## **Politics Of Territory Policy And Segregation In Northern Ireland:**

The Politics of Territory B. Murtagh, 2001-12-03 This book explores the relationship between land use planning and ethno religious segregation It draws on a range of empirical research and case studies to explore the meaning attached to land in contested places the challenges these present to planners and the possibilities for accommodating differences over the use and development of territory The author argues that planners have a significant role in the management of these processes and sets out some ideas about how this might be addressed in local and global settings including the Balkans and Palestine

**Power, Politics and Territory in the 'New Northern Ireland'** Elizabeth DeYoung, 2023-10-15 Winner of the ACIS Donald Murphy Prize for Distinguished First Book 2023 In the wake of the Good Friday Agreement the redevelopment of the former Girdwood Army Barracks in North Belfast was hailed as a symbol of hope for Northern Ireland It was a major investment in a former conflict zone and an internationally significant peacebuilding project Instead of adhering to the tenets of the Agreement sectarianism dominated the regeneration agenda Throughout the process politicians community groups and paramilitaries wrangled over the site s future and territorial contest won out over housing need After eleven years of negotiation and 11 7 million the EU funded Girdwood Community Hub opened its doors to the public in 2016 but its impact has been underwhelming The Hub s redevelopment is a microcosm of the peace process itself and the ways in which post Agreement politics have failed to deliver a shared future for the people of Northern Ireland twenty five years on This ethnography provides a lively account of Girdwood s redevelopment and a wry critique of the fractious political context around it Through fl nerie and encounter the author brings us across peace walls into community meetings and behind the scenes of decision making in Northern Ireland Girdwood s story also sheds light on how power politics and territory intersect in divided cities globally

**Governing the Tongue in Northern Ireland** Shane Alcobia-Murphy,2008-12-11 How free is the Northern Irish writer to produce even a short poem when every word will be scrutinised for its political subtext Is the visual artist compelled to react to the latest atrocity Must the creative artist be aware of his or her own inculcated prejudices and political affiliations and must these be revealed overtly in the artwork Because of these and other related questions the recent work by Northern Irish writers and visual artists has been characterised by an inward looking self consciousness It is an art that relays its personal responses in guarded often coded ways Characterised by obliquity and self reflexivity the art does not simply re present events and the artist s emotive response towards them rather it calls attention to the manner of its presentation It is an art about art and its role and place in society Governing the Tongue examines how the creation of art in a time of violence brings about an anxiety in the Northern Irish artist regarding his or her artistic role and how it calls into question the ability to represent events The series of essays is inter disciplinary in its approach exploring the place of art its role and location in the work of key Northern Irish writers Ciaran Carson Seamus Deane Brian Friel Seamus Heaney Michael Longley Medbh McGuckian Eoin McNamee Glenn Patterson and visual artists Willie Doherty Rita Donagh Paul Seawright Victor Sloan

**The Routledge Handbook of Architecture, Urban Space and Politics, Volume I** Nikolina Bobic, Farzaneh Haghighi, 2022-10-28 For architecture and urban space to have relevance in the 21st Century we cannot merely reignite the approaches of thought and design that were operative in the last century This is despite or because of the nexus between politics and space often being theorized as a representation or by product of politics As a symbol or an effect the spatial dimension is depoliticized Consequently architecture and the urban are halted from fostering any systematic change as they are secondary to the event and therefore incapable of performing any political role This handbook explores how architecture and urban space can unsettle the unquestioned construct of the spatial politics of governing Considering both ongoing and unprecedented global problems from violence and urban warfare the refugee crisis borderization detention camps terrorist attacks to capitalist urbanization inequity social unrest and climate change this handbook provides a comprehensive and multidisciplinary research focused on the complex nexus of politics architecture and urban space Volume I starts by pointing out the need to explore the politics of spatialization to make sense of the operational nature of spatial oppression in contemporary times The operative and active political reading of space is disseminated through five thematics Violence and War Machines Security and Borders Race Identity and Ideology Spectacle and the Screen and Mapping Landscapes and Big

