Politics Of Duplicity:

The Politics of Duplicity Gail Kligman, 1998-07-06 Essentially an ethnography about politics public policy and lived experience this timely analysis of the Orwellian tragedy of Ceausescu's Romania is superbly researched a cross disciplinary contribution of immense value and wide interest that in places almost reads like a novel Henry P David author of *Born Unwanted*

The Politics of Everyday Life in Vichy France Shannon L. Fogg, 2009 This book examines how material distress shaped the interactions of native and refugee populations as well as perceptions of the Vichy government's legitimacy

Fragmented Identities Denise Roman, 2007-01-01 Combining sharp observation a native's ease in the city and talent as a storyteller Denise Roman spiritedly presents the myriad details and the diverging cultural strands of life in postcommunist Bucharest Roman focuses on identity formation and identity politics among youth Jews women and queers

Performative Contradiction and the Romanian Revolution Jolan Bogdan, 2017-03-29 The Romanian Revolution of 1989 ended 42 years of Communist rule It was the bloodiest revolution in a Warsaw Pact country culminating in the overthrow and execution of Nicolae Ceaușescu However there was no major democratic reform and power remained in the hands of key figures from the old regime This has led many theorists to question the authenticity of the entire revolution *Performative Contradiction and the Romanian Revolution* focuses in on the circumstances which led to these accusations It argues that the notion of an authentic revolution as a conceptual paradigm is neither a sufficient appropriate nor useful tool for an analysis of the events in Romania Engaging with the work of theorists including Stiegler Agamben Baudrillard Badiou Spinoza and Derrida it argues that performative contradiction is a more useful theoretical model for exploring this event Applying the concept to specific cases within the revolution the book demonstrates the power of performative contradiction as an analytic tool

State Terrorism and the Politics of Memory in Latin America Gabriela Fried Amilivia, 2016-01-28 This book examines the intergenerational transmission of traumatic memories of the dictatorship in the aftermath of the two first decades since the Uruguayan dictatorship of 1973-1984 in the broader context of public policies of denial and institutionalized impunity Transitional justice studies have tended to focus on countries like Argentina or Chile in the Southern Cone of Latin America However not much research has been conducted on the silent cases of transitions as a result of negotiated pacts The literature on memory trauma and impunity has much to offer to studies of transition and post authoritarianism This book situates the human and cultural experience of state terrorism from the perspective of the experiences of Uruguayan families through an in depth ethnographic cultural psycho social and political interdisciplinary study It will be a valuable resource to students scholars and practitioners who are interested in substantive questions of memory democratization and transitional justice set in Uruguay's scenario as well as to human rights policy makers advocates and educators and social and political scientists cultural analysts politicians social psychologists psychotherapists and activists It will also appeal to the general public who are interested in the problem of how to transmit the stories and

meaning of traumatic experiences as a result of gross human rights violations the cultural and generational effects of state terror and the politics of impunity This book is essential for collections in Latin American studies political science and sociology **Gender Politics and Everyday Life in State Socialist Eastern and Central Europe** S. It will also be of great interest to those who read the original book and are looking for new insights into an issue that is still as important and topical today as it was forty years ago Corruption and American Politics , **Reiner Schürmann and the Poetics of Politics** Christopher Long, 2018 Reiner Schürmann's thinking is as he himself would say riveted to a monstrous site. It remains focused on and situated between natality and mortality, the ultimate traits that condition human life. This book traces the contours of Schürmann's thinking in his magnum opus *BROKEN HEGEMONIES* in order to uncover the possibility of a politics that resists the hegemonic tendency to posit principles that set the world and our relationships with one another into violent order. Long's book follows in the footsteps of Oedipus who in abject recognition of his finitude stumbles upon the possibility of another politics with the help of his daughters at Colonus. The path toward this other collaboratively created and thus poetic politics begins with an encounter with Aristotle, a thinker whom Schürmann most frequently read as the founder of hegemonic metaphysics but whose thinking reveals itself as alive to beginnings in ways that open new possibility for human community. This return to beginnings leads in turn to Plotinus who Schürmann reads as marking the destitution of the ancient hegemony of the Parmenidean principle of the One. By bringing Schürmann's innovative and compelling reading of René Char's poem *The Shark and the Gull* into dialogue with Plotinus, we come to encounter the power of symbols to transform reality and open us to new constellations of possible community. In Plotinus where we expected to encounter an end, we experience a new way of thinking natality in terms of what comes to language in Char as the nuptial. Having thus been awakened to the power of symbols, we are prepared to experience how in Kant being itself comes to expression as plurivocal in a way that reveals just how pathologically delusional it is to attempt to deploy univocal principles in a plurivocal world. This opens us to what Schürmann calls the singularization to come, a formulation that gestures to a mode of comportment at home in the ravaged site between natality and mortality. This then returns us to Oedipus at Colonus but not to him alone. Rather, it points to the relationship that emerges for a time between Antigone, Ismene, and Oedipus as they navigate a way between their exile from Thebes and Oedipus's final resting place near Athens. Here, having been awakened to the power of a poetic politics, we attend to three symbolic moments of touching between Oedipus and his daughters through which we might discern something of the new possibilities a poetic politics opens for us if we settle into the ravaged site that conditions our existence together. Communism in Eastern Europe Melissa Feinberg, 2021-12-29 Communism in Eastern Europe is a ground-breaking new survey of the history of Eastern Europe since 1945. It examines how Communist governments came to Eastern Europe, how they changed their societies, and the legacies that persisted after their fall. Written from the perspective of the 21st century, this book shows how Eastern Europe's trajectory since 1989 fits into the longer history of its Communist past. Rather than focusing on high politics, Communism in Eastern Europe concentrates on the politics of daily life, melding political history with social, cultural, and gender history. It tells the history of this complicated era through the voices and experiences of ordinary people. By focusing on the complex

