Politics Of Social Ecology:

The Politics of Social Ecology Janet Biehl, Murray Bookchin, 1998 Since his youth in the 1930s Murray Bookchin has devoted his life to looking for ways to replace today's authoritarian society and the system that immiserates most of humanity and poisons the natural world with a more enlightened and rational alternative. A close student of the European enlightenment he is best known for introducing the idea of ecology to the political left and for first positing that a liberatory society would also have to be an ecological society. Over the course of several decades libertarian municipalism, the political dimension of the broader body of ideas known as social ecology, was developed by this world famous social theorist.

Politics of Social Ecology Janet Biehl, 2017 **Social Ecology and Communalism** Murray Bookchin, 2007 A collection of essays by the late Murray Bookchin, the acclaimed writer and activist who spent most of his life working towards a better world. The basic premise of social ecology is to re-harmonise the balance between society and nature to create a rational ecological society. Aims that are increasingly vital and increasingly a part of the mainstream political discourse. This collection of essays gives an overview and introduction to his ideas. *Eco-socialism as Politics* Qingzhi Huan, 2010-03-11 This volume consists of analyses by experts from both the West and the East on the up-to-date development of Eco-socialism as a red-green politics within the context of capitalist globalisation. It investigates whether and/or in what sense Eco-socialism can offer a better explanation to the causes of ecological problems than the other Green discourses such as deep ecology and ecological modernisation theory and thus has more contributions to make in dealing with the deteriorating ecological crisis throughout the world. **Finding Our Way** Janet Biehl, 1991 Finding Our Way is a well-written clear introduction to a range of ecofeminist thought. In four essays Biehl explores ecofeminism's intellectual affinities with social ecology and other schools of thought. Critiques the increasing role of Goddess mythology within today's movement. Spiritedly defends reason and naturalism against what she sees as a counter-Enlightenment mentality within feminist and academic circles and mines the Western democratic tradition for its relevant political insights for feminists today. *Remaking Society* Murray Bookchin, 2023-02-21 According to Murray Bookchin, a humane solution to the climate crisis will require replacing industrial capitalism with an egalitarian ecological society, decentralized democratic communities and sustainable technologies. Drawing on rich traditions of ecological science, anthropology, history, utopian philosophy and ethics, *Remaking Society* offers a coherent framework for social and ecological reconstruction. This innovative work on nature and society provides readers with clear strategies for averting disaster. In their foreword to this new edition of *Remaking Society*, Marina Sitrin and Debbie Bookchin show that remaking is a continuing project. If hierarchy has deeply wounded our relationships with each other and the natural world, capitalism has plunged a knife that much more deeply into the wound. Capitalism, Bookchin believes, has distorted every aspect of political, social and even personal life. Our challenge then is to build movements everywhere that will preserve and expand our innate creativity and eradicate any tendencies toward hierarchy, status or other forms of domination.
