A History of Public Health George Rosen, 2015-04-01 George Rosen's wide ranging account of public health's long and fascinating history is an indispensable classic Since publication in 1958 George Rosen's classic book has been regarded as the essential international history of public health

Describing the development of public health in classical Greece imperial Rome England Europe the United States and elsewhere Rosen illuminates the lives and contributions of the field's great figures

He considers such community health problems as infectious disease water supply and sewage disposal maternal and child health nutrition and occupational disease and injury And he assesses the public health landscape of health education public health administration epidemiological theory communicable disease control medical care statistics public policy and medical geography

Rosen writing in the 1950s may have had good reason to believe that infectious diseases would soon be conquered But as Dr Pascal James Imperato writes in the new foreword to this edition infectious disease remains a grave threat

Globalization antibiotic resistance and the emergence of new pathogens and the reemergence of old ones have returned public health efforts to the basics preventing and controlling chronic and communicable diseases and shoring up public health infrastructures that provide potable water sewage disposal sanitary environments and safe food and drug supplies to populations around the globe

A revised introduction by Elizabeth Fee frames the book within the context of the historiography of public health past present and future and an updated bibliography by Edward T Morman includes significant books on public health history published between 1958 and 2014

For seasoned professionals as well as students A History of Public Health is visionary and essential reading

Community Public Health Nursing Practice helps you learn how to apply the nursing process at the community and family level. It features an engaging, easy-to-understand writing style as well as assessment tools, detailed case studies, and clinical examples that demonstrate how key concepts apply to real-world practice. Additional resources on the companion Evolve website expand and enhance content within the text. Practical features including Case Studies, Ethics in Practice, and The Nursing Process in Practice illustrate real-world applications of key community public health nursing concepts. A complete unit on the community as client helps you understand how the assessment, diagnosis, planning, intervention, and evaluation steps of the nursing process apply to the community as opposed to an individual. A chapter devoted to community assessment provides a complete assessment tool and shows you how the tool applies to two different types of communities. UNIQUE! A chapter on screening and referral promotes population-focused practice, which is the crux of community public health nursing. A separate unit on the family emphasizes the importance of viewing the family as a singular client. A complete discussion of the Minnesota Wheel helps you better understand this widely accepted framework for community public health nursing practice. Helpful sections such as Focus Questions, Chapter Outlines, Key Ideas, and Learning by Experience and Reflection help you pinpoint essential information. NEW! Healthy People 2020 objectives throughout the text help you identify common health risk factors in populations and families. NEW! Coverage of health care reform, including the Patient Protection and Affordable Care Act of 2010 (PPACA), explores how current health care legislation impacts community public health nursing. NEW! Discussions of community health hot button issues such as human trafficking, genital circumcision, and bullying introduce you to today's health care challenges. NEW! Information on weather-related disaster fatalities, bioterrorism, and national and state planning responses familiarize you with current relevant issues which affect the health of populations worldwide and shape the role of the community public health nurse.
