Politics Of Carnival:

The Politics of Carnival Chris Humphrey, 2001 Medieval festivals such as carnival and misrule were occasions which created a temporary and dynamic upside down world This text shows these occasions were highly diverse and discusses how they were able to negotiate a range of meanings and values

Constellations of the Transnational Sudeep Dasgupta, 2007 In the wake of proliferating discourses around globalisation and culture some central questions around cultural politics have acquired a commonsensical and hegemonic character in contemporary intellectual discourse The politics of difference the possibilities of hybridity and the potential of multiple liminalities frame much discussion around the transnational dimensions of culture and post identity politics In this volume the economic political and social consequences of the focus on culture in contemporary theories of globalization are analysed around the disparate fields of architecture museum discourse satellite television dub poetry carnival and sub national theatre The discourses of hybridity diaspora cultural difference minoritization are critically interrogated and engaged with through close analysis of cultural objects and practices The essays thus intervene in the debate around modernity globalization and cultural politics and the volume as a whole provides a critical constellation through which the complexity of transnational culture can be framed Thinking through the particular the essays limn the absent universality of forms of capitalist globalization and the volume as a whole provides multiple perspectives from which to enter the singular modernity of our times in all its complexity

Reimagining Black Difference and Politics in Brazil Alexandre Emboaba Da Costa, 2014-04-09 Reimagining Black Difference and Politics in Brazil examines Black Brazilian political struggle and the predicaments it faces in a time characterized by the increasing institutionalization of ethno racial policies and black participation in policy orchestration Greater public debate and policy attention to racial inequality suggests the attenuation of racial democracy and positive miscegenation as hegemonic ideologies of the Brazilian nation state However the colorblind and post racial logics of mixture and racial democracy especially the denial and or minimization of racism as a problem maintain a strong grip on public thinking social action and institutional practices Through a focus on the epistemic dimensions of black struggles and the anti racist pluri cultural efforts that have been put into action by activists scholars and organizations over the past decade Alexandre Emboaba Da Costa analyzes the ways in which these politics negotiate as well as seek to go beyond the delimited understandings of racial difference belonging and citizenship that shape the contemporary politics of inclusion

Carnival Art, Culture and Politics Michaelaeline Crichtlow, 2013-09-13 Drawing on rich insights from cultural post structural and postcolonial studies this book demands that we rethink Carnival and the carnivalesque as not just celebratory moments or even as critical subtext but also as insightful performatives of social life anywhere given the entangled times and spaces of these performances The authors review Carnival s performative aspects not merely as a calendrical festival but rather center attention on the relationship between carnival and everyday life and on how people negotiate their social spaces and possibilities in the context of modern power The book therefore seeks to highlight the knotted time spaces of power and to demonstrate the dynamic interplay between state spaces and people s spaces that are being weaved by carnival

s interlocutors It demonstrates how Carnival and the Carnavalesque become analytic optics through which the relations of power in the social and political life of subjects who seek to tacitly or strategically vary their given identities can be productively engaged This book was originally published as a special issue of Social Identities Journal for the Study of Race Nation and Culture The Politics of London Tony Travers,2017-05-26 Interest in the governance of London has remained high in the years following the election of a London mayor and all the twists and turns of Mayor Livingstone s term of office including struggles with Whitehall and the boroughs Written by a leading authority The Politics of London provides a definitive critique of the politics administration and government of one of the world s leading cities and recommends major changes to the capital s government to address its longstanding crisis of governability **Textual Carnivals** Susan Miller,1993 In this study of the status of composition in English studies programs Miller English U of Utah notes the institutional marginalization of composition and its teachers and calls on her associates in composition to engage in a broader political interpretation of composition by persistently critiquing the current agendas of their discipline and reinterpreting its misdirected social history Annotation copyrighted by Book News Inc Portland OR The Politics of Economic Decline in East Germany, 1945-1989 Jeffrey Kopstein,2000-11-09 Jeffrey Kopstein offers the first comprehensive study of East German economic policy over the course of the state s forty year history Analyzing both the making of economic policy at the national level and the implementation of specific policies on the shop floor he provides new and essential background to the revolution of 1989 In particular he shows how decisions made at critical junctures in East Germany s history led to a pattern of economic decline and worker dissatisfaction that contributed to eventual political collapse East Germany was generally considered to have the most successful economy in the Eastern Bloc but Kopstein explores what prevented the country s leaders from responding effectively to pressing economic problems He depicts a regime caught between the demands of a disaffected working class whose support was crucial to continued political stability an intractable bureaucracy an intolerant but surprisingly weak Soviet patron state and a harsh international economic climate Rather than pushing for genuine economic change the East German Communist Party retreated into what Kopstein calls a campaign economy in which an endless series of production campaigns was used to squeeze greater output from an inherently inefficient economic system Originally published in 1996 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value The Paradox of Tar Heel Politics (Volume 1 of 3) (EasyRead Super Large 24pt Edition) , *The Paradox of Tar Heel Politics (Volume 1 of 2) (EasyRead Super Large 18pt Edition)* , **Literature and Politics** Peter Marks,2011-12-08 George Orwell argued that one of the four great motives for a prose writer was the desire to push the world in a certain direction to alter other people s idea of the kind of society that they should strive after This book

