Politics Of International Humanitarian Aid Operations:

The Politics of International Humanitarian Aid Operations Eric A. Belgrad, Nitza Nachmias, 1997-06-30 The theories and case studies examined in this volume constitute a thorough study of foreign intervention in civil conflicts for the purpose of rendering humanitarian aid The classical paradigm of the ethics of intervention forbids the violation of territorial sovereignty Public international law and the UN charter also mandate nonintervention within the territorial boundaries of a state Nevertheless in recent years as a result of brutal civil conflicts and their violent and inhumane consequences as in Rwanda Bosnia and Cambodia international aid interventions have become an accepted practice Still international humanitarian aid involves unsettled controversial issues dilemmas concerning donors recipients and international organizations These issues as well as the concepts of sovereignty human rights coercive interventions and peacekeeping are critically evaluated in this volume which will be of interest to scholars and policymakers in international relations human rights and military affairs

Humanitarian Military Intervention Taylor B. Seybolt, 2007 Military intervention in a conflict without a reasonable prospect of success is unjustifiable especially when it is done in the name of humanity Couched in the debate on the responsibility to protect civilians from violence and drawing on traditional just war principles the central premise of this book is that humanitarian military intervention can be justified as a policy option only if decision makers can be reasonably sure that intervention will do more good than harm This book asks Have past humanitarian military interventions been successful It defines success as saving lives and sets out a methodology for estimating the number of lives saved by a particular military intervention Analysis of 17 military operations in six conflict areas that were the defining cases of the 1990s northern Iraq after the Gulf War Somalia Bosnia and Herzegovina Rwanda Kosovo and East Timor shows that the majority were successful by this measure In every conflict studied however some military interventions succeeded while others failed raising the question Why have some past interventions been more successful than others This book argues that the central factors determining whether a humanitarian intervention succeeds are the objectives of the intervention and the military strategy employed by the intervening states Four types of humanitarian military intervention are offered helping to deliver emergency aid protecting aid operations saving the victims of violence and defeating the perpetrators of violence The focus on strategy within these four types allows an exploration of the political and military dimensions of humanitarian intervention and highlights the advantages and disadvantages of each of the four types Humanitarian military intervention is controversial Scepticism is always in order about the need to use military force because the consequences can be so dire Yet it has become equally controversial not to intervene when a government subjects its citizens to massive violation of their basic human rights This book recognizes the limits of humanitarian intervention but does not shy away from suggesting how military force can save lives in extreme circumstances

New Perspectives on African Childhood De-Valera N.Y.M. Botchway, Awo Sarpong, Charles Quist-Adade, 2019-03-05 What does it mean to be a child in Africa In the detached Western media narratives

of penury wickedness and death have dominated portrayals of African childhood The hegemonic lens of the West has failed to take into account the intricacies of not only what it means to be an African child in local and culturally specific contexts but also African childhood in general Challenging colonial discourses this edited volume guides the reader through different comprehensions and perspectives of childhood in Africa Using a blend of theory empiricism and history the contributors to this volume offer studies from a range of fields including African literature Afro centric psychology and sociology Importantly in its eclectic geographical coverage of Africa this book unashamedly presents the good the bad and the ugly of African childhood The resilience creativity pains and triumphs of African childhood are skilfully woven together to present the myriad of lived experiences and aspirations of children from across Africa As an important contribution to African childhood studies this book has the potential to be used by policymakers to shape sustain or change socio cultural economic and education systems that accommodate African childhood dynamics and experiences at different levels Crisis Management: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2013-11-30 This book explores the latest empirical research and best real world practices for preventing weathering and recovering from disasters such as earthquakes or tsunamis to nuclear disasters and cyber terrorism Provided by publisher *Peacekeeping and the UN Agencies* Jim Whitman,2013-12-02 This book is a long overdue assessment of the role of the UN specialized Agencies in peacekeeping operations Special emphasis is given to that most vexed category complex emergencies involving entrapped or victimized civilian populations and a plethora of UN national military and NGO actors While based on the full range of recent history the contributions to this volume are forward looking and policy oriented bringing a hard edged practicality to complex and hitherto under examined issues Humanitarianism, War, and Politics Peter J. Hoffman,Thomas G. Weiss,2017-06-27 What is humanitarianism This authoritative book provides a comprehensive analysis of the original idea and its evolution exploring its triangulation with war and politics Peter J Hoffman and Thomas G Weiss trace the origins of humanitarianism its social movement and the institutions international humanitarian law and organizations providers of assistance and protection that comprise it They consider the international humanitarian system s ability to regulate the conduct of war to improve the wellbeing of its victims and to prosecute war criminals Probing the profound changes in the culture and capacities that underpin the sector and alter the meaning of humanitarianism they assess the reinventions that constitute revolutions in humanitarian affairs The book begins with traditions and perspectives ranging from classic international relations approaches to Critical Humanitarian Studies and reviews seminal wartime emergencies and the creation and development of humanitarian agencies in the late nineteenth and twentieth centuries The authors then examine the rise of new humanitarianisms after the Cold War s end and contemporary cases after 9 11 The authors continue by unpacking the most recent revolutions the International Criminal Court and the Responsibility to Protect as well as such core challenges as displacement camps infectious diseases eco refugees and marketization They conclude by evaluating the

