Cultural Encounters in Translated Children's Literature offers a detailed and innovative model of analysis for examining the complexities of translating children's literature and sheds light on the interpretive choices at work in moving texts from one culture to another The core of the study addresses the issue of how images of a nation locale or country are constructed in translated children's literature with the translation of Australian children's fiction into French serving as a case study Issues examined include the selection of books for translation the relationship between children's books and the national and international publishing industry the packaging of translations and the importance of titles blurbs and covers the linguistic and stylistic features specific to translating for children intertextual references the function of the translation in the target culture didactic and pedagogical aims euphemistic language and explicitation and literariness in translated texts The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback the antipodes the exotic the wild the unknown the void the end of the world the young and innocent nation and the Far West Contemporary signifiers that construct Australia as urban multicultural Aboriginal worldly and inharmonious are seriously under represented The study also shows that French translations are conventional conservative and didactic showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu especially through translated children's literature *Multilingualism, Citizenship, and Identity* Julie Byrd Clark, 2009-01-01

Lawry,2011-04-05 This book is about learning the phrases and sentences and getting to grips with saying the language without going into the grammar first In that way you can have fun in learning how to say certain things and also you do not come up against stumbling blocks and frustrations The idea behind this thinking was because when I was a child my parents used to tell me words before they taught me how to do the alphabet so I thought that was a better way round get used to the language first I wrote this book to how I thought the student of the language could assimilate and understand it and get a basic grounding of the language I thought to myself what was the best thing to learn first for instance what the difference between masculine and feminine what does the accent mean so I put this information in the chapter header pages so then I could use more space to actually learning the language I have also put in a conceptual stage so then you can think about the language for instance English has quite a few routes to it like Latin so quite a few words are very similar even though the accent can throw us off It sounds like proper English for instance catgorie which means category in French which is nearly the same in English I believe there is no right or wrong way to learn it depends on what you want it for you may want to practise it on holiday or you may want to read the French newspapers so sometimes you do not necessarily have to learn the alphabet or the grammar I like to read newspapers on holiday and watch films in French that is why I wanted to learn it I hope you enjoy this book as much as I have in writing it Affaires de famille ,2007-01-01 Famille je vous ai encore et

Trouille, 2014-05-05 Set in Paris in the 1780s Rétif de la Bretonne's *Ingénue Saxancour* is a thinly veiled account of his daughter's disastrous marriage to an abusive husband From the time of her marriage in January 1780 until she left her husband in July 1785 Agnès Rétif suffered continually from severe physical sexual and emotional abuse Published in 1789 Rétif's novel scandalized the public with its graphic descriptions of his son-in-law's sexual perversity and brutal violence Rétif's novel remains shocking more than two centuries later and continues to raise disturbing questions about power relations within abusive relationships Perhaps most disturbing of all are the accusations leveled against Rétif himself concerning his motives for writing and publishing this account Was he as some charged a shameless exhibitionist willing to reveal his family's darkest secrets merely to attract attention and broaden his readership Was he an unscrupulous opportunist willing to capitalize on his daughter's misfortunes and risk her reputation simply to pay his debts Or was he as he himself claimed trying to warn young women about the dangers of marrying men of dubious backgrounds against their parents' wishes Rétif was all this and more a reform-minded pioneer far in advance of his time with his graphic portrayal of spousal abuse his call for greater public awareness of this perennial problem and his crusade for liberal divorce laws that would allow women to escape from abusive relationships and to remarry This in fact is what Agnès Rétif was able to do after passage of the divorce law passed by France's revolutionary government in 1792
