The recent flurry of works documenting the history of French cultural policy is not necessarily a sign of health. It can be at the moment when it becomes less straightforward to involve oneself in a given project that it offers itself up more readily as an object for historical analysis. Certainly, there is a widespread sense now that, since the dubiously heady days of the 1980s, cultural policy has been cast adrift somewhat, rudderless and without any obvious sense of direction. Nevertheless, if there is a way forward still to be found, it seems likely that the lessons and potential resources of this now considerable historical documentation will have to be absorbed.

David Looseley's *The Politics of Fun: Cultural Policy and Debate in Contemporary France* is a useful place to start.¹ Its principal focus is on the Lang-Mitterrand years, but it can serve as an overall introductory survey, as

Sounds French Jonathyne Briggs, 2015-01-29 *Sounds French* examines the history of popular music in France between the arrival of rock and roll in 1958 and the collapse of the first wave of punk in 1980 and the connections between musical genres and concepts of community in French society During this period scholars have tended to view the social upheavals associated with postwar reconstruction as part of debates concerning national identity in French culture and politics a tendency that developed from political figures and intellectuals concerns with French national identity In this book author Jonathyne Briggs reorients the scholarship away from an exclusive focus on national identity and instead towards an investigation of other identities that develop as a result of the increased globalization of culture Popular music at once individual and communal fixed and plastic offers an illuminating window into such transformations in social structures through the ways in which musicians musical consumers and critical intermediaries reimagined themselves as part of novel cultural communities whether local national or supranational in nature Briggs argues that national identity was but one of a panoply of identities in flux during the postwar period in France demonstrating that the development of hybridized forms of popular music provided the French with a method for expressing and understanding that flux Drawing upon an array of printed and aural sources including music publications sound recordings record sleeves

biographies and cultural criticism *Sounds French* is an essential new look at popular music in postwar France *French Rugby Football* Philip Dine, 2001-07-01 As France's oldest team sport rugby football has throughout its 125 year history reflected major changes in French society This book analyzes for the first time the complex variety of motives that have led the French to adopt and remake this rather unlikely British sport in their own image A major site for the construction of masculine class based regional and national identities France's tradition of Champagne rugby continues to be as subject to dramatic upheavals as the society that produced it The game's precocious professionalism and endemic violence have not infrequently caused the French to be cast as international pariahs Such isolation exacerbated by internal politics has led the French not only to encourage the extension of the sport beyond its British imperial base into Italy and Romania for instance but also to engage in some uncomfortable tactical alliances most obviously with apartheid South Africa Taking his analysis both on and off the field the author tackles these issues and much more the relationship of sport and the state including particularly the Vichy period and the period under de Gaulle professionalization the persistence of colonial and postcolonial structures including the role of ethnic minorities and gender issues especially masculine identities At the same time he links the evolution of the sport to the broader context of French socio economic political and cultural history This book will be essential reading for anyone interested in the cultural analysis of sport or French popular culture
