Twenty one Chicana scholars and writers create theory through fiction performance and essays They address the secrets inequities and issues they all confront in their daily negotiations with a system that often seeks to subvert their very existence They have to struggle daily not only with the racism that pervades our lives but also with the overwhelming male domination of the macho Chicano and Mexican culture *Amalia Mesa-Bains* Laura E. Arts & Humanities Citation Index , 1998 More Than Mexica: Explaining the Emphasis of Aztec Symbolism in Chicano Art Sarah Samantha Salcido, 2021 More Than Mexica Explaining the Emphasis of Aztec Symbolism in Chicano Art will examine how Aztec culture and iconography has been incorporated throughout the history of Chicano art It delves into how Chicano art with Mexica influence evolved as well as the symbolism that has been used to represent indigenous chicanismo There will be some discussion about Chicano culture and how it tends to create its own narrative such as claiming that all Mexicans are inherently Aztec when in fact that is far from the truth Though the reclaiming of indigenous ancestry is important it is just as important that history be told with as much accuracy as possible This is in no way a harsh criticism of the Chicano movement nor of how its art focused primarily on the Mexica culture when it came to indigenous groups rather this is an exploration of how it came to be that way and in the hopes of expanding the knowledge of other indigenous groups of Mexico past and present Simultaneously More Than Mexica celebrates the way Chicanos used art and activism to create a space of their own in a world that has tried to silence and remove their voices Mexico's Art & Chicano Artists Raymond

Barrio,1975 *Mesoamerican Deities in Public Art of Southern California* Emily Silver,2016 This thesis will explore the connection that contemporary Chicano murals have to Mesoamerican deities and how the Mexican Muralist movement serves as a bridge between the two I will prove that modern murals serve as archaeological monuments in the Chicano and Mexican communities and how they are a cultural legacy I will discuss the Aztec belief system highlighting key deities such as Quetzalcoatl Coatlicue and Xochipilli I will then discuss los tres grandes Jose Clemente Orozco Diego Rivera and David Alfaro Siqueiros of Mexican Muralism and explain how the revolutionary themes in their work draw upon larger issues of the Mexican consciousness I will also highlight each artist s interest in indigenous themes and how that contributed to the creation of the Mexican identity Finally I will use three examples of Chicano murals in Southern California to show how Aztec deities are a continuous theme in murals today *Constructing Power and Place in Mesoamerica* Merideth Paxton,Leticia Staines Cicero,2017-12-15 Identities of power and place as expressed in paintings from the periods before and after the Spanish conquest of Mesoamerica are the subject of this book of case studies from Central Mexico Oaxaca and the Maya area These sophisticated skillfully rendered images occur with architecture in manuscripts on large pieces of cloth and on ceramics **The Influence and Contributions of Mesoamerican Iconography Within a Gamut of Works of Art: El Nacimiento Del Arte Neo-Tequitqui** Saul Aguilera,2019 The research allows the reader to survey and analyze various Mesoamerican works such as but not limited to paintings murals and sculptures Hence creations which we have learn to call works of art Additionally the research reinforces the artistic contributions which derive from creators and artists between the Mesoamerican period up until the Chicano art movement Thus the works of art created throughout the scope of a Mexican based art history allow the reader to comprehend the ideologies and customs identified through the evolution of methodologies techniques and media selection Granting inspiring artistic generations the ability and opportunity to apply these methods within their artworks Allowing the reader to comprehend how and why contemporary artists continue to employ Mesoamerican iconography and symbolisms within their works of arts Finally the thesis presents the next generation of artists and the birth of a new artistic movement which I have named Neo Tequitqui and its ability to koeg zist coexist in our lifetime Moctezuma's Table Norma E. Cantú,2010 **Mexican Art & Culture** Elizabeth Lewis,2003-09 How is the Day of the Dead celebrated What effect did politics have on twentieth century painting How do you weave with a backstrap loom Arts and crafts offer a window into Mexican culture reflecting its history technology beliefs and every day life Every piece of Mexican art tells us something about the environment and the culture it was developed in so that we can see how and why people make their art Artists and Craftsmen in Ancient Central America George Clapp Vaillant,1935 Sacred Consumption Elizabeth Morán,2016-12-06 Making a foundational contribution to Mesoamerican studies this book explores Aztec painted manuscripts and sculptures as well as indigenous and colonial Spanish texts to offer the first integrated study of food and ritual in Aztec art Aztec painted manuscripts and sculptural works as well as indigenous and Spanish sixteenth

century texts were filled with images of foodstuffs and food processing and consumption Both gods and humans were depicted feasting and food and eating clearly played a pervasive integral role in Aztec rituals Basic foods were transformed into sacred elements within particular rituals while food in turn gave meaning to the ritual performance This pioneering book offers the first integrated study of food and ritual in Aztec art Elizabeth Mor n asserts that while feasting and consumption are often seen as a secondary aspect of ritual performance a close examination of images of food rites in Aztec ceremonies demonstrates that the presence or in some cases the absence of food in the rituals gave them significance She traces the ritual use of food from the beginning of Aztec mythic history through contact with Europeans demonstrating how food and ritual activity the everyday and the sacred blended in ceremonies that ranged from observances of births marriages and deaths to sacrificial offerings of human hearts and blood to feed the gods and maintain the cosmic order Mor n also briefly considers continuities in the use of pre Hispanic foods in the daily life and ritual practices of contemporary Mexico Bringing together two domains that have previously been studied in isolation Sacred Consumption promises to be a foundational work in Mesoamerican studies

We Live in Painting: The Nature of Color in Mesoamerican Art Diana Magaloni, 2024-09-17 Groundbreaking exploration of ancient techniques and cosmologies of color in Mesoamerica Ancient Mesoamerican artists held a cosmic responsibility As they used color to adorn buildings clay vessels textiles bark paper pages sculptures textiles wall murals mosaics and other items they quite literally made the world The power of color emerged from the materiality of its pigments and the communities whose knowledge of the natural world imbued it with meaning Histories of colonialism and industrialization in the color averse West have minimized the profound significance of color in the Indigenous Americas We Live in Painting provides an in depth exploration of the science and art of color in Mesoamerica This lavishly illustrated catalog published as part of the PST ART series follows two interconnected lines of inquiry technical and material analyses and Indigenous conceptions of art and image to reach the full richness of color at the core of historical and contemporary Mesoamerican worldviews
