P. K. Sorrenson, 2013-11-01 Since Europeans first set foot in New Zealand they have speculated about where the M ori people came from how they made their way to New Zealand and how they lived when they arrived here Theories have abounded some of them have hardened into accepted truth The result has been an accumulation of Pakeha myths about M ori origins The process of this mythmaking is the subject of Sorrenson s book It is not an attempt to find an original or even a Pacific homeland for the M ori I leave that task to the many others who are happily engaged on it But as a study of the development of ideas this book is both fascinating and salutary      **Monograph Series** Statens etnografiska museum (Sweden), 1953      *Voyage of Rediscovery* Ben Finney, 2023-11-15 In the summer of 1985 a mostly Hawaiian crew set out aboard Hokule a a reconstructed ancient double canoe to demonstrate what skeptics had steadfastly denied that their ancestors sailing in such canoes and navigating solely by reading stars ocean swells and other natural signs could intentionally have sailed across the Pacific exploring the vast oceanic realm of Polynesia and discovering and settling all its inhabitable islands Their round trip odyssey from Hawai i to Aotearoa New Zealand across 12 000 nautical miles dramatically refuted all theories declaring that because of their unseaworthy canoes and inaccurate navigational methods the ancient Polynesians could only have been pushed accidentally to their islands by the vagaries of wind and current *Voyage of Rediscovery* is a vivid immensely readable account of this remarkable journey through the Pacific including tales of a curiosity attack by sperm whales and the crew s welcome to Aotearoa by Maori tribesmen who dubbed them their sixth tribe It describes how Hawaiian navigator Nainoa Thompson guided the canoe over thousands of miles of open ocean without compass sextant charts or any other navigational aids In so doing it documents the experimental voyaging approach developed by Ben Finney which has both transformed our ideas about Polynesian migration and voyaging and been embraced by present day Polynesians as a way to experience and celebrate their rich ancestral heritage as premier seafarers By sailing in the wake of their ancestors the Hawaiians and other Polynesians who captained navigated and crewed Hokule a made the journey described here a cultural as well as a scientific odyssey of exploration In the summer of 1985 a mostly Hawaiian crew set out aboard Hokule a a reconstructed ancient double canoe to demonstrate what skeptics had steadfastly denied that their ancestors sailing in such canoes and navigating solely by reading stars o      **Exploring the History of New Zealand Astronomy** Wayne Orchiston, 2015-12-08 Dr Orchiston is a foremost authority on the subject of New Zealand astronomy and

here are the collected papers of his fruitful studies in this area including both those published many years ago and new material The papers herein review traditional Maori astronomy examine the appearance of nautical astronomy practiced by Cook and his astronomers on their various stopovers in New Zealand during their three voyages to the South Seas and also explore notable nineteenth century New Zealand observatories historically from significant telescopes now located in New Zealand to local and international observations made during the 1874 and 1882 transits of Venus and the nineteenth and twentieth century preoccupation of New Zealand amateur astronomers with comets and meteors New Zealand astronomy has a truly rich history extending from the Maori civilization in pre European times through to the years when explorers and navigators discovered the region up to pioneering research on the newly emerging field of radio astronomy during WWII and in the immediate post war years A complete survey of a neglected but rich national astronomical history this does the subject full and comprehensive justice

**The Quest for Origins** K. R. Howe, 2003-05-31 Did they come from space from Egypt from the Americas From other ancient civilizations These are some of today's most fanciful claims about the first settlers of the islands of the Pacific But none of them correctly answer the question Where did the Polynesians come from This book is a thoughtful and devastating critique of such new learning and a careful and accessible survey of modern archaeological anthropological genetic and linguistics findings about the origins of Pacific Islanders Professor Howe also examines the two hundred year old history of Western ideas about Polynesian origins in the context of ever changing fads and intellectual fashions

*Vanished Islands and Hidden Continents of the Pacific* Patrick D. Nunn, 2008-10-31 Islands as well as entire continents are reputed to have disappeared in many parts of the world Yet there is little information on this subject concerning its largest ocean the Pacific Over the years geologists have amassed data that point to the undeniable fact of islands having disappeared in the Pacific a phenomenon that the oral traditions of many groups of Pacific Islanders also highlight There are even a few instances where fragments of Pacific continents have disappeared becoming hidden from view rather than being submerged In this scientifically rigorous yet readily comprehensible account of the fascinating subject of vanished islands and hidden continents in the Pacific the author ranges far and wide from explanations of the region's ancient history to the meanings of island myths Using both original and up to date information he shows that there is real value in bringing together myths and the geological understanding of land movements A description of the Pacific Basin and the ups and downs of the land within its vast ocean is followed by chapters explaining how long before humans arrived in this part of the world islands and continents that no longer exist were once present A succinct account is given of human settlement of the region and the establishment of cultural contexts for the observation of occasional catastrophic earth surface changes and their encryption in folklore The author also addresses the persistent myths of a sunken continent in the Pacific which became widespread after European arrival and were subsequently incorporated into new age and pseudoscience explanations of our planet and its inhabitants Finally he presents original data and research on island

disappearances witnessed by humans recorded in oral and written traditions and judged by geoscience to be authentic. Examples are drawn from throughout the Pacific showing that not only have islands collapsed and even vanished within the past few hundred years but that they are also liable to do so in the future.

