Politics Of Caspian Oil:

The Politics of the Caspian Oil B. Gokay, 2001-01-19 The Caspian Caucasus region has received considerable attention over the past eight years The old potential of this colossal territory is so significant that the analytical centres of the world's largest oil and refining companies consider it to be more long term than the unstable Persian Gulf The Politics of Caspian Oil is a collection of essays presenting the results of recent research which should serve as a reference book for the politics of Caspian oil

Politics of Oil Bulent Gokay, 2019-03-04 This new title presents key information on the oil industry world wide and will be of interest to anyone involved in or studying the politics of oil production processing and selling Oil has long been at the forefront of political agendas and with increased tensions in the Middle East there has never been a greater need for up to date reliable information on this key industry Includes essays covering the main themes an A Z glossary listing important terms detailed maps a statistics section

Troubled Waters Hovann H. Simonian, R. Hrair Dekmejian, 2003-06-27 Once the landlocked backwater between Iran and the Soviet Union the Caspian has in the last ten years emerged as the epicentre of vast conflicting interests in a region where massive geopolitical issues converge with enormous energy resources and dramatic latent instability Russia's conflict in Chechnya is a direct by product of the strategic importance of the Caspian region Troubled Waters presents a comprehensive analysis of the political and economic dynamics of the Caspian basin It examines the area's historical evolution and the diverse issues and players in what has become a modern variant of the Great Game of the nineteenth century Following a historical overview of the region and its oil industries the book analyses the domestic politics and the foreign policies of the five states bordering the Caspian Russia Iran Azerbaijan Kazakhstan and Turkmenistan It further identifies all the external interests involved in the Caspian's political rivalries and control over its resources and territory including the US the major European powers various nationalist movements Islamic militants multi national corporations NGOs and international financial institutions These features coupled with the political and economic risk assessment of the Caspian basin which this book provides makes this a unique contribution to our understanding of a region which is strategically positioned at the territorial juncture of Russia China East Asia and the Middle East

Politics and Oil in Kazakhstan Wojciech Ostrowski, 2010-02-25 Based on extensive field work and in depth interviews in Kazakhstan this book provides a comprehensive study of the issues of politics of oil and state business relationships in Kazakhstan It examines the ways in which the post Soviet Kazakh regime has managed to sustain itself in power and the regime maintenance techniques it has used in the process of establishing and upholding its position

The Law & Politics of the Caspian Sea in the Twenty-first Century Bahman Āqāyī, Bahman Aghai Diba, 2003 The Caspian Sea has been the focus of states and peoples in and out of the area for the last decade The surrounding states are interested in getting a decent share of the lake's resources The industrial states are interested in taking the oil gas and other natural wealth of the Caspian Sea to world markets as soon as possible The populations of the littoral states which are all

