Politics Of Ethnicity In Central Europe

André Gerrits, Dirk Jan Wolffram

Politics Of Ethnicity In Central Europe:

The Politics of Ethnicity in Central Europe K. Cordell, 2000-01-20 This volume deals with the politics of ethnicity in East Central Europe The major part of the book focuses upon the nature of identity and inter ethnic relations in the Central European region of Silesia Although Silesia is terra incognita to most of the English speaking world for centuries it has been contested by German Polish Czech Prussian and Austrian elites The author and contributors hope that after having read this volume the reader will be better informed of both the region in general and Silesia in particular **Politics and Ethnicity** J. Rudolph, 2006-08-05 This book offers a brief broad comparative study of ethnic politics that places ethnic conflict within the context of particular political systems To develop these themes they are explored by comparing and contrasting the experiences of France Czechoslovakia and its subsequent division and Nigeria The International Politics of East Central Europe Adrian G. V. Hyde-Price, 1996 Established in the belief that imperialism as a cultural phenomenon had as significant an effect on the dominant as it did on the subordinate societies the Studies in Imperialism series seeks to develop the new socio cultural approach which has emerged through cross disciplinary work on popular culture media studies art history the study of education and religion sports history and children s literature The cultural emphasis embraces studies of migration and race while the older political and constitutional economic and military concerns are never far away It incorporates comparative work on European and American empire building with the chronological focus primarily though not exclusively on the 19th and 20th centuries when these cultural exchanges were most powerfully at work This work explores the sexual attitudes and activities of those who ran the British Empire The study explains the pervasive importance of sexuality in the Victorian Empire both for individuals and as a general dynamic in the working of the system Among the topics included in the book are prostitution the manners and mores of missionaries and aspects of race in sexual behaviour *Ethnicity, Nationalism and the European Cold War* Robert Knight, 2012-04-26 This book questions the prevalent assumption that ethnicity and nationalist politics had nothing to do with the Cold War and that far from being frozen until the fall of communism they remained central to the conflict in Europe Leading scholars bring their understanding of particular regions to bear on the wider issue of why ethnic explanations were written out of the discourse and whether this was a failure on the part of Western observers This in turn has led to an overly simple understanding of power flowing downwards from superpower to nation state and from state to society Engaging with key thinkers such as Gaddis Moynihan and Adam Roberts this collection ultimately allows such speculation to be replaced by historical research and bridges the gap between high politics and ethnic concerns **The Politics of Central Europe** Attila Ágh, 1998-07-29 This book provides a thorough introduction to Central and Eastern Europe since its emergence from the Soviet bloc It uses theories of democratization to develop a common conceptual and theoretical framework **Nationalist Politics and Everyday Ethnicity in a Transylvanian Town** Rogers Brubaker, Margit Feischmidt, Jon Fox, Liana Grancea, 2018-06-05 Situated on the geographic

margins of two nations yet imagined as central to each Transylvania has long been a site of nationalist struggles Since the fall of communism these struggles have been particularly intense in Cluj Transylvania s cultural and political center Yet heated nationalist rhetoric has evoked only muted popular response The citizens of Cluj the Romanian speaking majority and the Hungarian speaking minority have been largely indifferent to the nationalist claims made in their names Based on seven years of field research this book examines not only the sharply polarized fields of nationalist politics in Cluj Transylvania and the wider region but also the more fluid terrain on which ethnicity and nationhood are experienced enacted and understood in everyday life In doing so the book addresses fundamental questions about ethnicity where it is when it matters and how it works Bridging conventional divisions of academic labor Rogers Brubaker and his collaborators employ perspectives seldom found together historical and ethnographic institutional and interactional political and experiential Further developing the argument of Brubaker s groundbreaking *Ethnicity without Groups* the book demonstrates that it is ultimately in and through everyday experience as much as in political contestation or cultural articulation that ethnicity and nationhood are produced and reproduced as basic categories of social and political life

Owsinski,2015-07-17 This unique reference traces the changing borders and ethnic balances that characterized the history of Eastern Europe during the twentieth century After a preliminary overview the book divides Eastern Europe into five regions from the Baltic to the Balkans and closely analyzes the ethnic structure of each region s constituent units over time Summary chapters at the end of the volume present a comprehensive ethno demographic portrait of the region at the start of the