contains exciting new work by established and emerging scholars that explores political literature over the last century and a half. It shows how from The Communist Manifesto to the dystopian future of Margaret Atwood's *Oryx and Crake* writers have attempted to alter people's ideas, not always successfully. Eighteen chapters deal with a global array of writers and topics from 1890s Australian bohemians and the anti-Peronism of Argentina's Julio Cortázar to Aris Alexandrou's Greek utopia and the harsh modern Zimbabwe of Yvonne Vera's *The Stone Virgins*. Other contributors critically examine the sexual politics of nineteenth-century aestheticism, Theodor Adorno and Cultural Studies, Paul Auster and the altermodern, Yeats's poetry, Celan and the Holocaust, the postmodernism of former Yugoslavia's Dubravka Ugrešić, or the socialism of Australian Jean Devanny. Whether through informed studies of poetry and politics in Heidegger, Richard Marsh's gothic novel *The Beetle*, how Thomas Pynchon and Don DeLillo deal with 9/11, the cultural politics of child abuse in Christos Tsiolkas's *The Slap*, or how the German politician Joschka Fischer lost weight, readers will be stimulated by a collection that shows political literature's continuing ability to inform, enrage, and engage readers from around the world.

Torn Halves Robert Young, 1996. What is the relation of politics to theory? Theories make political claims; theorists make political critiques; and academics use theory in the pursuit of institutional ends: theory is not only about politics but is itself a political practice.

Carnival Caricatures Fabiana Lopes da Cunha, 2024-08-06. This work analyzes carnival in Rio de Janeiro through the irreverent view disclosed by the illustrated Brazilian magazines *Fon Fon* and *Careta*. For such purpose, texts and illustrations elaborated by great names in caricature and literature were used, as well as by journalists who remained anonymous due to the fact that their chronicles and articles did not carry their signatures. The way in which carnival was dealt with in said publications was intimately related to the world view which intellectuals enjoyed, the Belle Époque, and to the readers of these magazines, the urban middle classes and part of the elite. To understand both the view and the type of humoristic approach used, songs and the works of chronicle writers, memorialists, and historians who worked on the theme were also investigated. At the end, what could be verified through the study of these publications was the importance that carnival enjoyed in the lives of those men of letters and brushes, and how relevant was the counterpart which they made possible, not only to readers but also to us historians. Through these publications, it is possible to redeem and reconstruct part of the history of carnival, as well as understand the context of the period, political problems, stylishness, innovations, and changes in the lives of Rio de Janeiro carioca dwellers. So much attention to the theme from the illustrated press denotes the importance of carnival to the financial health of newspaper companies, since the subject and its well-humored approach pleased readers, besides showing that not only did those writers and artists write about the festivities in an irreverent manner but they also actively participated in them as carnival merrymakers, and therefore they were themselves artificers of that history.

Inside the Carnival Wayne Parent, 2004. With both an entertainer's eye and a social scientist's rigor, Wayne Parent subjects Louisiana's politics to rational and empirical analysis, seeking and finding coherent reasons for the state's well-known unique history. He resists

resorting to vague hand waving about exoticism while at the same time he brings to life the juicy stories that illustrate his points Parent's main theme is that Louisiana's ethnic mix natural resources and geography define a culture that in turn produces its unique political theater He gives special attention to immigration patterns and Louisiana's abundant supply of oil and gas as well as to the fascinating variations in political temperaments in different parts of the state Most important he delivers thorough and concise explanations of Louisiana's unusual legal system odd election rules overwrought constitutional history convoluted voting patterns and unmatched record of political corruption In a new epilogue Parent discusses how the hurricanes of 2005 will affect state politics and politicians as Louisiana struggles to regain its footing in the New South

Political Economy and Constitutional Reform United States. Congress. Joint Economic Committee, 1983 **China's International Relations and Harmonious World** Astrid Nordin, 2016-04-28 As scholars and publics look for alternatives to what is understood as a violent Western world order many claim that China can provide such an alternative through the Chinese dream of a harmonious world This book takes this claim seriously and examines its effects by tracing the notion across several contexts the policy documents and speeches that launched harmony as an official term under previous president Hu Jintao the academic literatures that asked what a harmonious world might look like the propaganda and mega events that aimed to illustrate it the online spoofing culture that is used to criticise and avoid harmonization and the incorporation of harmony into current president Xi Jinping's Chinese dream This book finds contemporary Chinese society and international relations saturated with harmony Yet rather than offering an alternative to problems in Western thought it counter intuitively argues that harmony has not taken place is not taking place and will not take place The argument unfolds as a contribution to wider debates on time space and multiplicity in world politics Offering analysis of the important but understudied concept of harmony Nordin provides new and creative insights into wider contemporary issues in Chinese politics society and scholarship The book also suggests a creative and novel methodology for studying foreign policy concepts more broadly drawing on critical thinkers in innovative ways and in a new empirical context It will be of interest to students and scholars of IR Chinese foreign and security policy and IR theory The Political Career of W. Kerr Scott Julian M. Pleasants, 2014-09-29 The tank revolutionized the battlefield in World War II In the years since additional technological developments including nuclear weapons ballistic missiles computer assisted firing and satellite navigation have continued to transform the face of combat The only complete history of U S armed forces from the advent of the tank in battle during World War I to the campaign to drive Iraq out of Kuwait in 1991 Camp Colt to Desert Storm traces the development of doctrine for operations at the tactical and operational levels of war and translates this fighting doctrine into the development of equipment