**Mana Moana** Robert Pouwhare, Carla Houkamau, 2025-01-01. From the arrival of Maori in Aotearoa to the present day, kaimoana has always been integral to Maori identity, a vital source of sustenance and mana for hapu and iwi, shaping the Maori economy and culture. *Mana Moana* chronicles Maori fisheries in Aotearoa, linking ancient purakau of Polynesian navigators to contemporary issues of sustainability and economic development. It introduces readers to pre-colonial fishing methods, inter-tribal trade routes, and accounts from early European explorers who marvelled at Maori fishing prowess, and then moves on to detail the enduring struggle for Maori fishing rights, the 1992 Treaty of Waitangi Fisheries Settlement, and the creation of Aotearoa Fisheries Limited, now Moana New Zealand. Owned by fifty-eight iwi shareholders, Moana New Zealand is a unique business guided by te ao Maori values and committed to both commercial success and sustainability. Weaving together history, matauranga, business, and politics, *Mana Moana* offers readers deep insight into Maori fisheries and the realisation of mana Maori within a large-scale commercial enterprise.

**Texts and Contexts** Doug Munro, Brij V. Lal, 2005-11-30. *Texts and Contexts* is concerned with the development of Pacific Islands history as a specialization in its own right. Specifically, this volume examines the foundational texts that pioneered and consolidated the new subdiscipline and served as the building blocks and stepping stone for further developments in the field. Thirty-five texts, all of which represent defining points in the development of Pacific Islands historiography, are examined. Much more than retrospective appraisals of the foundational texts, the individual chapters consider a text or complementary texts within the context of the time of writing and gauge what ongoing influence they exerted. In some cases, they suggest how a particular text has been superseded by subsequent work that breaks new conceptual ground in the ongoing process of revisionism. **Historical Dictionary of New Zealand** Janine Hayward, Richard Shaw, 2016-10-20. Diverse elements have created New Zealand's distinctive political and social culture. First is New Zealand's journey as a colony and the various impacts this had on settler and Maori society. The second theme is the quest for what one prominent historian has labelled national obsessions: equality and security, both individual and collective. The third and more recent theme is New Zealand's emergence as a nation with a unique identity.

New Zealand's small geographic size and relative isolation from other societies the dominant influence of British culture the resurgence of Maori language and culture the endemic instability of an economy based on a narrow range of pastoral products and the dominance of the state in the lives of its people all help to explain much of the present day New Zealand psyche This third edition of Historical Dictionary of New Zealand contains a chronology an introduction appendix and an extensive bibliography The dictionary section has over 800 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about New Zealand

**Astronomy Across Cultures** Helaine Selin, 2012-12-06 Astronomy Across Cultures A History of Non Western Astronomy consists of essays dealing with the astronomical knowledge and beliefs of cultures outside the United States and Europe In addition to articles surveying Islamic Chinese Native American Aboriginal Australian Polynesian Egyptian and Tibetan astronomy among others the book includes essays on Sky Tales and Why We Tell Them and Astronomy and Prehistory and Astronomy and Astrology The essays address the connections between science and culture and relate astronomical practices to the cultures which produced them Each essay is well illustrated and contains an extensive bibliography Because the geographic range is global the book fills a gap in both the history of science and in cultural studies It should find a place on the bookshelves of advanced undergraduate students graduate students and scholars as well as in libraries serving those groups

*The First Migration* Atholl Anderson, 2016-05-12 Thousands of years ago migrants from South China began the journey that took their descendants through the Pacific to the southernmost islands of Polynesia Atholl Anderson's ground breaking synthesis of research and tradition charts this epic journey of New Zealand's first human inhabitants Taken from the multi award winning Tangata Whenua An Illustrated History this Text weaves together evidence from numerous sources oral traditions archaeology genetics linguistics ethnography historical observations palaeoecology climate change and more The result is to people the ancient past to offer readers a sense of the lives of M ori ancestors as they voyaged through centuries toward the South Pacific

*Encounters: The Creation of New Zealand* Paul Moon, 2013-07-24 Throughout its human history New Zealand has been interpreted and experienced in often radically different ways Each wave of arrivals to its shores has left its own set of views of New Zealand on the country applying a new coat of mythology and understanding to the landscape usually without fully removing the one that lies beneath it Encounters is the wide ranging audacious and gripping story of New Zealand's changing national identity how it has emerged and evolved through generations In this genre busting book historian Paul Moon delves into how the many and conflicting ideas about New Zealand came into being Along the way he explores forgotten crevices of the nation's character and exposes some of the mythology of its past and present These include for example the earliest Maori myths and the mock sacredness of the All Blacks in the twenty first century the role of nostalgia in our national character both Maori and Pakeha whether the explorer Kupe existed the appeal of the Speight's Southern Man and ruminations on New Zealand art and

landscape What results is an absorbing piece of scholarship an imaginative and exuberant epic that will challenge preconceptions about what it means to be a New Zealander and how our country is understood Lyrical breathtaking and provocative and illustrated with artworks throughout Encounters offers an extraordinary insight into the beginnings of our country     **Whaikorero** Poia Rewi,2013-10-01 Based on in depth research and interviews with 30 tribal elders this guidebook to whaikorero or New Zealand s traditional Maori oratory is the first introduction to this fundamental art form Assessing whaikorero s origin history structure language and style of delivery this volume features a range of speech samples in Maori with English translations and captures the wisdom and experience of the Maori tribal groups including Ngai Tuhoe Ngati Awa Te Arawa and Waikato Maniapoto Informative and noteworthy this bilingual examination will interest both modern practitioners of whaikorero and Maori culture aficionados