contemporary system and the prospects for further transformations identifying scholarly puzzles and the acute operational problems faced by practitioners *Qualitative Method Interpretations in Communication Studies* James A.

Schnell,2001-01-01 Communicologist James A Schnell illuminates qualitative method interpretation through unique and wide ranging areas of study In Section One Schell highlights qualitative interpretations of cross cultural interaction in settings such as the classroom and the military and he looks at the particular circumstances of interaction in South Africa China and Central America In Section Two he describes qualitative case study analysis of the counterculture a youth camp the U S Air Force and two health care settings In Section Three Schnell focuses on education oriented qualitative studies of public speaking self help tapes advertising in popular magazines classroom pedagogy and the role of the teacher Schnell s detailed but clear interpretive approach gives the varied qualitative applications consistency of style and purpose making this book a useful addition to the literature on qualitative studies in communications

Advocacy and Change in International Organizations Kseniya Oksamytna,2023-09-14 How do international organizations change Many organizations expand into new areas or abandon programmes of work Advocacy and Change in International Organizations argues that they do so not only at the collective direction of member states Advocacy is a crucial but overlooked source of change in international organizations Different actors can advocate for change national diplomats international bureaucrats external experts or civil society activists They can use one of three advocacy strategies social pressure persuasion and authority talk The success of each strategy depends on the presence of favourable conditions related to characteristics of advocates targets issues and context Institutionalization of new issues in international organizations as a multi stage process often accompanied by contestation This book demonstrates how the advocacy focused framework explains the origins of three workstreams of contemporary UN peacekeeping operations communication protection and reconstruction The issue of strategic communications was promoted by UN officials through the strategy of persuasion Protection of civilians emerged due to a partially successful social influence campaign by a coalition of elected Security Council members and a subsequent and successful persuasion efforts by Canada Quick impact projects entered peacekeepers practice as the result of authority talk by an expert panel The three issues illustrate the diversity of pathways to change in international organizations representing the top down bottom up and outside in pathways Moreover they have achieved different degrees of institutionalization in UN s policies structures and frameworks protection of civilians is the most institutionalized as evidenced by measures to hold peacekeepers accountable for non implementation while quick impact projects are the least institutionalized

The New Power Politics Deborah Avant, Oliver Westerwinter, 2016-06-02 Traditional analyses of global security cannot explain the degree to which there is governance of important security issues from combatting piracy to curtailing nuclear proliferation to reducing the contributions of extractive industries to violence and conflict They are even less able to explain why contemporary governance schemes involve the various actors and take the many forms they do Juxtaposing the insights of scholars writing about new modes of governance with the logic of network theory The New Power Politics offers a framework for understanding contemporary security governance and its variation The framework rests on a

fresh view of power and how it works in global politics Though power is integral to governance it is something that emerges from and depends on relationships Thus power is dynamic it is something that governors must continually cultivate with a wide range of consequential global players and how a governor uses power in one situation can have consequences for her future relationships and thus future power Understanding this new power politics is crucial for explaining and shaping the future of global security politics This stellar group of scholars analyzes both the networking strategies of would be governors and their impacts on the effectiveness of governance and whether it reflects broad or narrow concerns on a wide range of contemporary governance issues
