Hunter, David

Saunders, 2002-06-19 In *Natural Law and Civil Sovereignty* new research by leading international scholars is brought to bear on a single crucial issue the role of early modern natural law doctrines in reconstructing the relations between moral right and civil authority in the face of profound religious and political conflict In addition to providing fresh insights into the hard fought struggle to legitimate a desacralised civil order the book also shows the degree to which the legitimacy of the modern secular state remains dependent on this decisive set of developments *Instrumental Data for Drug Analysis, Second*

Lockean Tradition Halil Ibrahim Canbegi investigates the inherent inconsistencies of Islamic liberalism by examining the philosophical and theological foundations of both liberalism and Islam Canbegi draws on Lockean liberalism asserting that John Locke s emerging liberalism is deeply rooted in theological concepts such as covenant theology natural law and the distinctive nature of Christianity itself In contrast the author argues that Islam lacks the necessary theological and intellectual framework to develop a coherent version of liberalism often termed Islamic liberalism Canbegi maintains that this concept merely represents a superficial juxtaposition of Islam and liberalism rather than a genuine synthesis Ultimately

the author concludes that Islamic liberalism is merely a heterogeneous amalgamation of Islamic and liberal ideas which do not combine into a unified whole This critical analysis challenges prevailing notions and invites readers to reconsider the complex relationship between these two influential systems of thought     Rousseau: The Discourses and Other Early Political Writings Jean-Jacques Rousseau,2019 Discourse on the sciences and arts or First discourse Discourse on the origin and foundations of inequality among men or Second discourse Rousseau s notes Letter to Voltaire Essay on the origin of languages Idea of the method in the composition of a book Discourse on the virtue a hero most needs or On heroic virtue

*Making Migration Law* Eve Lester,2018-03-22 The emergence of international human rights law and the end of the White Australia immigration policy were events of great historical moment Yet they were not harbingers of a new dawn in migration law This book argues that this is because migration law in Australia is best understood as part of a longer jurisprudential tradition in which certain political economic interests have shaped the relationship between the foreigner and the sovereign Eve Lester explores how this relationship has been wrought by a political economic desire to regulate race and labour a desire that has produced the claim that there exists an absolute sovereign right to exclude or condition the entry and stay of foreigners Lester calls this putative right a discourse of absolute sovereignty She argues that absolute sovereignty talk continues to be a driver of migration lawmaking shaping the foreigner sovereign relation and making thinkable some of the world s harshest asylum policies     Classics of American Political and Constitutional Thought, Volume 1 Scott J.