The International Handbook of the Demography of Race and Ethnicity Rogelio Sáenz, David G. Embrick, Néstor P. Rodríguez, 2015-06-03. Examining key countries in every region of the world, this handbook presents population profiles and analyses concerning racial/ethnic disparities and changing intergroup relations. Inside, prominent scholars from various parts of the world and disciplines address the links between stratification, demography, and conflict across the globe. Organized by region/continent, coverage for each profiled country includes demographic information, a historical overview that addresses past racial/ethnic conflict, identification of the most salient demographic trends and issues that the country faces, theoretical issues related to the linkages between stratification, demography, and conflict, methodological issues including quality of data and cutting-edge methods to better understand the issue at hand, and details on the possible future of the existing trends and issues, with particular emphasis on public policy and human rights. This handbook will help readers to better understand the commonalities and differences that exist globally in the interplay between stratification, demography, and conflict. In addition, it also provides an excellent inventory of theoretical perspectives and methodological approaches that are needed to better comprehend this issue. This handbook will appeal to students, researchers, and policy analysts in the areas of race and ethnic relations, demography, inequality, international sociology, international relations, foreign studies, social geography, and social development.

The Politics of Ethnic Survival Gary B. Cohen, 2006. This book examines how one of Imperial Austria's principal ethnic conflicts—that between Czechs and Germans—developed in one of the major cities during the era of industrialization and urban growth. It shows how the inhabitants of Prague, the capital of Bohemia, constructed and articulated ethnic group loyalties and social solidarities over the course of the nineteenth century. The German-speaking inhabitants of the Bohemian capital developed a group identification and defined themselves as a minority as they dealt with growing Czech political and economic strength in the city and with their own sharp numerical decline. In the 1910 census, only seven percent of the metropolitan population claimed that they spoke primarily German. The study uses census returns, extensive police and bureaucratic records, newspaper accounts, and memoirs on local social and political life to show how the German minority and the Czech majority developed demographically and economically in relation to each other and created separate social and political lives for their group members. The study carefully traces the roles of occupation, class, religion, and political ideology in the formation of German group loyalties and social solidarities. The social relations which bound together the members of the German-speaking minority and the social boundaries which separated them from the Czech majority at the end of the nineteenth century proved to be selective, and considerable contact went on across the lines in many facets of individuals' everyday life. As the German minority developed a shared group life, what came to define them and to separate them from the Czech majority was a shared Austro-German ethnic and national loyalty, an Austro-German national liberal ideology, the

defense of common middle class and lower middle class social and political interests and a shared German public life Both German speaking Catholics and Jews could share in the sense of German community and group solidarity provided they upheld middle class liberal values The bonds of community for the middle class and lower middle class Germans in Prague established in the 1860s tended to exclude German speaking wage laborers and lower middle class radical nationalists who might challenge liberal national values Despite all the efforts to strengthen German community solidarity and combat assimilation of German speakers with the Czech majority from the 1880s to after 1900 the organized German community could do little to prevent the absorption of working class German speakers into the Czech population of the industrial districts

Balázs Trencsenyi, Michal Kopeček, Luka Lisjak Gabrijelčič, Maria Falina, Mónika Baár, 2018-11-10 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I Negotiating Modernity in the Long Nineteenth Century and Volume II Part I Negotiating Modernity in the Short Twentieth Century 1918 1968 OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the

European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond The Communist Successor Parties of Central and Eastern Europe Andras Bozoki, John T.

Ishiyama, 2020-07-24 What has become of the Communist parties that once held monopoly power in the east bloc A decade ago it was assumed that they would dissolve but many of them have enjoyed electoral success This book systematically examines how they have evolved In the opening section Herbert Kitschelt and Ivan Szelenyi respectively consider post communist party strategies and social democratic prospects in the transitional societies Part II presents nine case studies of the major communist and communist successor parties of the region and Part III is devoted to seven comparative studies Appendices provide comparable electoral and party membership data
