revealed in political participation civil society economic change and the quality of democratic government within and beyond the region Clearly written and well supported with references and suggestions for further reading Developments in Central and East European Politics 4 is the ideal guide to the process of change in a group of states that were formerly modeled on the Soviet Union but are now a distinctive and varied presence within a continent that has been redefining its boundaries its values its economic systems and its international allegiances Contributors Judy Batt Dirk Berg Schlosser Sarah Birch Heather Grabbe Tim Houghton Krzysztof Jasiewicz Petr Kopeck Paul G Lewis Frances Millard Cas Mudde D Mario Nuti Mark Pittaway Ray Taras Stephen White Andrew Wilson Katarzyna Wolczuk

**Politics and Society in the Central and South-Eastern Europe**, 2019

**Strategies of Symbolic Nation-building in South Eastern Europe** Pål Kolstø, 2016-04-01 After the conflagration of Tito's Yugoslavia a medley of new and not so new states rose from the ashes Some of the Yugoslav successor states have joined or are about to enter the European Union while others are still struggling to define their national borders symbols and relationships with neighbouring states Strategies of Symbolic Nation building in South Eastern Europe expands upon the existing body of nationalism studies and explores how successful these nation building strategies have been in the last two decades Relying on new quantitative research results the contributors offer interdisciplinary analyses of symbolic

nation building in Albania Bosnia Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia to show that whereas the citizens of some states have reached a consensus about the nation building project other states remain fragmented and uncertain of when the process will end A must read not only for scholars of the region but policy makers and others interested in understanding the complex interplay of history symbolic politics and post conflict transition Beyond Post-communist Studies Terry D. Clark,2016-07-08 This book makes the case that several East Central European countries have emerged as fully consolidated democracies As such they may be integrated into the mainstream of political science research and not consigned forever to a transitional category encompassing countries that are now fully democracies as well as some that are not democratic at all The author outlines the steps of another transition from post communist studies to political science research He demonstrates how institutionalist or rational choice theories can be applied to the analysis of political processes in the successfully democratized countries and proposes a new research agenda for political scientists studying the region The results of this work can enrich political science as well as our understanding of both democracy and the politics of contemporary Eastern Europe **German Politics and Society** ,2000 *The Reemergence Of Civil Society In Eastern Europe And The Soviet Union* Zbigniew Rau,2019-06-26 The turmoil that shook Eastern Europe in the late 1980s and challenged traditional centers of power in the Soviet Union has touched off an intense debate about the forces behind the recent collapse of Soviet type systems Civil society a key concept in the debate is the focus of this thought provoking volume which contrasts the views of Eastern scholars and activists in independent movements against those of Western academics The authors various perspectives on the struggle between the people and their governments highlight different facets of civil society providing new insights into its definition origin and function within a nation s public life

Understanding Central Europe Marcin Moskalewicz,Wojciech Przybylski,2017-11-20 Central Europe is a vague and ambiguous term more to do with outlook and a state of mind than with a firmly defined geographical region In the immediate aftermath of the collapse of the Iron Curtain Central Europeans considered themselves to be culturally part of the West which had been politically handicapped by the Eastern Soviet bloc More recently and with European Union membership Central Europeans are increasingly thinking of themselves as politically part of the West but culturally part of the East This book with contributions from a large number of scholars from the region explores the concept of Central Europe and a number of other political concepts from an openly Central European perspective It considers a wide range of issues including politics nationalism democracy and the impact of culture art and history Overall the book casts a great deal of light on the complex nature of Central Europe *Politics, Society, And Nationality Inside Gorbachev's Russia* Seweryn Bialer,2019-06-04 The East West Forum is a New York based research and policy analysis organization sponsored by the Samuel Bronfman Foundation Its goal is to bring together experts and policy leaders from differing perspectives and generations to discuss changing patterns of East West relations It attempts to formulate long term analyses and recommendations In p **Political**

**Parties in Post-Communist Eastern Europe** Paul Lewis, 2002-01-04 Political Parties in Post Communist Eastern Europe is the first textbook to survey the course of party developments in eastern Europe as a whole in the post Communist period This book relates the specifics of the post communist situation to the broader picture of the early stages of party development in western Europe and also to contemporary models of party organisation in established democracies The book includes a brief historical introduction to the context of post communist change the process of competitive party formation and democratic elections the development of independent parties their ideologies and electoral volatility the structure and level of organisation developed by new parties an analysis of stable party systems which have emerged in eastern Europe and the contribution they make to emerging democracies in the region Party Politics in Post Communist Eastern Europe will be a comprehensive and invaluable resource accessible to undergraduates of politics and European studies as well as the non specialist reader

**The Lost Decade? The 1950s in European History, Politics, Society and Culture** Heiko Feldner, Claire Gorrara, Kevin Passmore, 2010-10-12 This volume of essays explores the social political and cultural legacies of a decade which has until relatively recently received scant scholarly attention Sandwiched uncomfortably between the traumatic events of the Second World War and the dramatic changes of the 1960s the 1950s appeared as seemingly transitional years while they were in fact an astonishingly fecund period of reassessment and experimentation when traditional models were re evaluated and new models were road tested to be either developed or rejected An important intervention in the dynamic scholarly re examination of the 1950s this volume analyzes these years in relation to three broadly defined areas historiography politics and society and culture What emerges from all three parts of the volume is a vision of the 1950s as a decade which was to have a profound impact on post war European identities in two key respects as a time of accelerated European intellectual exchange and as a time of fertile receptivity to the new variously formulated and contested across and within national borders Written by experts in the field the contributions to this volume represent some of the most exciting work on the 1950s currently being undertaken in Europe and the US They combine high intellectual standards with accessibility and will appeal to academics students and the general reader alike
