Samojlik,Anastasia Fedotova,Piotr Daszkiewicz,Ian D. Rotherham,2020-03-30 Understanding the current state and dynamics
of any forest is extremely difficult if not impossible without recognizing its history Białowieża Primeval Forest BPF located on
the border between Poland and Belarus is one of the best preserved European lowland forests and a subject of myriads of
works focusing on countless aspects of its biology ecology management BPF was protected for centuries 15th 18th century as
a game reserve of Polish kings and Lithuanian grand dukes Being at that time a part of the Grand Duchy of Lithuania BPF
was subject to long lasting traditional multi functional utilisation characteristic for this part of Europe including haymaking
on forest meadows traditional bee keeping and fishing in rivers flowing through forest This traditional model of management
came to an abrupt end due to political change in 1795 when Poland and Grand Duchy of Lithuania ceased to exist in effect of
partitioning by neighbouring countries and the territory of BPF was taken over by the Russian Empire The new Russian
administration influenced by the German trends in forestry attempted at introducing the new science based forestry model in
the BPF throughout the 19th century The entire 19th century in the history of BPF is a story of struggle between new trends
and concepts brought and implemented by new rulers of the land and the traditional perception of the forest and forest uses
culturally rooted in this area and originating from mediaeval or older practices The book will show the historical background
and the outcome of this struggle the forest's history in the long 19th century focusing on tracking all cultural imprints both
material artificial landscapes introduced alien species human induced processes and immaterial traditional knowledge of
forest and use of forest resources the political and cultural significance of the forest that shaped the forest's current state

and picture Our book will deliver a picture of a crucial moment in forest history relevant not only to the Central Europe but to the continent in general Moment of transition between a royal hunting ground traditional type of use widespread throughout Europe to a modern managed forest Looking at main obstacles in the management shift the essential difference in perceptions of the forest and goods it provides in both modes of management and the implications of the management change for the state of BPF in the long 19th century could help in better understanding the changes that European forests underwent in general **Zoological Record** ,1924 Zoological Record is published annually in separate sections The first of these is Comprehensive Zoology followed by sections recording a year s literature relating to a Phylum or Class of the Animal Kingdom The final section contains the new genera and subgenera indexed in the volume Each section of a volume lists the sections of that volume **Nauka polska** ,1929
