   Qualitative Inquiry and the Politics of Research Norman K Denzin,Michael D Giardina,2016-07-01 This volume of plenary addresses and other key presentations from the 2014 International Congress of Qualitative Inquiry highlights the politics of research in the neoliberal state and the role of qualitative researchers in that debate Marginalized by an increasingly top down assessment driven university system the fifteen contributors from a variety of disciplines show the responses of qualitative scholars in their research writing advocacy and teaching both inside the university and in the broader society Sponsored by the International Congress of Qualitative Inquiry   The Social Politics of Research Collaboration Gabriele Griffin,Katarina Hamberg,Britta Lundgren,2013-06-07 The past two decades have seen an increasing emphasis on large and interdisciplinary research configurations such as research networks and centers of excellence including those in Social Sciences and Humanities research Little research has been undertaken however to understand how these new large research structures that are being called forth by research funders and research higher education institutions alike function socially and what the impact of operating within such structures is on those working within and those working with them Past writers have discussed the intra agentic operations of human researchers and the material laboratory environment in its broadest sense This volume is concerned with the social politics of research collaboration in relation to six key positions leaders of large research formations leaders of sub projects within large collaborations participant researchers junior and early career researchers advisory board members and those who look in from the outside such as researchers who are un funded It explores the mostly unacknowledged but critical aspect of social structures in research discussing issues such as struggles over leadership styles the marginalization of researchers working cross disciplinarily power hierarchies and intellectual ownership and the silencing of dissent in research   *Science, Agriculture, And The Politics Of Research* Lawrence M Busch,William B Lacy,2019-06-21 Many friends colleagues and research staff members have directly and indirectly contributed to this book It is impossible to acknowledge the contribution of each Still we would like to recognize several persons as well as institutions that have been particularly helpful Research funds were provided by the Kentucky Agricultural Experiment Station and by the Ford Foundation John Myers of the Current Research Information System provided us with a computer tape listing current projects Carolyn Sachs was extremely helpful in coordinating the mail survey of scientists Christian Ritter Lisa Slatin and Bobbie Sparks assisted in coding the data Ann Stockham developed the index and also organized the data Janet Baynham Sue Lewis and Greg Taylor aided in the voluminous computer programming and statistical analysis Rosemary Cheek typed most of the manuscript Marlene Pettit Michael Claycomb Deborah Wheeler and Penny Hogue also assisted in the typing Janice Taylor aided in the manuscript typing and ran interference on much of the administrative detail   **The Emotional Politics of Research Collaboration** Gabriele Griffin,Annelie Bränström-Öhman,Hildur Kalman,2013-07-18 Research collaboration in the form of networks

projects and centers has become one of the dominant modes of engaging in research especially funded research across all academic domains However there has been little research on the processes of such collaborations particularly their affective dimensions These as this volume demonstrates and as researchers know well are highly important yet mostly not directly engaged with when scientists work together even though they are experienced by everybody involved This volume is the first to consider questions such as how the naming of projects impacts on their accompanying affect scapes the policing or disciplining of emotions in research collaborations their accompanying tensions and how these might be managed and the challenges to trust between scientists that such collaborations present Drawing on theories of affect and literature on collaboration as well as on the contributors experiences of being involved in large scale research projects the volume also importantly deals directly with some of the key emotions that occur during research collaborations such as blame elation frustration alienation and belonging and suggests some ways in which one might engage productively with the affective dimensions of research collaboration   **Violence and the Politics of Research** Willard Gaylin,Ruth Macklin,Tabitha M. Powledge,2013-03-09 This volume is one outcome of a two year study conducted by the Behavioral Studies Research Group of The Hastings 1 Center It is divided into three parts to reflect the several facets of the interdisciplinary project from which it stems In the opening chapter Willard Gaylin and Ruth Macklin who di rected the study describe its basic conception and structure which centered around three programs to conduct research into aspects of violence and aggressive behavior programs aborted in the early 1970s because they were politically and IThis project was supported by the EVIST Program of the National Science Foundation under Grant No 05577 17072 and by a joint award by the National Endowment for the Humanities Any opinions findings conclu sions or recommendations expressed herein are those of the authors and do not necessarily reflect the views of the National Science Foundation or the National Endowment for the Humanities Other published outcomes are the edited transcripts of two of the case study workshops conducted under this project Researching Violence Science Politics and Public Contro versy Special Supplement The Hastings Center Report 9 April 1979 and The XYY Controversy Researching Violence and Genetics Special Sup plement The Hastings Center Report 10 August 1980 Copies of these tran scripts are available for purchase from The Hastings Center 360 Broadway Hastings on Hudson NY 10706 ix PREFACE x socially controversial   **Handbook of Research on Politics in the Computer Age** Solo, Ashu M. G.,2019-08-30 Technology and particularly the Internet have caused many changes in the realm of politics Aspects of engineering computer science mathematics or natural science can be applied to politics Politicians and candidates use their own websites and social network profiles to get their message out Revolutions in many countries in the Middle East and North Africa have started in large part due to social networking websites such as Facebook and Twitter Social networking has also played a role in protests and riots in numerous countries The mainstream media no longer has a monopoly on political commentary as anybody can set up a blog or post a video online Now political activists can network together online

