Corporeal Archipelagos Julia Frengs,2017-12-27 Corporeal Archipelagos Writing the Body in Francophone Oceanian Women s Literature offers an examination of contemporary literature from the French speaking Oceanian region through a focus on four of its most prolific women writers and the ways in which these writers negotiate identity construction through one of the most powerful identity markers in the region the body The question of the body how one is to make meaning through corporeality how one represents the body and what role the body plays in identity construction is not only a question with which feminists and postcolonial theorists have been grappling for nearly a half century The body is of integral significance to autochthonous Oceanian societies whose views of corporeality are not built upon a dualistic mind body binary that has influenced Western thought since the era of Descartes but rather on a cosmological epistemological axis that comprehends the body as intertwined with symbolic social and ideological understandings of identity Beginning with an analysis of the ways in which the Oceanian body has been portrayed and consumed as an exotic object of fascination throughout three centuries of European literature the book examines the myriad methods by which women writers break away from exotic myths and reappropriate the body as a powerful tool that enables them to confront the question of self definition in French speaking Oceania The authors examined in this book employ culturally racially and sexually specific bodies in the creation of an original confrontational literature that transgresses historically and culturally imposed boundaries audaciously inserting their voices the voices of Oceania into the postcolonial francophone literary scene

The Global Journey of Racism Michelle Christian, 2025-07-01 In The Global Journey of Racism Michelle Christian provides a unified narrative of how the world's racial hierarchies came to be Christian's story begins before the Ku Klux Klan Nazi Germany and South African Apartheid tracing the historical lineage of white supremacy to the expansion of western European empire She uncovers the vast network of legal political economic and social mechanisms most potently enslavement that made up the original design for racialized knowledge capitalist systems and colonial management

Contemporary manifestations of this design may have new rhythms beats and faces but they are all rooted in the modern hierarchy of global white supremacy and global anti Blackness Christian brings imperial history into conversation with the present and places the racial mechanisms at work in distinct nations alongside each other advancing a novel analysis of the global racial system In doing so she responds to scholarship on race and racism that emphasizes cultural specificity and asserts the dominance of a modern world that despite appeals to the contrary remains brazenly and without question racist

Third Sex, Third Gender Gilbert Herdt, 2020-10-27 Most modern discussions of the relationship of biological sex to gender presuppose that there are two genders male and female founded on the two biological sexes But not all cultures share this essentialist assumption and even Western societies have not always embraced it Bringing together historical and anthropological studies *Third Sex Third Gender* challenges the usual emphasis on sexual dimorphism and reproduction providing a unique perspective on the various forms of socialization of people who are neither male nor female The existence of a third sex or gender enables us to understand how Byzantine palace eunuchs and Indian hijras met the criteria of special social roles that necessitated practices such as self castration and how intimate and forbidden desires were expressed among the Dutch Sodomites in the early modern period the Sapphists of eighteenth century England or the so called hermaphrodite homosexuals of nineteenth century Europe and America By contextualizing these practices and by allowing these bodies meanings and desires to emerge *Third Sex Third Gender* provides a new way to think about sex and gender systems that is crucial to contemporary debates within the social sciences