ruled by undemocratic regimes are concerned with whether their governments will retain their just rights in the Caspian Sea. They realise that the highest priority for their current rulers is to keep their grip on power not their nation's present or future interests. How have the respective governments in Azerbaijan, the Federation of Russia, Kazakhstan, Turkmenistan and especially Iran thought and acted in regard to the situation of the Caspian Sea and their interests? The issue has a special reference to Iran because it is experiencing a terrible situation in regard to the Caspian Sea due to the poor management of its foreign policy and international relations. Iran will end up with the smallest share of the Caspian Sea whether it likes it or not. This is a serious setback for a country that once shared the Caspian Sea with the former Soviet Union. Iran's mismanagement of its Caspian Sea rights is a political and diplomatic lesson in what not to do. This book gives everyone even those without legal or political backgrounds in this issue an opportunity to survey the facts and history and to analyse the legal and political realities of the present political situation of the world's largest lake. Strategic Developments in Eurasia After 11 September Shireen Hunter, 2004. Presenting the views of leading experts on strategic considerations in Eurasia, this volume shows that the 11 September attacks and subsequent developments have affected the way in which international relations are evaluated. In addition, these developments have turned the concept of asymmetric threats, including large-scale international terrorist attacks, into genuine realistic dangers threatening our security. As a result, the conventional mindset over issues of war and peace, of existing alliances and partnerships, even of the character of the international system, has to be re-evaluated. This volume sheds light on the aspects of change that have taken place in the post-11 September evolution of international relations in Eurasia. *The Caspian* Shirin Akiner, 2004-07-05. Reflecting the particular concerns of each of the Caspian countries, this book offers a unique perspective on the prospects and priorities for long-term development round the Caspian basin. Oil and Geopolitics in the Caspian Sea Region Bülent Aras, Michael P. Croissant, 1999-12-30. The opening of the Caspian Sea basin to Western investment following the breakup of the Soviet Union produced a major contest for access to the region's vast energy reserves on the part of powers as close as Russia, Turkey and Iran and as far away as Japan and the United States. Indeed, the struggle to exploit Caspian oil has been one of the most monumental geopolitical developments of the post-Cold War era as external powers vie for political, economic and military influence in a region brimming not only with oil but also with ethnic conflicts and historical animosities. The coming decade of rapidly increasing demand for energy will ensure the continued interest and engagement of external powers with often competing geopolitical agendas. Thus, the geopolitical developments spawned by the opening of the Caspian Sea are likely to continue to far outweigh the actual impact of Caspian oil on world energy markets. This collection of essays by prominent scholars and international experts offers several important and often conflicting interpretations of the events unfolding along the shores of the world's oldest oil-producing region. **Energy and Conflict in Central Asia and the Caucasus** Robert E. Ebel, Rajan Menon, 2000. This timely study is the first to examine the relationship between competition for energy resources and the propensity for conflict.

in the Caspian region Taking the discussion well beyond issues of pipeline politics and the significance of Caspian oil and gas to the global market the book offers significant new findings concerning the impact of energy wealth on the political life and economies of Azerbaijan Kazakhstan and Turkmenistan The contributors a leading group of scholars and policymakers explore the differing interests of ruling elites the political opposition and minority ethnic and religious groups region wide Placing Caspian development in the broader international relations context the book assesses the ways in which Russia China Iran and Turkey are fighting to protect their interests in the newly independent states and how competition for production contracts and pipeline routes influences regional security Specific chapters also link regional issues to central questions of international politics and to theoretical debates over the role of energy wealth in political and economic development worldwide Woven throughout the implications for U S policy giving the book wide appeal to policymakers corporate executives energy analysts and scholars alike

The Politics of Transition in Central Asia and the Caucasus Amanda E Wooden, Christoph H. Stefes, 2009-06-08 Most books on the Caucasus and Central Asia are country by country studies This book on the other hand fills a gap in Central Eurasian studies as one of the few comparative case study books on Central Eurasia covering both the Caucasus and Central Asia it considers key themes right across the two regions highlighting both political change and continuity Comparative case study chapters written by regional experts from a variety of methodological backgrounds provide historical context and evaluate Soviet political legacies and emerging policy outcomes Key topics include the varied types and sources of authoritarianism political opposition and protest politics predetermined outcomes of post Soviet economic choices social and stability impacts of natural resource wealth variations in educational reform international norm influence on gender policy and the power of human rights activists Overall the book provides a thorough up to date overview of what is increasingly becoming a significant area of concern

Oil Politics: The West and its desire for energy security since 1950 Felix Kruse, 2014-02-01 This book illustrates the story of oil politics from the 20th century until today It begins with the overthrow of the Iranian regime in 1953 and continues until the current rush for resources in the Arctic However the book does not simply outline these events but it also explains the reasons for the specific development of states acts Thereby this study is based on the International Political Economy and International Relations theory a combination that makes this book unique Finally the book gives the reader an insight of the petro state while outlining the strategic importance of oil itself