interactions of everyday life Communism in Eastern Europe illuminates the world Communism made in Eastern Europe its politics and culture values and dreams successes and failures This book is an engaging introduction to the history of Communist Eastern Europe for any reader It is ideal for adoption in a wide array of undergraduate and graduate courses in 20th century European history *The Dark Side of Politics* Benjamin Ginsberg, 2023-12-12 This series of scholarly chapters explores the unpleasant realities of modern politics and American politics in particular by examining how self interest war violence deception and institutional failure continue to characterize the political landscape Author Benjamin Ginsberg argues that the political world in which we like to think we live the world of civic engagement representative government and principled political discourse is fleeting and fragile resting uneasily upon the foundation of a harsh and dark reality Making a fundamental contribution to our understandings of politics this book is an important read for students and scholars of American Politics and Government *Derrida and the Time of the Political* Suzanne Guerlac, Pheng Cheah, 2009-01-16 A collection assessing the implications of Derrida's thought for contemporary political theory and politics **Rousseau and the Politics of Ambiguity** Mira Morgenstern, 2010-11-01 *Susan Glaspell's Poetics and Politics of Rebellion* Emeline Jouve, 2017-07 Analyzing plays from the early Trifles 1916 through *Springs Eternal* 1943 and the undated incomplete *Wings* author Emeline Jouve illustrates the way that Susan Glaspell's dramas addressed issues of sexism the impact of World War I on American values and the relationship between individuals and their communities among other concerns Jouve argues that Glaspell turns the playhouse into a courthouse putting the hypocrisy of American democracy on trial A must for students of Glaspell and her contemporaries as well as scholars of American theatre and literature of the first half of the twentieth century *Islamophobia and the Politics of Empire* Deepa Kumar, 2021-09-07 A critically acclaimed analysis of anti Muslim racism from the sixteenth to the twenty first centuries in a fully revised and expanded second edition In this incisive account leading scholar of Islamophobia Deepa Kumar traces the history of anti Muslim racism from the early modern era to the War on Terror Importantly Kumar contends that Islamophobia is best understood as racism rather than as religious intolerance An innovative analysis of anti Muslim racism and empire Islamophobia argues that empire creates the conditions for anti Muslim racism which in turn sustains empire This book now updated to include the end of the Trump's presidency offers a clear and succinct explanation of how Islamophobia functions in the United States both as a set of coercive policies and as a body of ideas that take various forms liberal conservative and rightwing The matrix of anti Muslim racism charts how various institutions the media think tanks the foreign policy establishment the university the national security apparatus and the legal sphere produce and circulate this particular form of bigotry Anti Muslim racism not only has horrific consequences for people in Muslim majority countries who become the targets of an endless War on Terror but for Muslims and those who look Muslim in the West as well With a new foreword by Nadine Naber **Eugenics and Modernization in Interwar Romania** Maria Bucur, Maria Bucur-Deckard, 2002 Between 1918 and 1948 a growing group of professionals prominent physicians

academicians scientists and sociologists set out to transform Romanian health care society and the state according to the gospel of eugenics

New Directions in Judicial Politics Kevin T. McGuire, 2012-03-15 With its often vague legal concepts and institutions that operate according to unfamiliar procedures judicial decision making is in many respects a highly enigmatic process New Directions in Judicial Politics seeks to demystify the courts offering readers the insights of empirical research to address questions that are of genuine interest to students In addition to presenting a set of conclusions about the way in which courts operate this book also models the craft of political research illustrating how one can account for a variety of factors that might affect the courts and how they operate The renowned scholars and teachers in this volume invite critical thinking not only about the substance of law and courts in America but also about the ways in which we study judicial politics

The Economics of Transparency in Politics Gianluigi Galeotti, Ronald Wintrobe, 2017-05-15 The purpose of this book is to formulate economic models of the advantages and costs of transparency in various areas of public sector activity and to assess what level of obfuscation in politics is rational The chapters are arranged in four parts Part 1 is concerned with the manifestations of transparency and obfuscation in domestic democratic settings whilst Part 2 deals with the same realities but in an international context Part 3 looks at corruption and Part 4 considers some of the implications of transparency and obfuscation for the working of governments and the formulation of public policies
