**The History and Political Transition of Zimbabwe** Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis. Its focus is on a very problematic political culture that is proving very hard to transcend. At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti-colonial liberation struggle in the 1970s. Inevitably, violence, misogyny, and masculinity are constitutive of the political culture. Economically speaking, the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self-styled Chimurenga aristocracy. However, this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe's ousting from power was preceded by dirty and protracted internal factionalism. At the center of the factional politics was the first family, Robert Mugabe and his wife Grace Mugabe. This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe, taking seriously such issues as gender, misogyny, militarism, violence, media, identity, modes of accumulation, the ethnicization of politics, attempts to open lines of credit and FDI, national healing, and the national question as key variables, not only of a complete political culture but also of difficult transitional politics.

**Political Culture and Post-Communism** S. Whitefield, 2005-10-11 Our understanding of the dynamics of Communist systems was substantially improved by taking political culture into account. The book's contributors engage with theoretical debates between political culture and competing rational choice and institutionalist approaches to post-Soviet politics and provide illustrative empirical studies of civic participation, views of national identity, the Russian criminal justice system, and political violence.