The Handbook of Research on Politics in the Computer Age is a pivotal reference source that serves to increase the understanding of methods for politics in the computer age the effectiveness of these methods and tools for analyzing these methods The book includes research chapters on different aspects of politics with information technology engineering computer science or math from 27 researchers at 20 universities and research organizations in Belgium Brazil Cape Verde Egypt Finland France Hungary Italy Mexico Nigeria Norway Portugal and the United States of America Highlighting topics such as online campaigning and fake news the prospective audience includes but is not limited to researchers political and public policy analysts political scientists engineers computer scientists political campaign managers and staff politicians and their staff political operatives professors students and individuals working in the fields of politics e politics e government new media and communication studies and Internet marketing **The Politics of Social Research** Professor Martyn Hammersley,1995-03-09 Is social research political Should it be political What are the implications of the politicization of social research Recent years have seen a growing range of challenges to the idea that research should be governed by the principle of value neutrality Critical feminist antiracist and postmodernist analyses have argued that social research is intrinsically political In this stimulating and often controversial book Martyn Hammersley weighs the arguments offered in support of these positions He considers the fundamental issues that the debate raises about the nature of social research its political dimensions and its contemporary relevance At the same time he provides a robust defence of value neutrality as a constitutive principle of social research and makes a reassessment of the role of research in modern societies Praise for The Politics of Social Research For anyone interested in the nature of social research who has enough grasp of the issues to access the text this book is a must British Journal of Educational Psychology All in all Hammersley has produced a text which provides us with much to think about As I have said certain chapters will no doubt attract considerable debate Almost all of the chapters could stand alone but the broad political theme used to bring chapters and topics together works well almost always Local Government Studies Not only is Hammersley a leading exponent of sociological research he is also a key writer and thinker on the problems of undertaking research This collection some of which has been published elsewhere and some not therefore is a welcome addition to the literature on social research interesting and well argued Disability and Society **Handbook of Research on Urban Politics and Policy in the United States** Ronald K. Vogel,1997-01-21 A comprehensive reference work which provides a way to access research on urban politics and policy in the United States Experts in the field guide readers through major controversies while evaluating and assessing the subfields of urban politics and policy Each chapter follows the same basic organization with topics such as methodological and theoretical issues current states of the field and directions for future research For students this work provides a starting place to guide them to the most important works in a particular subfield and a context to place their work in a larger body of knowledge For scholars it serves as a reference work for immediately familiarity with subfields of the discipline including classic studies and

major research questions For urban policymakers or analysts the handbook provides a wealth of information and allows quick identification of existing academic knowledge and research relevant to the problem at hand **The New Politics of Population** Jason Leonard Finkle,C. Leslie J. Vaughan,1997 Reassesses the short life and career of American essayist critic and founder of cultural radicalism Bourne 1886 1918 known today mostly for his opposition to US military involvement in Europe and warnings about the military industrial complex Vaughan political science U of Minnesota Duluth argues that his stance from outside establishment perspectives was not a retreat from politics as many have claimed but a form of political engagement free from the suppositions that impede genuine debate and democratic change Annotation copyrighted by Book News Inc Portland OR

The Politics of Urban Development Clarence Nathan Stone,Heywood T. Sanders,1987 In the past twenty years the study of urban politics has shifted from a predominant concern with political culture and ethos to a preoccupation with political economy particularly that of urban development Urban scholars have come to recognize that cities are shaped by forces beyond their boundaries From that focus have emerged the views that cities are clearly engaged in economic competition that market processes are shaped by national policy decisions sometimes intentionally and sometimes inadvertently and that the costs and benefits of economic growth are unevenly distributed But what else needs to be said about the policies and politics of urban development To supplement prevailing theories The Politics of Urban Development argues that the role of local actors in making development decisions merits closer study Whatever the structural constraints politics still matters Collectively the essays provide ample evidence that local government officials and other community actors do not simply follow the imperatives that derive from the national political economy they are able to assert a significant degree of influence over the shared destiny of an urban population The impact of the collection is to heighten awareness of local political practices and of how and why they make a difference **The Peoples and Politics of the Far East** Henry Norman,1895 **Handbook of Research on Curriculum** Philip Wesley Jackson,American Educational Research Association,1992 Provides information about a wide range of curricular issues affecting elementary and high school education exploring methodological and conceptual issues looking at the forces that shape the curriculum studying the impact of the curriculum on special groups of students and discussing conventional subjects like reading and math

Politics of the Nazarene, Or, What Jesus Said to Do ... Orville Davis Jones,1901 **Morality Politics in American Cities** Elaine B. Sharp,Yvette M. Alex-Assensoh,2005 Topless bars casino gambling needle exchange programs for drug addicts there s no question morality issues remain front and center in urban politics Presenting a systematic analysis of culture war issues at the local level Elaine Sharp shows how American cities deal with these ongoing concerns Drawing on a sample of ten strategically chosen cities she explains differences in how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use By analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding of how different cities respond differently to these hot button issues Far more than a statistical study Morality Politics in American Cities is a collection of fascinating stories of real people grappling with down to earth issues and real life drama

richly informative case studies that will captivate students and interested citizens alike Mayors public health directors activists and others speak their minds about the pros and cons of these controversies Here are officials in one city confronting the Vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs These stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues They also corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues Overall the study shows that cultural factors usually dominate policymaking in local politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions As provocative as it is informative Morality Politics in American Cities demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve Its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define American politics
