Economic Statecraft and Foreign Policy Jean-Marc F. Blanchard, Norrin M. Ripsman, 2013-07-18 This book develops a unified theory of economic statecraft to clarify when and how sanctions and incentives can be used effectively to secure meaningful policy concessions High profile applications of economic statecraft have yielded varying degrees of success The mixed record of economic incentives and economic sanctions in many cases raises important questions Under what conditions can states modify the behaviour of other states by offering them tangible economic rewards or by threatening to disrupt existing economic relations To what extent does the success of economic statecraft depend on the magnitude of economic penalties and rewards In order to answer these questions this book develops two analytic models one weighs the threats economic statecraft poses to the Target's Strategic Interests TSI while the other stateness assesses the degree to which the target state is insulated from domestic political pressures that senders attempt to generate or exploit Through a series of carefully crafted case studies including African apartheid and Japanese incentives to obtain the return of the Northern Territories the authors demonstrate how their model can yield important policy insights in regards to contemporary economic sanctions and incentives cases such as Iran and North Korea This book will be of much interest to students of statecraft sanctions diplomacy foreign policy and international security in general

Politics in Nepal, 1980-1991 Rishikesh Shaha, 1993 Asia's Unknown Uprisings Volume 2
George Katsiaficas, 2013-04-01 Ten years in the making this magisterial work the second of a two volume study provides a unique perspective on uprisings in nine Asian nations in the past five decades While the 2011 Arab Spring is well known the wave of uprisings that swept Asia in the 1980s remain hardly visible Through a critique of Samuel Huntington's notion of a Third Wave of democratization the author relates Asian uprisings to predecessors in 1968 and shows their subsequent influence on uprisings in Eastern Europe at the end of the 1980s By empirically reconstructing the specific history of each

Asian uprising significant insight into major constituencies of change and the trajectories of these societies becomes visible This book provides detailed histories of uprisings in nine places the Philippines Burma Tibet China Taiwan Bangladesh Nepal Thailand and Indonesia as well as introductory and concluding chapters that place them in a global context and analyze them in light of major sociological theories Profusely illustrated with photographs tables graphs and charts it is the definitive and defining work from the eminent participant observer scholar of social movements **The Cultural Production of the Educated Person** Bradley A. Levinson, Douglas E. Foley, Dorothy C. Holland, 1996-03-07 Eleven historical ethnographic case studies examine the social and cultural projects of modern schools and the contestations dramatic and not that emerge in and around and against them These case studies ranging from Taiwan to South Texas build upon an original joining of anthropology critical education theory and cultural studies The studies advance the concept of cultural production as a way of understanding the dynamics of power and identity formation underlying different forms of education Using the concept of the educated person as a culture specific construct the authors examine conflicts and points of convergence between cultural practices and knowledges that are produced in and out of schools Politics in Nepal, 1980-1990 Rishikesh Shaha, 1990

Social Regulation: Case Studies from Tibetan History, 2016-09-27 In *Social Regulation Case Studies from Tibetan History* the editors Jeannine Bischoff and Saul Mullard present a collection of studies of the mechanisms that regulated Tibetan societies from the 17th to the 20th centuries Social regulations controlled shaped and perpetuated Tibetan societies but close analyses of these historical processes are rarely to be seen in event history writing The contributions to this volume explore the theme of social regulation from the perspectives of religion politics and administration while addressing issues of morals and values Covering a wide range of Tibetan societies the geographical scope of this volume extends from the Central Tibetan area to the southeastern Tibetan borderlands and the Himalayan kingdoms of Nepal and Sikkim Contributors are Alice Travers Berthe Jansen Charles Ramble Fernanda Pirie Jeannine Bischoff Kalsang Norbu Gurung Kensaku Okawa Nyima Drandul Peter Schwieger Saul Mullard Yuri Komatsubara *Congressional Serial Set*, 1994 **Demoting Vishnu** Anne T. Mocko, 2015-12-01 At the turn of the millennium Nepal was the world's last remaining Hindu kingdom Even the most skeptical of observers could hardly imagine that the institution of the monarchy could soon be in jeopardy In 2001 however Nepal's popular King Birendra was killed in the royal palace Though the crown passed to his brother Gyanendra the monarchy would never fully recover Nepal witnessed an anti king uprising in April 2006 and over the course of two years an interim administration systematically took over all the king's duties and privileges Most decisively beginning in the summer of 2007 the government began blocking the king from participating in his many public rituals sending the prime minister in his place instead *Demoting Vishnu* argues that Nepal's dramatic political transformation from monarchy to republic was contested and in key ways accomplished through ritual performance Mocko theorizes the role of public ritual in producing Nepal's state ideology She examines how royal ritual once authorized kings to serve as the privileged apex of national

governance and shows how in the twenty first century those rituals stopped serving the king and began instead to authorize rule by a party based head of state By co-opting state ritual the king's opponents were able to attack the monarchy's social identity at its foundations enabling the final legal dissolution of kingship in 2008 to take place without physically harming the king himself All once royal rituals continue to be performed but now they are handled by the country's president a position created in 2008 to take over state ceremonial functions Demoting Vishnu illustrates how upheaval in ritual contexts undermined the institutional logic of the monarchy by demonstrating in very public ways that kingship was contingent, opposable and ultimately dispensable
