Africa and Europe in articulating and accommodating the interests and needs of ethno cultural minority groups as part of the human rights discourse Conceptually it exposes different moments of intervention by such bodies involving the recognition of group existence or identity the adjustment of human rights norms to accommodate the group s perspectives the establishment of processes designed to address the complexities resulting from competing claims and the expansion of procedural avenues within litigation The result is a fresh comparative practical and theoretical perspective on international jurisprudence as an emerging distinctive component in the complex history of the field **Sexual Minorities and Politics**

Jason Pierceson,2015-11-05 The political representation and involvement of sexual minorities in the United States has been highly contested and fiercely debated As recent legislative and judicial victories create inroads towards equality for this growing population members and advocates of these minorities navigate evolving political and legal systems while continuing to fight against societal and institutional resistance Sexual Minorities and Politics is the first textbook to provide students with an up to date thorough and comprehensive overview of the historical political and legal status of sexual and gender minorities Skillfully synthesizing the research of political scientists political theorists and historians Jason Pierceson describes the history of the LGBT rights movement chronicles the building of political and legal movements and the responses to them examines philosophical debates within and about the movement and assesses the current state of the politics and policies concerning sexual minorities In addition to carefully structured analyses and contextual explanations the text provides lists of key terms and discussion questions in each chapter to aid student comprehension and fuel classroom debate African Identities and International Politics

Frank Aragbonfoh Abumere,2022-06-29 Using the lenses of realism liberalism the English School and constructivism this book explains how the divisions and differences in African identities affect African international politics This book explores the African condition in the twenty first century It analyses how geographical racial ethnic linguistic religious and power differences shape continental and intercontinental relations in Africa through the creation of identities and values which militate against intra continental or regional relations The author assesses inclusionary and exclusionary rational and irrational relationships interactions and non interactions which occur between geographical linguistic racial and religious entities in Africa He suggests that in these moments one entity will negatively relate interact or refuse to interact with another entity for the gains of the former and to the detriment of the latter or even to the detriment of both entities Divided into two parts the first part of the book employs an ecumenical approach to discuss the divisions and differences that disunite Africa as a continent and Africans as a people and how they affect African international politics Part II goes on to explore how this othering can be superseded by non discriminatory unifying and positive identities and values Examining the possibility of creating identities and values that can unite Africa as a continent and Africans as a people this book will be of interest to scholars of African politics international relations and political theory The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under

Minority issues became prominent as postcommunist states lined up as potential candidates for EU membership and the respect for and protection of minority rights was an essential part of criteria these states had to fulfil before EU accession. Minority rights protection has constituted an important gatekeeping criterion for EU membership. Its monitoring remains a powerful instrument to mediate tensions and to adjudicate discriminations in the present day Europe. In many countries minority rights standards have been transposed in domestic legislation but whether these norms constitute a legitimate background which states accept, sustain and promote is the focus of this book. This volume takes on the task of analysing the diffusion of minority rights norms across the European continent. It looks specifically at the oft neglected process of compliance meaning not only the formal adoption of European laws but also their implementation within the domestic context. The contributions analyse the political rhetoric, legal transposition and behavioural compliance in a range of European states East and West to assess compliance to norms of minority protection. This book was published as a special issue of *Perspectives on European Politics and Society*.      **The New Politics of Race** Howard Winant, 2004 The *New Politics of Race* brings together Winant's new and previously published essays to form a comprehensive picture of the origins and nature of the complex racial politics that engulf us today.

