Spectacle Bruce Magnusson,Zahi Zalloua,2016-01-01 Global media and advances in technology have profoundly affected the way people experience events The essays in this volume explore the dimensions of contemporary spectacles from the Arab Spring to spectatorship in Hollywood Questioning the effects that spectacles have on their observers the authors ask Are viewers robbed of their autonomy transformed into depoliticized and passive consumers or rather are they drawn in to cohesive communities Does their participation in an event as audiences activists victims tourists and critics change and complicate the event itself Spectacle looks closely at the permeable boundaries between the reality and fiction of such events the methods of their construction and the implications of those methods

Opening NATO's Door Ronald D. Asmus,2004-08-11 How and why did NATO a Cold War military alliance created in 1949 to counter Stalin s USSR become the cornerstone of new security order for post Cold War Europe Why instead of retreating from Europe after communism s collapse did the U S launch the greatest expansion of the American commitment to the old continent in decades Written by a high level insider Opening NATO s Door provides a definitive account of the ideas politics and diplomacy that went into the historic decision to expand NATO to Central and Eastern Europe Drawing on the still classified archives of the U S Department of State Ronald D Asmus recounts how and why American policy makers against formidable odds at home and abroad expanded NATO as part of a broader strategy to overcome Europe s Cold War divide and to modernize the Alliance for a new era Asmus was one of the earliest advocates and intellectual architects of NATO enlargement to Central and Eastern Europe after the collapse of communism in the early 1990s and subsequently served as a top aide to Secretary of State Madeleine Albright and Deputy Secretary Strobe Talbott responsible for European security issues He was involved in the key negotiations that led to NATO s decision to extend invitations to Poland Hungary and the Czech Republic the signing of the NATO Russia Founding Act and finally the U S

Senate's ratification of enlargement. Asmus documents how the Clinton Administration sought to develop a rationale for a new NATO that would bind the U.S. and Europe together as closely in the post Cold War era as they had been during the fight against communism. For the Clinton Administration, NATO enlargement became the centerpiece of a broader agenda to modernize the U.S.-European strategic partnership for the future. That strategy reflected an American commitment to the spread of democracy and Western values, the importance attached to modernizing Washington's key alliances for an increasingly globalized world, and the fact that the Clinton Administration looked to Europe as America's natural partner in addressing the challenges of the twenty-first century. As the Alliance weighs its future following the September 11 terrorist attacks on the U.S. and prepares for a second round of enlargement, this book is required reading about the first post Cold War effort to modernize NATO for a new era.

Rethinking Revolutions from 1905 to 1934 Stefan Berger, Klaus Weinbauer, 2022-12-13. This edited collection offers a timely and original perspective on the many upheavals and revolutions that broke out across the world during the early twentieth century. With previous research tending to confine revolutions within national borders, this book sets out to place them within a broader global sphere of thought and action. The authors explore the time phase between the Russian Revolution of 1905 and the Asturian Revolution of 1934, including cases from South Africa, Australia, China, the Middle East, and Latin America. Providing insights from leading scholars in the field, this collection highlights the interconnectedness and transnationalism of upheavals and revolutions, offering a new approach which integrates political, social, and cultural history. Seizing the Square Daniel Palm, 2020-10-12. This book discusses global dynamics behind the synchronous outburst of protests in China and Germany in 1989 and the local acts of dissent on the squares comparatively. It breaks with the national timelines; protests in 1989 have so far been identified with and offers insights into the spatial manifestation of the global moment of 1989. Concluding on the importance of the Space-Time on the seized squares in 1989, it also discusses more recent protests forming on city squares. Offering a global perspective on a phenomenon that itself became global in the last decades, the book provides a view on globalization processes operating from below that puts the occupied space on city squares at the heart of interest.