Pipeline Politics and Natural Gas Supply from Azerbaijan to Europe Sevinj Amirova-Mammadova, 2018-02-16 Sevinj Amirova Mammadova explores pipeline dynamics and natural gas supply within the southern gas corridor and provides an analysis of how policy interests and decisions of the state actors affect the current energy politics in the Caspian region The research period covers the second stage of the Caspian energy development determined by the production and export of natural gas to the European markets The focal point of the policy analysis lies on the competition among the different pipeline projects namely NABUCCO ITGI TAP SEEP and the decision

making process of the export route selection Energy interests of Turkey Russia and Azerbaijan elaborated in the research explain how and why certain decisions have been made by these major regional actors *Turkey Oil, Gas Sector Business and Investment Opportunities Yearbook Volume 1 Strategic Information and Basic Laws* IBP USA,2013-08 2011 Updated Reprint Updated Annually Turkey Oil Gas Sector Business Investment Opportunities Yearbook **The Political Economy of Russian Oil** David Lane,1999 One of the dominant export oriented industries in Russia oil is a major source of tax revenue and wealth The privatization of these vast assets has made the industry a site not only for conflict between power holders but also a strategic target for international corporations and Western governments In this thoughtful analysis a group of international specialists explores the political and economic issues and controversies surrounding the oil industry s move to capitalism The authors examine the spread of crime and corruption the role of Russian and Western financial institutions regional tensions and the international dimension As a paradigm for the Russian economy as a whole the case of oil industry provides invaluable insights for understanding the political and economic problems confronting Russia today

Economics of the Caspian Oil and Gas Wealth Y. Kalyuzhnova,2008-07-24 This book explores the economic challenges involved in managing hydrocarbon wealth in the Caspian region and looks at how to design an optimal energy policy The book draws on the Author s experience in dealing with the governments of the region and her knowledge of the role of major companies in the area *U.S. Interests in the Caucasus Region* United States. Congress. House. Committee on International Relations,1996 The Political Economy of Reform in Central Asia Martin C. Spechler,2008-04-23 This book examines the economic reforms and material progress of the Central Asian republics after becoming independent from the Soviet Union focusing especially although not exclusively on the largest of these new states Uzbekistan It considers the region s abundant energy resources and prospects for future development Power and the Politics of Oil in the Soviet South Caucasus Sara G. Brinegar,2023-12-14 Sara G Brinegar s book is the first to show how the politics of oil intersected with the establishment of Soviet power in the Caucasus it reveals how the Soviets cooperated and negotiated with the local elite rather than merely subsuming them More broadly *Power and the Politics of Oil in the Soviet South Caucasus* demonstrates not only how the Bolsheviks understood and exploited oil but how the needs of the industry shaped Bolshevik policy Brinegar reflects on the huge geopolitical importance of oil at the end of World War I and the Russian Civil War She discusses how the reserves sitting idle in the oil fields of Baku the capital of the newly independent Azerbaijan Democratic Republic and the center of the fallen empire s oil reserves were no exception to this With the Soviet leadership in Moscow intent on capturing the fields in the first few months of 1920 this book examines the Soviet project to rebuild Baku s oil industry in the aftermath of these wars and the political significance of oil in the formation of the Soviet Union *Energy Dependency, Politics and Corruption in the Former Soviet Union* Margarita M. Balmaceda,2007-12-06 Energy has become a major element to Russia s attempts under Putin to restore its influence over former Soviet territories and reaffirm itself as the dominant regional power This

book investigates how Russia has manipulated the energy of its neighbours on Russian energy supplies to achieve its foreign policy goals focusing in particular on relations with Ukraine This book based on a multitude of primary Ukrainian and Russian primary sources until now not brought to the attention of Western readers examines important events such as Russia s January 2006 suspension of gas supplies to Ukraine and the implications for Ukraine s Orange Revolution other post Soviet states and Western Europe However it goes further in showing how domestic political conditions in non Russian states may facilitate Russia s use of energy as a foreign policy weapon investigating the local groups that often receive significant profits from allowing Russia to control energy markets and energy transit possibilities With European countries becoming more dependent upon Russian energy this book will be of interest not only to Russian Studies and Eastern European Studies experts but to scholars of international relations and European politics

Energy in the Caspian Region Y.

Kalyuzhnova,A. Jaffe,D. Lynch,R. Sickles,2001-12-17 The energy reserves of the Caspian Region have been hailed as the new Middle East This book offers a thorough assessment of its energy resources and the nature of the international politics that surround them This volume presents a unique study of the various dimensions of Caspian energy ranging from the geopolitical to the economic technical religious and political
