Selling Cromwell's Wars Nicole Greenspan, 2015-10-06 Greenspan examines a selection of Cromwell's conflicts policies and imperial ventures to explore the ways in which the media was instrumental in developing promoting and legitimizing government actions Catholicism in the English Protestant Imagination Raymond D. Tumbleson, 1998-10-15 This study examines the role of anti Catholic rhetoric in late seventeenth and early eighteenth century England This role was long neglected being at once obvious and distasteful a reproach to the heirs of the Enlightenment who prided themselves on their tolerance and did not want to confront its origins in intolerance Raymond Tumbleson discusses how the fear of Popery a potentially destabilising force under the Stuarts ultimately became a principal guarantor of the Hanoverian oligarchy The range of authors discussed runs from Middleton Milton and Marvell to Swift Defoe and Fielding as well as numerous pamphleteers Crossing traditional generic disciplinary and chronological boundaries this book examines hitherto neglected relationships between poetry and prose literature and polemic the Reformation and the Augustan age English Renaissance Rhetoric and Poetics Heinrich F. Plett, 2023-08-14 This volume is the first comprehensive reference work on English Renaissance rhetoric and poetics It is arranged in four sections A bibliographies B primary sources C secondary sources D indices Section B lists more than 500 books on rhetoric and poetics published in the British Isles and abroad between 1479 and 1660 Detailed information is provided on each of them transcription of the title page of the editio princeps call number of the library copy consulted further historical and modern editions together with the relevant secondary literature Section C covers the whole range of applied rhetoric and poetics totalling some 2 000 titles between 1900 and 1994 It deals systematically with such topics a General Studies Rhetorical Genres and Rhetoric Poetics and Individual Authors An introductory essay outlines the principles of the bibliography **Uncircumscribed Mind Charles W.** Durham, Kristin A. Pruitt, 2008 Includes sixteen essays that represent how challenging stimulating and far ranging are the efforts to read Milton critically and deeply This collection deals with the issue of evil world of Milton's masque and the many worlds of his epic Paradise Lost "A Warr So Desperate" Jim Daems, 2011-11-15 A Warr So Desperate John Milton and Some Contemporaries on the Irish Rebellion examines the political and colonial contexts of Milton's Observations Upon the

Articles of Peace as well as the relatively brief but significant comments on the Irish Rebellion that occur elsewhere in his work Commissioned by the Council of State in March 1649 Milton's Observations puts forward the Commonwealth's justifications for the reconquest of Ireland which would soon follow with Oliver Cromwell's campaign In doing so Milton covers some familiar ground for example the trial and execution of Charles I and the intolerance and political hypocrisy of the Presbyterians However the Irish Rebellion leads Milton to engage with these in a way which does not fit particularly well with how his views of personal political and religious liberties are generally perceived Beginning with Milton's pragmatic reading of the documents he cogently critiques in the tract this book then situates Observations within the polemical contexts of the 1640s and early 1650s particularly the frequent representation of Irish atrocities reliant on both anti Catholic and ethnic prejudices and Eikon Basilike's justification of Charles I's handling of the rebellion arguing both Milton's agreement with and complicity in the reconquest **The Matter of Revolution** John Rogers, 2018-09-05 John Rogers here addresses the literary and ideological consequences of the remarkable if improbable alliance between science and politics in seventeenth century England He looks at the cultural intersection between the English and Scientific Revolutions concentrating on a body of work created in a brief but potent burst of intellectual activity during the period of the Civil Wars the Interregnum and the earliest years of the Stuart Restoration Rogers traces the broad implications of a seemingly outlandish cultural phenomenon the intellectual imperative to forge an ontological connection between physical motion and **Biblical Hermeneutics** Milton S. Terry, 1890 The first edition of this work was published in the autumn political action of 1883 and has received such cordial and continued welcome as to put beyond doubt that a treatise of its character is needed in our English theological literature The general plan of the volume has been adapted to meet what appear to be the practical wants of most theological students Specialists and experts in exegetical learning will push their way through all difficulties and find delight in testing principles but the ordinary student if led at all into continued and successful searching of the Scriptures must become interested in the practical work of exposition **Arts & Humanities Citation Index** ,1994

mind body dualism and its insistence on the primacy of analytic thought over bodily function has surprisingly little purchase in texts by prominent classical writers In this study H fer explores how Surin Moli re Lafayette and Racine represent interconnections of body and mind that influence behaviour both voluntary and involuntary and that thus disprove the classical notion of the mind as distinct from and superior to the body. The author's interdisciplinary perspective utilizes early modern medical and philosophical treatises as well as contemporary medical compilations in the disciplines of psychosomatic medicine neurobiology and psychoanalysis to demonstrate that these seventeenth century French writers established a view of human existence that fully anticipates current thought regarding psychosomatic illness Die Blindheit der Texte Alf Hauptwerke der politischen Theorie Theo Stammen, 2007 **Comparative Poetics** Earl Roy Mentzer,2001 Miner, 1990-10-23 Comparative literature Earl Miner writes clearly involves something more than comparing two great German poets and something different from a Chinese studying French literature or a Russian studying Italian literature But what would a true intercultural poetics be This work proposes various ways to study something other than what are all things considered the short and simple annals of one cultural parish at one historic moment The first developed account of theories of literature from an intercultural standpoint the book shows that an originative or foundational poetics develops in cultures with explicit poetics when critics define the nature and conditions of literature in terms of the then most esteemed genredrama lyric or narrative Earl Miner demonstrates that these definitions and inferences from them constitute useful bases for comparative poetics MLA International Bibliography of Books and Articles on the Modern Languages and Literatures, 1989 Vols for 1969 include ACTFL annual bibliography of books and articles on pedagogy in foreign languages 1969 The Publishers' Trade List Annual ,1886 Confused About the Millennium? - Apply These Principles -**Decide for Yourself** Robert F. Richardson, 2018-05-09 This book is for the person who is trying to understand the meaning of the Millennium and is about to abandon the effort Richardson has taken a fresh approach that differs from the typical format of studies on the Millennium Rather than review and critique the content of other millennial theories Richardson begins with the principles of interpretation evangelical scholars have accepted as valid since the Protestant Reformation He then evaluates the interpretive options by their conformity to these principles The reader is left to decide for himself which interpretation is most faithful to Scripture Richardson's goals 1 to explain these principles so that the ordinary reader might apply them with confidence 2 to determine what an interpretation of a passage of Scripture cannot mean because it violates one or more of these principles and 3 to produce an interpretation of the Millennium that is consistent with these principles and in harmony with the teachings of the prophets apostles and Jesus The Great Tribulation--Past Or Future? Thomas Ice, Kenneth L. Gentry, This engaging book brings together the opposing viewpoints of two respected evangelicals on whether the Great Tribulation is a past present or future event This material is especially helpful in gaining an understanding of end times as the arguments are presented in a friendly debate format with responses by each author to the other's position
