Libraries,1991 *JPRS Report* ,1991 *The Film of the Islamic State* Yorck Beese,2024-05-27 The film of the so called

Islamic State is part of the still relatively opaque history of radical Sunni Islamist video propaganda a field in which it is simultaneously its strongest exponent Through its imports of aesthetics in the age of digitalization and the concurrent de professionalization of film this violent propaganda film has interestingly drawn attention for its seeming likeness to Hollywood film an odd comparison that the Islamic State itself opposes through its own filmic antagonisms to commercial cinema In an intermittent attempt at attacking cinematic illusionism it has made increasing use of cinematic devices in order to communicate its violent and anti humanist ideology and has thereby entered a state of filmic self contradiction This book analyzes and uncovers the mechanisms and dynamics of ideological communication in the Islamic State s videos through a combined historical and neoformalist approach making them predictable for future researchers **Assured Victory** Albert L. Weeks,2011-01-19 This book documents dictator Joseph Stalin s brilliant tactics as well as missteps in taking preemptive actions that guaranteed ultimate victory over the German invaders It also covers the policies implemented after the war that made the Soviet Union a menace to world peace and led to collapse of Soviet rule A detailed reexamination of historical facts indicates that Stalin could deserve to be regarded as a great leader Yet Stalin clearly failed as his nation s leader in a post World War II milieu where he delivered the Cold War instead of rapid progress and global cooperation It is the proof of both Stalin s brilliance and blunders that makes him such a fascinating figure in modern history Today most of the Russian population acknowledges that Stalin achieved greatness The Soviet dictator s honored place in history is largely due to Stalin successfully attending to the Soviet Union s defense needs in the 1930s and 1940s and leading the USSR to victory in the war on the Eastern Front against Nazi Germany and its allies This book provides an overdue critical investigation of how the Soviet leader s domestic and foreign policies actually helped produce this victory and above all how Stalin s timely support of a wartime alliance with the Western capitalist democracies assured the defeat of the Axis powers in 1945 *The Magic of Innovation* Olga A. Kravtsova,Dmitry A. Kryachkov,Tamara O. Kuznetsova,2015-04-01 This volume focuses on innovative approaches to teaching foreign language courses offered to non language degree students It includes essays related to the innovative use of ICTs new developments in methodology approaches to course and materials design and the contribution of language theory to foreign language teaching As the book brings together researchers and practitioners working in a variety of contexts it provides detailed insight into ways the same challenges are dealt with in different educational environments The ideas and experiences analysed in this collection of essays will appeal to anyone interested in the current trends in foreign language teaching and learning particularly educationalists The best practices in FLT that the book offers will be a source of inspiration for in service teachers and course designers while the theoretical backgrounds provided in each chapter will be valuable to pre service teachers and stimulating to researchers *Heritage and Festivals in Europe* Ullrich Kockel,Cristina Clopot,Baiba Tjarve,Máiréad Nic Craith,2019-08-28 Heritage and Festivals in Europe critically investigates the purpose reach and effects of heritage festivals Providing a comprehensive and detailed analysis of comparatively selected

aspects of intangible cultural heritage the volume demonstrates how such heritage is mobilised within events that have specific agency particularly in the production and consumption of intrinsic and instrumental benefits for tourists local communities and performers Bringing together experts from a wide range of disciplines the volume presents case studies from across Europe that consider many different varieties of heritage festivals Focusing primarily on the popular and institutional practices of heritage making the book addresses the gap between discourses of heritage at an official level and cultural practice at the local and regional level Contributors to the volume also study the different factors influencing the sustainable development of tradition as part of intangible cultural heritage at the micro and meso levels and examine underlying structures that are common across different countries Heritage and Festivals in Europe takes a multidisciplinary approach and as such should be of interest to scholars and students in the fields of heritage studies tourism performing arts cultural studies and identity studies Policymakers and practitioners throughout Europe should also find much to interest them within the pages of this volume Chapters 1 2 3 10 11 and 13 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