**European Union Politics** John McCormick, 2020-05-10 Cutting through the jargon of EU politics the third edition of this engaging and informative textbook examines the history, institutions, processes and politics of the European Union with unprecedented clarity. The EU is a fascinating political experiment in regional integration and it has changed our understanding of Europe, how Europeans relate to one another, the role Europe plays in global politics and has even shifted our understanding of politics itself. Helping to make sense of it all in the author's accessible style, this book is underpinned by theory and the latest research throughout. Organised in three main parts, the text covers everything from the history of the EU and its treaties to the institutions that make up the EU and its policies in areas such as the economy, the environment and the Area of Freedom, Security and Justice. This is the go-to text for all students taking courses or modules on the EU as well as functioning as an accessible introduction for anyone who wants to find out more about how the EU works and what difference it makes. **New to this Edition** Fully updated to take account of the latest developments including the ongoing Brexit negotiations, the 2019 European Parliament elections and more on the fallout from the euro zone and migration crises. Two new separate chapters to cover the European Council and the Council of Ministers respectively. More emphasis on comparative politics throughout to compare institutions and policies. Expanded debates on key issues of contention in the European project. Expanded coverage of the most recent research into public opinion in the EU. **New Snapshot** features in each chapter focusing on a particular EU country. *Minority Rights, Feminism and International Law* Silvia Gagliardi, 2020-05-26 Investigating minority and indigenous women's rights in Muslim majority states this book critically examines the human rights regime within international law Based on extensive and diverse ethnographic research on Amazigh women in Morocco the book unpacks and challenges generally accepted notions of rights and equality Significantly and controversially the book challenges the supposedly emancipatory power vested in the human rights project arguing that rights based discourses are sites of contestation for different groups that use them to assert their agency in society More specifically it shows how the very conditions that make minority and indigenous women instrumental to the preservation of their culture may condemn them to a position of subalternity In response and engaging the notion and meaning of Islamic feminism the book proposes that feminism should be interpreted and contextualised locally in order to be effective and inclusive and so in order for the human rights project to fully realise its potential to empower the marginalised and make space for their voices to be heard Providing a detailed empirically based analysis of rights in action this book will be of relevance to scholars students and practitioners in human rights policy and practice in international law minorities and indigenous peoples rights gender studies and Middle Eastern and North African Studies

**International Migration and the Globalization of Domestic Politics** Rey Koslowski, 2006 This book considers the impact of migrant communities on the politics of their home nations with case studies from Israel Turkey Kurdistan the Dominican Republic Mexico and Sri Lanka

**Belief, Law and Politics** Marie-Claire Foblets, Katayoun Alidadi, Zeynep Yanasmayan, 2016-04-15 This edited collection gathers together the principal findings of the three year RELIGARE project which dealt with the question of religious and philosophical diversity in European law Specifically it covers four spheres of public policy and legislation where the pressure to accommodate religious diversity has been most strongly felt in Europe employment family life use of public space and state support mechanisms Embracing a forward looking approach the final RELIGARE report provides recommendations to governance units at the local national and European levels regarding issues of religious pluralism and secularism This volume adds context and critique to those recommendations and more generally opens an intellectual discussion on the topic of religion in the European Union The book consists of two main parts the first includes the principal findings of the RELIGARE research project while the second is a compilation of 28 short contributions from influential scholars legal practitioners policy makers and activists who respond to the report and offer their views on the sensitive issue of religious diversity and the law in Europe

*Sexualities in World Politics* Manuela Lavinas Picq, Markus Thiel, 2015-05-15 As LGBTQ claims acquire global relevance how do sexual politics impact the study of International Relations This book argues that LGBTQ perspectives are not only an inherent part of world politics but can also influence IR theory making LGBTQ politics have simultaneously gained international prominence in the past decade achieving significant policy change and provoked

cultural resistance and policy pushbacks Sexuality politics more so than gender based theories arrived late on the theoretical scene in part because sexuality and gender studies initially highlighted post structuralist thinking which was hardly accepted in mainstream political science This book responds to a call for a more empirically motivated but also critical scholarship on this subject It offers comparative case studies from regional cultural and theoretical peripheries to identify ways of rethinking IR Further it aims to add to critical theory broadening the knowledge about previously unrecognized perspectives in an accessible manner Being aware of preoccupations with the de queering disciplining nature of theory establishment in the social sciences we critically reconsider IR concepts from a particular LGBTQ vantage point and infuse them with queer thinking Considering the relative dearth of contemporary mainstream IR theorizing authors ask what contribution LGBTQ politics can provide for conceiving the political subject as well as the international structure in which activism is embedded This book will be of interest to students and scholars of gender politics cultural studies and international relations theory

*The Romani Voice in World Politics* Ilona Klímová-Alexander, 2017-05-15 Ilona Klímová Alexander brings Europe's largest transnational and most marginalized ethnic minority the Roma Gypsies into the discourse of international relations The book describes and analyzes the attempts of the Romani activists to gain voice in world politics by interacting with the United Nations UN system and explores their capabilities and impact This study has three objectives it provides an introduction to global Romani activism in terms of its anatomy history political manifestos goals and activities it establishes the extent and essence of the Romani voice in world politics and its influence on the UN discourse on Roma furthermore it looks at how interacting with the UN system has affected the organizational structure of the global Romani activism and its discourse Based largely on primary resources and fieldwork this book will engage international relations scholars political scientists and those concerned with social movements and ethnic and racial studies
