**Turkey and the Politics of National Identity** Shane Brennan, Marc Herzog, 2014-09-19 In the first decade of the twenty first century Turkey experienced an extraordinary set of transformations In 2001 in the midst of financial difficulties the country was under IMF stewardship yet it has recently emerged as one of the fastest growing economies in the world And on the international stage Turkey has managed to enhance its position from being a backseat NATO member and outside candidate for EU membership to being an influential regional power determining and developing its own individual foreign policy Shane Brennan and Marc Herzog explore how these and other changes have shaped the way people in Turkey perceive themselves and how the country's self image shapes its actions In the modern age the sovereign nation state still continues to be one of the basic building blocks of social or political identity The Turkish Republic founded in 1923 is a good example In weaving together and selecting certain elements of memory myth tradition and symbols the narratives of national identity in Turkey have been to a large extent socially constructed This volume offers analysis of the ways in which these narratives have been created maintained and negotiated and how current economic and political interests have been incorporated into the construction of a modern identity External forces such as those of cultural and economic globalisation have also been influential agents in this process As a result the space and opportunity for social and cultural expression has increasingly widened while alternative identities and life style choices at both the collective and individual levels have also become more visible Bearing this in mind this book examines issues such as those of alternative gender identity and sexual orientation formerly taboo issues Through different approaches engaging with politics economy society culture and history *Turkey and the Politics of National Identity* offers new perspectives on the transformation of national identity in this increasingly influential country in the Middle East

*The Rise of Political Islam in Turkey* Angel Rabasa, F. Stephen Larabee, 2008 As a Muslim majority country that is also a secular democratic state a member of NATO a candidate for membership in the European Union a long

standing U S ally and the host of Incirlik Air Base a key hub for logistical support missions in Afghanistan and Iraq Turkey is pivotal to U S and Western security interests in a critical area of the world It also provides an example of the coexistence of Islam with secular democracy globalization and modernity However having a ruling party with Islamic roots the Justice and Development Party AKP within a framework of strict secularism has generated controversy over the boundaries between secularity and religion in the public sphere leading to parliamentary elections along with a new mandate for the party in July 2007 This monograph describes the politico religious landscape in Turkey and the relationship between the state and religion and it evaluates how the balance between secular and religious forces and between the Kemalist elites and new emerging social groups has changed over the past decade The study also assesses the new challenges and opportunities for U S policy in the changed Turkish political environment and identifies specific actions the United States may take to advance the U S interest in a stable democratic and friendly Turkey and more broadly in the worldwide dissemination of liberal and pluralistic interpretations of Islam

**The Kurds and the Politics of Turkey** Deniz Çifçi, 2019-08-08 The Kurds constitute the largest stateless nation in the world Their position in Turkey attracts attention both within the country and internationally particularly focusing on the demand for Kurdish independence Yet since the 1990s new Kurdish parties have formed within Turkey who have a variety of ideologies and demands that go beyond and differ in opinion on the question of independence Much of the present literature on the topic looks at the Kurds of Turkey as a homogenous group with unified political demands which over simplifies their position within the political backdrop of Turkey This book seeks to provide nuance and depth to the current debate on Kurdish political agency and presence in Turkey Presently the Kurds political demands can be classified into four categories democratic autonomy their cultural rights to be granted federalism territorial autonomies and independence creation of a Kurdish nation state In a broad sense these models can also be ordered into two categories territorial political models federalism and independence and non territorial political models democratic autonomy and cultural rights Considering the diversity within the Kurdish community intertwinement of tribal ethnic and national identity and differences in their language religion and ideology there are several contributing factors for the emergence of the current varied political demands of Kurds By explaining variation among the Kurds political demands through close analysis of existing at emerging parties this study challenges a deterministic approach to the Kurds which currently dominates the discourse

*The Politics of the Female Body in Contemporary Turkey* Hilal Alkan, Ayse Dayi, Sezin Topçu, Betül Yazar, 2021-05-20 In Turkey the Justice and Development Party government has introduced new regulations about reproductive rights and shifted family and gender policies Women s central role in reproductive and domestic work

was swiftly reaffirmed and abortion and IVF were newly debated Taking Turkey as the case study this is the first book to examine the various ways neoliberal modes of governing women's bodies interact with conservative and authoritarian measures The contributions focus on reproduction maternity and sexuality to explore the three main areas of governmental interventions into the female body Topics for discussion include the expansion of IVF and egg markets the privatization of gynaecological and obstetrical care differential treatment of poor and ethnic minority women's fertility sexuality and women's multiple responses to these shifts While focusing on Turkey the book presents analytical tools applicable under rising authoritarianisms and conservatism worldwide

Decentralization in Turkey Galip Emre Yıldırım, 2025-05-13 This book explores the political dimensions of decentralization and re-centralization policies in Turkey over the past century It traces the evolution of these policies from the late Ottoman Empire's decentralization efforts in the late 19th century to the centralization under the Kemalist regime in the early 20th century followed by the limited decentralization of the 1960s and 1980s and the decentralization and recentralization policies of the Erdoğan governments over the past two decades The book seeks to answer why and how decentralization efforts have repeatedly failed in Turkey What sets this work apart is its innovative theoretical and empirical approach to Turkish politics By framing decentralization as a political rather than a technical issue the book draws on historical institutionalism bringing the state back in theory and path dependency to offer fresh insights It also presents a wealth of empirical data based on archival research from French and Turkish sources as well as interviews with Turkish local actors On a broader scale the book helps readers understand a key paradox in Turkish politics how ruling elites use centralization as a policy tool while also pursuing limited decentralization Bringing together a variety of theoretical and empirical perspectives this work will be of great interest to students and scholars of Turkish studies and serves as a strong example of area studies research
