Arabic in the Fray Yasir Suleiman, 2013-07-22 The pre modern period saw a background of inter ethnic strife among Arabs and non Arabs mainly Persians Starting from the symbolic and cognitive roles of language Yasir Suleiman shows how discussions about the inimitability and untranslatability of the Qur'an in this period were at some deep level concerned with issues of ethnic election In this respect theology and ethnicity emerge as partners in theorising language Staying within the symbolic

role of language Suleiman goes on to investigate the role of paratexts and literary production in disseminating language ideologies and in cultural contestation He shows how language symbolism is relevant to ideological debates about hybrid and cross national literary production in the Arab milieu In fact language ideology appears to be everywhere and a whole chapter is devoted to discussions of the cognitive role of language in linking thought to reality *Kazakhstan - Ethnicity, Language and Power* Bhavna Dave, 2007-09-13 Kazakhstan is emerging as the most dynamic economic and political actor in Central Asia It is the second largest country of the former Soviet Union after the Russian Federation and has rich natural resources particularly oil which is being exploited through massive US investment Kazakhstan has an impressive record of economic growth under the leadership of President Nursultan Nazarbaev and has ambitions to project itself as a modern wealthy civic state with a developed market economy At the same time Kazakhstan is one of the most ethnically diverse countries in the region with very substantial non Kazakh and non Muslim minorities Its political regime has used elements of political clientelism and neo traditional practices to bolster its rule Drawing from extensive ethnographic research interviews and archival materials this book traces the development of national identity and statehood in Kazakhstan focusing in particular on the attempts to build a national state It argues that Russification and Sovietization were not simply top down processes that they provide considerable scope for local initiatives and that Soviet ethnically based affirmative action policies have had a lasting impact on ethnic lite formation and the rise of a distinct brand of national consciousness **The Politics of Language and Nationalism in Modern Central Europe** T. Kamusella, 2008-12-16 This work focuses on the ideological intertwining between Czech Magyar Polish and Slovak and the corresponding nationalisms steeped in these languages The analysis is set against the earlier political and ideological history of these languages and the panorama of the emergence and political uses of other languages of the region **The Soft Power of the Russian Language** Arto Mustajoki, Ekaterina Protassova, Maria Yelenevskaya, 2019-06-12 Exploring Russian as a pluricentric language this book provides a panoramic view of its use within and outside the nation and discusses the connections between language politics ideologies and cultural contacts Russian is widely used across the former Soviet republics and in the diaspora but speakers outside Russia deviate from the metropolis in their use of the language and their attitudes towards it Using country case studies from across the former Soviet Union and beyond the contributors analyze the unifying role of the Russian language for developing transnational connections and show its value in the knowledge economy They demonstrate that centrifugal developments of Russian and its pluricentricity are grounded in the language and education policies of their host countries as well as the goals and functions of cultural institutions such as schools media travel agencies and others created by migrants for their co ethnics This book also reveals the tensions between Russia's attempts to homogenize the Russian world and the divergence of regional versions of Russian reflecting cultural hybridity of the diaspora Interdisciplinary in its approach this book will prove useful to researchers of Russian and post Soviet politics Russian studies Russian language and culture linguistics and

Compact and affordable single volume reference format **Soviet Nation-Building in Central Asia** Grigol

Ubiria,2015-09-16 The demise of the Soviet Union in 1991 resulted in new state led nation building projects in Central Asia

The emergence of independent republics spawned a renewed Western scholarly interest in the region s nationality issues

Presenting a detailed study this book examines the state led nation building projects in the Soviet republics of Kazakhstan

and Uzbekistan Exploring the degree forms and ways of the Soviet state involvement in creating Kazakh and Uzbek nations

this book places the discussion within the theoretical literature on nationalism The author argues that both Kazakh and

Uzbek nations are artificial constructs of Moscow based Soviet policy makers of the 1920s and 1930s This book challenges

existing arguments in current scholarship by bringing some new and alternative insights into the role of indigenous Central

Asian and Soviet officials in these nation building projects It goes on to critically examine post Soviet official Kazakh and

Uzbek historiographies according to which Kazakh and Uzbek peoples had developed national collective identities and

loyalties long before the Soviet era This book will be a useful contribution to Central Asian History and Politics as well as

studies of Nationalism and Soviet Politics Revivals, Nationalism, and Linguistic Discrimination Kara Fleming,Umberto

Ansaldi,2019-12-06 Is linguistic revival beneficiary to the plight of newly emerging peripheral or even threatened cultures Or

is it a smokescreen that hides the vestiges of ethnocentric ideologies which ultimately create a hegemonic relationship This

book takes a critical look at revival exercises of special historical and geopolitical significance and argues that a critical and

cautious approach to revival movements is necessary The cases of Sinhala Kazakh Mongolian Catalan and even Hong Kong

Cantonese show that it is not through linguistic revival but rather through political representation and economic

development that the peoples in question achieve competitiveness and equality amongst their neighbors On the other hand

linguistic revival in these and other contexts can and has been used to support nationalist or ethnocentric agendas to the

detriment of other groups recreating the same dynamics that generated the argument for revival in the first place This book

argues that respect for linguistic and other diversity multilingualism and multiculturalism is not compatible with linguistic

revival that mirrors nation building and essentializing identity construction
