## **Politics Of Harmony Land Dispute Strategies In Swaziland:**

*The Politics of Harmony* Laurel L. Rose, 1992-01-31 Laurel Rose analyzes how traditional ruling elites in Swaziland as in other parts of Africa use harmony ideologies to downplay and resolve land disputes. Such disputes could be used by foreign development agents or indigenous new elites as justification for implementing land tenure changes including a reduction of traditional elites' power based upon land control. Swazi commoners accept the cultural value and legitimacy of most harmony ideologies but they adopt various strategies when disputing about particular land rights in order to produce more favorable outcomes. This book is unusual in its focus on political rather than economic dimensions of land tenure and disputes. It searches for links between individual concerns with land use rights and national concerns with land policy. It also examines gender and leadership issues associated with land showing how women and new elites threaten land interests of men and traditional leaders.

**The Politics of Harmony** Laurel Lynn Rose, 1988     *African Military Politics in the Sahel* Katharina P. W. Döring, 2023-11-16 Analyzes the politics around military deployments in the Sahel since 2012 from a critical geopolitics perspective.

*Trajectories of Authoritarianism in Rwanda* Marie-Eve Desrosiers, 2023-01-19 Challenging assumptions regarding the strength and control of authoritarian governments in Rwanda in the decades before the 1994 genocide, Marie-Eve Desrosiers uses original archival data and interviews to highlight the complex relations between authorities, opponents, and society. Through careful, detailed analysis, Desrosiers offers a nuanced assessment of the functions and evolution of authoritarianism over time, demonstrating how the governments of Rwanda's first two post-independence Republics (1962-1990) sought and often struggled to cement their rule. Whilst the deeper lived realities of authoritarianism are generally neglected by multi-case comparisons at the heart of comparative authoritarian studies, this illuminating survey highlights the essential yet subtle authoritarian strategies, patterns, and forms of decay that are too often overlooked when addressing authoritarian contexts.

*Transforming Sudan* Alden Young, 2018 This book traces the formation of the Sudanese state following the Second World War through a developmentalist ideology.

**Child Slavery and Guardianship in Colonial Senegal** Bernard Moitt, 2023-11-02 Uncovers the stories of children liberated from slavery in Senegal after 1848 and relegated to tutelle or guardianship.

*Revolutionary State-Making in Dar es Salaam* George Roberts, 2022-12-22 Tracing Dar es Salaam's rise and fall as an epicentre of Third World revolution, George Roberts explores the connections between the global Cold War, African liberation struggles, and Tanzania's efforts to build a socialist state. Roberts introduces a vibrant cast of politicians, guerrilla leaders, diplomats, journalists, and intellectuals whose trajectories collided in the city. In its cosmopolitan and rumour-filled hotel bars, embassy receptions, and newspaper offices, they grappled with challenges of remaking a world after empire. Yet Dar es Salaam's role on the frontline of the African revolution and its provocative stance towards global geopolitics came at considerable cost. Roberts explains how Tanzania's strident anti-imperialism ultimately drove an authoritarian turn in its socialist project and tighter control over the city's public sphere. Lovejoy, 2011-10-10 This history of African slavery from the fifteenth to the early twentieth centuries examines how indigenous African slavery developed within an international context Paul E Lovejoy discusses the medieval Islamic slave trade and the Atlantic trade as well as the enslavement process and the marketing of slaves He considers the impact of European abolition and assesses slavery's role in African history The book corrects the accepted interpretation that African slavery was mild and resulted in the slaves' assimilation Instead slaves were used extensively in production although the exploitation methods and the relationships to world markets differed from those in the Americas Nevertheless slavery in Africa like slavery in the Americas developed from its position on the periphery of capitalist Europe This new edition revises all statistical material on the slave trade demography and incorporates recent research and an updated bibliography      From Africa to Brazil Walter Hawthorne, 2010-09-13 From Africa to Brazil traces the flows of enslaved Africans from the broad region of Africa called Upper Guinea to Amazonia Brazil These two regions though separated by an ocean were made one by a slave route Walter Hawthorne considers why planters in Amazonia wanted African slaves why and how those sent to Amazonia were enslaved and what their Middle Passage experience was like The book is also concerned with how Africans in diaspora shaped labor regimes determined the nature of their family lives and crafted religious beliefs that were similar to those they had known before enslavement It presents the only book length examination of African slavery in Amazonia and identifies with precision the locations in Africa from where members of a large diaspora in the Americas hailed From Africa to Brazil also proposes new directions for scholarship focused on how immigrant groups created new or recreated old cultures      **Islam and Social Change in French West Africa** Sean Hanretta, 2009-03-23 Exploring the history and religious community of a group of Muslim Sufi mystics in colonial French West Africa this study shows the relationship between religious social and economic change in the region It highlights the role that intellectuals played in shaping social and cultural change and illuminates the specific religious ideas and political contexts that gave their efforts meaning In contrast to depictions that emphasize the importance of international networks and anti modern reaction in twentieth century Islamic reform this book claims that in West Africa such movements were driven by local forces and constituted only the most recent round in a set of centuries old debates about the best way for pious people to confront social injustice It argues that traditional historical methods prevent an appreciation of Muslim intellectual history in Africa by misunderstanding the nature of information gathering during colonial rule and misconstruing the relationship between documents and oral history      The Path to Genocide in Rwanda Omar Shahabudin McDoom, 2021-03-11 Uses unique field data to offer a rigorous explanation of how Rwanda's genocide occurred and why Rwandans participated in it      Christianity and Genocide in Rwanda Timothy Longman, 2010 This book studies the role of Christian churches in the 1994 Rwandan genocide Timothy Longman's research shows that Rwandan churches have consistently allied themselves with the state and engaged in ethnic politics making them