Data This first volume of the handbook frames cutting edge contemporary debates and presents studies of actual theories and projects that address spatial politics This Handbook will be of interest to anyone seeking to meaningfully disrupt the reduction of space to an oppressive or neutral backdrop of political realities Chapters 1 and 23 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license

**Public Management and Complexity Theory** Mary Lee Rhodes, Joanne Murphy, Jenny Muir, John A. Murray, 2010-10-04 That public services exhibit unpredictability novelty and on occasion chaos is an observation with which even a casual observer would agree Existing theoretical frameworks in public management fail to address these features relying more heavily on attempts to eliminate unpredictability through increased reliance on measurable performance objectives improved financial and human resource management techniques decentralisation of authority and accountability and resolving principal agent behaviour pathologies Essentially these are all attempts to improve the steering capacity of public sector managers and policy makers By adopting a Complex Adaptive Systems CAS approach to public services this book shifts the focus from developing steering techniques to identifying patterns of behaviour of the participants with the ultimate objective of increasing policy makers and practitioners understanding of the factors that may enable more effective public service decision making and provision The authors apply a CAS framework to a series of case studies in public sector management to generate new insights into the issues processes and participants in public service domains

*Rethinking Reconciliation and Transitional Justice After Conflict* James Hughes, Denisa Kostovicova, 2020-04-24 The concepts of reconciliation and transitional justice are inextricably linked in a new body of normative meta theory underpinned by claims related to their effects in managing the transformation of deeply divided societies to a more stable and more democratic basis This edited volume is dedicated to a critical re examination of the key premises on which the debates in this field pivot The contributions problematise core concepts such as victimhood accountability justice and reconciliation itself and provide a comparative perspective on the ethnic ideological racial and structural divisions to understand their rootedness in local contexts and to evaluate how they shape and constrain moving beyond conflict With its systematic empirical analysis of a geographic and historic range of conflicts involving ethnic and racial groups the volume furthers our grasp of contradictions often involved in transitional justice scholarship and practice and how they may undermine the very goals of peace stability and reconciliation that they seek to promote This book was originally published as a special issue of Ethnic and Racial Studies

**Conflict at the Interface** Bert Preiss, 2020-02-18 More than two decades after the Northern Ireland peace agreement conflict still flares between deprived Protestant Unionist Loyalist and Catholic Nationalist Republican working class interface communities who remain divided by numerous peace walls In light of Brexit the Irish border issue and the power sharing impasse progress in local peacebuilding has stalled This might even jeopardise the

overall peace process Within this context this book explores largely empirically the nature and causes of conflict at the interface An attempt is also made to provide an outlook on peace in Northern Ireland and to highlight potential lessons for other conflict ridden divided societies

**Contentious Rituals** Jonathan S. Blake, 2019-02-25 Throughout the world divisive monuments ceremonies and processions assert and reinforce claims to territory legitimacy and dominance These contested symbols and rituals strengthen and lend meaning to communal boundaries confer and renew identities and inflame tensions between groups polarizing communities and at times triggering violence In *Contentious Rituals* Jonathan S Blake focuses on one such controversial tradition Protestant parades in the streets of Northern Ireland Marchers say they are celebrating their culture and commemorating their history as they have done for two centuries Catholics see the parades as carnivals of bigotry and strident assertions of power The result is heightened inter communal friction and occasional violence Drawing on over 80 interviews an original survey and ethnographic observations Blake investigates why participants choose to march in parades that are known to be a primary source of sectarian conflict today His analysis reveals their reasons for acting the meanings supplied to them and how they make sense of the contention that surrounds them Ultimately he discovers many paraders are not interested in the politics of their actions at all but rather in the allure of the action itself the satisfactions of joining with others to express a collective identity and carry on a cherished tradition An insightful exploration of the characteristics and dynamics of nationalism in action *Contentious Rituals* offers an innovative approach to the contested politics of culture in divided societies and a new explanation for an old source of conflict in Northern Ireland
