Language Online David Barton, Carmen Lee, 2025-10-30 In *Language Online* David Barton and Carmen Lee explore the evolving landscape of digital communication This extensively updated second edition reflects the latest research and developments addressing key contemporary issues such as online aggression digital activism and the growing impact of AI on human communication It also examines how digital communication has shaped and been shaped by global events like the COVID 19 pandemic and incorporates multimodal discourse With case studies from diverse geographical contexts languages and platforms the book illustrates how digital language practices vary across cultures This edition places greater emphasis on the intersection between online and offline communication highlighting how digital interactions are deeply integrated into everyday life Written in a clear and accessible style *Language Online* balances theory with practical analysis providing valuable insights into the relationship between language and digital technologies Complete with discussion topics and real world examples this is an essential read for students and scholars of new media literacy and multimodality in language and linguistics

Principles and Practice in Second Language Acquisition Stephen D. Krashen, 1982 The present volume examines the relationship between second language practice and what is known about the process of second language acquisition summarising the current state of second language acquisition theory drawing general conclusions about its application to methods and materials and describing what characteristics effective materials should have The author concludes that a solution to language teaching lies not so much in expensive equipment exotic new methods or sophisticated language analysis but rather in the full utilisation of the most important resources native speakers of the language in real communication

The Practice of Language M. Gustafsson, L. Hertzberg, 2002-06-30 This book shows that philosophers and linguists of quite different brands have tended to give undue priority to their own favorite theoretical framework and have presupposed that the descriptive scheme invoked by that framework constitutes a pattern to which any linguistic practice somehow has to conform United by a critical attitude towards such essentialist aspirations the authors collectively manage to cast doubt on the very attempt to fit the whole of linguistic practice into a general theoretical mould

The Developing Language Learner Dick Allwright, Judith Hanks, 2016-01-28 This book length treatment of Exploratory Practice introduces five propositions about learners as practitioners of learning who are capable of developing their expertise through conducting research in and on their own classroom learning lives

Restrictive Language Policy in Practice Amy J. Heineke, 2016-11-01 As the most restrictive language policy context in the United States Arizona's monolingual and prescriptive approach to teaching English learners continues to capture international attention More than five school years after initial implementation this study uses qualitative data from the individuals doing the policy work to provide a holistic picture of the complexities and intricacies of Arizona's language policy in practice Drawing on the varied perspectives of teachers leaders administrators teacher educators lawmakers and community activists the book examines the lived

experiences of those involved in Arizona's language policy on a daily basis highlighting the importance of local perspectives and experiences as well as the need to prepare and professionalize teachers of English learners English Language Skills Training. Theory and Practice Eddie Fisher, Jorge Luis Herrera Ochoa, Yoennis Diaz Moreno, 2014-01-13 Research Paper postgraduate from the year 2013 in the subject English Language and Literature Studies Linguistics grade N A Universidad de Oriente in Santiago de Cuba Faculty of Humanities course English Language language English abstract The ability to teach foreign languages effectively has become an increasingly important skill to develop and improve the language proficiency of students Teachers need to develop and apply proactive and positive attitudes to foster new levels of foreign language learning within their students Teaching on its own is not a panacea for success This paper investigates how teachers at the Universidad de Oriente UO in Santiago de Cuba search for and apply innovative ways of teaching foreign languages to their students within current boundaries The results from this research show that there is a positive relationship between the level of proficiency in a foreign language and the methods and approaches teachers apply to keep students motivated and interested in the subject matter The literature review from this study provided supportive evidence which was strengthened with insights from face to face interviews and a focus group meeting The outcomes confirmed that students who are exposed regularly to practical and diverse teaching methods are more likely to exceed the expected foreign language proficiency levels set by the University's quality standards **Postcolonial Challenges to Theory and Practice in ELT and TESOL** Hamza R'boul, 2023-08-11 Drawing on the underrepresentation of the Global South in global knowledge production with a focus on the existing inequalities the book highlights the importance of postcolonial narratives within Global Southern epistemologies in English language teaching ELT and Teaching English to Speakers of Other Languages TESOL Chapters consider the epistemological landscapes of these fields their dedication to English teaching and English related topics and the intersection of the colonality of language and the supremacy of English worldwide The book explores the type of discussion that is needed to advance a more nuanced understanding of sociopolitical circumstances and how they shape our academic practices and theorizations of ELT and TESOL In doing so chapters examine the current geopolitics of knowledge that are found in journal publishing citing how it favours the Global North and further exploring ways of decolonizing language practices teaching approaches and research cultures Calling for greater visibility and recognition of Southern ways of knowing within ELT and TESOL practice and research the book will be an essential reading for scholars researchers and students of TESOL ELT Applied Linguistics and multilingualism **Language in Late Capitalism** Alexandre Duchêne, Monica Heller, 2012-04-23 This book examines the ways in which our ideas about language and identity which used to be framed in national and political terms as a matter of rights and citizenship are increasingly recast in economic terms as a matter of added value It argues that this discursive shift is connected to specific characteristics of the globalized new economy in what can be thought of as late capitalism Through ten ethnographic case studies it demonstrates

the complex ways in which older nationalist ideologies which invest language with value as a source of pride get bound up with newer neoliberal ideologies which invest language with value as a source of profit The complex interaction between these modes of mobilizing linguistic resources challenges some of our ideas about globalization hinting that we are in a period of intensification of modernity in which the limits of the nation State are stretched but not yet undone At the same time this book argues this intensification also calls into question modernist ways of looking at language and identity requiring a more serious engagement with capitalism and how it constitutes symbolic including linguistic as well as material markets
