Women and Politics Julie Dolan, Melissa M. Deckman, Michele L. Swers, Paru Shah, 2025-08-26 Women and Politics Paths to Power and Political Influence examines the role of women in politics from the early women's movement to the female politicians in power today Focusing on women whose stories have not yet been told this book includes new analysis and scholarship on the experiences and viewpoints of conservative women women of color LGBT women and millennial women Students will gain historical insight into how women have achieved political power and how they have influenced the American political system at the state local and national levels in each branch of government Engaging profiles of the key players who have shaped our political system are interwoven with an analysis of the most recent election data to provide a comprehensive and unbiased introduction to the study of women and politics Women in Government New York State Library. Reference Services, 1992 Women and Elective Office Sue Thomas, Clyde Wilcox, 2014-01-02 This edition of Women and Elective Office offers the latest research on women as candidates and officeholders It provides a comprehensive look at at the history and status of women in elective office their prospects for the future and why women in elected office matter to American democracy It features all new essays and up to the minute research by leading experts in the field including the latest political trends and events such as Hillary Rodham Clinton s run for the presidency women s representation on the state and local level the diversity of women officeholders experiences and circumstances and female judges Women and Elective Office is an essential guide to understanding the past present and future of women in all White Political Women Diane L. Fowlkes, 1992 echelons of government A Woman's Place Is in the House Barbara Burrell,2010-05-07 In this first comprehensive examination of women candidates for the U S House of Representatives Barbara Burrell argues that women are as successful at winning elections as men Why then are there still so few women members of Congress Compared to other democratically elected national parliaments the U S Congress ranks very low in its proportion of women members During the past decade even though more and more women have participated in state and local governments they have not made the same gains at the national level A Woman's Place Is in the House examines the experiences of the women who have run for a seat in the U S House of Representatives from 1968 through 1992 and compares their presence and performance with that of male candidates The longitudinal study examines both general and primary elections and refutes many myths associated with women candidates including their ability to raise money and garner support from both interest groups and political parties According to Burrell election year 1992 was correctly dubbed the Year of the Woman in American politics not so much because women overcame perceived barriers to being elected but because for the first time a significant number of women chose to run in primaries Burrell's study examines the effects women are having on the congressional agenda and offers insight on how such issues as term limitations and campaign finance reform will impact on the election of women to Congress Barbara Burrell Ph D University of Michigan is professor

In the decades since Latinas began to hold public office in the United States in the late 1950s they have blazed new trails in public life bringing fresh perspectives leadership styles and policy agendas to the business of governing cities counties states and the nation As of 2004 Latinas occupied 27 4 percent of the more than 6 000 elected and appointed local state and national positions filled by Hispanic officeholders The greatest number of these Latina officeholders reside in Texas where nearly six hundred women occupy posts from municipal offices school boards and county offices to seats in the Texas House and Senate In this book five Latina political scientists profile the women who have been the first Latinas to hold key elected and appointed positions in Texas government Through interviews with each woman or her associates the authors explore and theorize about Latina officeholders political socialization decision to run for office and obstacles overcome leadership style and representational roles and advocacy The profiles begin with Irma Rangel the first Latina elected to the Texas House of Representatives and Judith Zaffirini and Leticia Van de Putte the only two Latinas to serve in the Texas Senate The authors also interview Lena Guerrero the first and only Latina to serve in a statewide office judges Linda Yanes Alma Lopez Elma Salinas Ender Mary Roman and Alicia Chac n mayors Blanca Sanchez Vela Brownsville Betty Flores Laredo and Olivia Serna Crystal City and Latina city councilwomen from San Antonio El Paso Dallas Houston and Laredo Women, Elections, & Representation Robert Darcy, 1994-01-01 The first women representatives in the United States were elected in 1894 when Colorado votes sent three women to the state legislature Now a century later women almost everywhere are the majority of voters but a distinct minority of elected officials This discrepancy is a puzzle for those who thought democratic institutions would incorporate newly enfranchised women and a problem for those working to expand democratic representation Darcy Welch and Clark examine women candidates and candidacies in the United States and several other democratic nations Their careful analysis reveals that male voters and political elites are not the barriers to women s election that common wisdom suggests Instead they find that a party s ability to determine candidate selection along with election procedures that benefit incumbents produces slow turnover of elected officials and few opportunities for new women candidates In addition the authors analyze nomination procedures and election systems to document both the conditions that lead political parties to nominate more women and the mechanisms that yield more victories by women candidates Women Elections and Representation is an extensively revised and expanded edition of a successful text that provides a thorough and up to date

They are the product of a large coordinated research project sponsored by the Center for American Women and Politics CAWP at Rutgers University and funded by the Charles H Revson Foundation The subjects of these studies range from a single very prominent U S Senator who served in Congress from the early 1940s to the early 1970s to local council members in a New Jersey county in the 1980s They include state legislators from across the country The research presented in this volume offers compelling evidence that women public officials do have a gender related impact on public policy and the political process Nevertheless context matters these studies demonstrate that the impact of women public officials varies considerably across political environments Finally the research in this volume suggests that identification with feminism and or of particular racial or ethnic group also influence how and to what extent women public officials are making a difference Contributors include Edith J Barrett Susan Abrams Beck Janet K Boles Susan J Carroll Debra L Dodson Lyn Kathlene Elaine Martin Nancy E McGlen Meredith Reid Sarkees Janann Sherman Sue Thomas Sue Tolleson Rinehart and Susan Welch Women's Political Voice Janet A.