a center of struggle over power and resources He argues that the genocide in Rwanda was a conservative response to progressive forces that were attempting to democratize Christian churches

**A History of Race in Muslim West Africa, 1600-1960** Bruce S. Hall, 2011-06-06 The mobilization of local ideas about racial difference has been important in generating and intensifying civil wars that have occurred since the end of colonial rule in all of the countries that straddle the southern edge of the Sahara Desert From Sudan to Mauritania the racial categories deployed in contemporary conflicts often harken back to an older history in which blackness could be equated with slavery and non blackness with predatory and uncivilized banditry This book traces the development of arguments about race over a period of more than 350 years in one important place along the southern edge of the Sahara Desert the Niger Bend in northern Mali Using Arabic documents held in Timbuktu as well as local colonial sources in French and oral interviews Bruce S Hall reconstructs an African intellectual history of race that long predated colonial conquest and which has continued to orient inter African relations ever since

Howard, 2024-02-08 During Zimbabwe's war of liberation 1965-80 fought between Zimbabwean nationalists and the minority white Rhodesian settler colonial regime thousands of black soldiers volunteered for and served in the Rhodesian Army This seeming paradox has often been noted by scholars and military researchers yet little has been heard from black Rhodesian veterans themselves Drawing from original interviews with black Rhodesian veterans and extensive archival research M T Howard tackles the question of why so many black soldiers fought steadfastly and effectively for the Rhodesian Army demonstrating that they felt loyalty to their comrades and regiments and not the Smith regime Howard also shows that units in which black soldiers served particularly the Rhodesian African Rifles were fundamental to the Rhodesian counter insurgency campaign Highlighting the pivotal role black Rhodesian veterans played during both the war and the tumultuous early years of independence this is a crucial contribution to the study of Zimbabwean decolonisation

Green,2011-10-10 The region between the river Senegal and Sierra Leone saw the first trans Atlantic slave trade in the sixteenth century Drawing on many new sources Toby Green challenges current quantitative approaches to the history of the slave trade New data on slave origins can show how and why Western African societies responded to Atlantic pressures Green argues that answering these questions requires a cultural framework and uses the idea of creolization the formation of mixed cultural communities in the era of plantation societies to argue that preceding social patterns in both Africa and Europe were crucial Major impacts of the sixteenth century slave trade included political fragmentation changes in identity and the re organization of ritual and social patterns The book shows which peoples were enslaved why they were vulnerable and the consequences in Africa and beyond *Development, (Dual) Citizenship and Its Discontents in Africa* Robtel Neajai Pailey,2021-01-07 Based on rich oral histories this is an engaging study of citizenship construction and practice in Liberia Africa s first black republic *Shaping the African Savannah* Michael Bollig,2020-07-02 A history of 150 years of social ecological transformations in the arid savannah landscape of Namibia Kingship and State Christopher Wrigley,2002-05-16 The precolonial kingdom of Buganda nucleus of the present Uganda state has long attracted scholarly interest Since written records are lacking entirely until 1862 historians have had to rely on oral traditions that were recorded from the end of the nineteenth century These sources provide rich materials on Buganda in the late eighteenth and nineteenth centuries but in this 1996 book Christopher Wrigley endeavours to show that the stories which appear to relate to earlier periods are largely mythology He argues that this does not reduce their value since they are of interest in their own mythical right revealing ancient traces of sacred kingship and also throwing oblique light on the development of the recent state He has written an elegant and wide ranging study of one of Africa s most famous kingdoms
