**Ecology in Jurgen Moltmann's Theology** Celia E. Deane-Drummond, 2016-09-01 This book offers a critical and constructive analysis of the contribution of Jurgen Moltmann to the field of ecotheology Moltmann is one of the foremost and influential contemporary theologians of our time but his specific contribution to ecotheology has received relatively scant attention in the secondary literature The author deals sensitively with the relevant scientific aspects necessary in order to develop an adequate theology of the natural world She also offers a careful and constructive analysis of the specific systematic theologies of creation humanity eschatology and Trinity that are woven into Moltmann's rich interpretation of the relationship between God and creation

**The Faith That Does Justice** John C. Haughey, 2006-02-10 The essays in this volume address a closely interconnected set of questions To be true to its mission what function is the Church meant to perform What does the faith of Christians contribute to the human perception of justice What is the theological significance of action undertaken by Christians for political or social transformation Is justice to be looked on as one of the moral virtues that it is incumbent on Christians to practice or has it a more intrinsic link to the gift of faith which Christians have received Does the following of Christ call Christians away from social systems into the new creation or is the call extended to them to concern themselves with the social systems which shape human beings from the Foreword Contributors include Avery Dulles William Dych John Donahue John Langan David Hollenbach Richard Roach William Walsh

*Doxology: A Systematic Theology* Geoffrey Wainwright, 1984 Described by the author as A systematic theology from a liturgical perspective or a theology of worship

*The Sacrifice of Africa* Emmanuel Katongole, 2011 In *The Sacrifice of Africa* Emmanuel Katongole confronts this painful legacy and shows how it continues to warp the imaginative landscape of African politics and society He demonstrates the real

potential of Christianity to interrupt and transform entrenched political imaginations and create a different story for Africa a story of self sacrificing love that values human dignity and dares to invent a new and better future for all Africans **From Misery to Hope** Joe Egan,2010 How can one believe in a God of love amid all the evil and suffering found in the world How does one do theology after Auschwitz while vast numbers of people still have to endure violent oppression every day This book seeks to address such questions from a standpoint informed by life in Africa which in the face of extraordinary difficulties bears witness to Gospel hope by demonstrating forgiveness in action and promoting reconciliation The work unfolds in two parts In the first part a description of the misery that characterises much of life in Africa in the recent past opens up to a theological consideration of the underlying causes and of God s response to them In the second part the joy which is so characteristic of life in Africa even in places of immense suffering sets the scene for detailed reflections on liturgy memory forgiveness and hope The Oxford Handbook of Catholic Theology Lewis Ayres,Medi Ann Volpe,2019-03-28 The Oxford Handbook of Catholic Theology provides a one volume introduction to all the major aspects of Catholic theology Part One considers the nature of theological thinking and the major topics of Catholic teaching including the Triune God the Creation and the mission of the Incarnate Word It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching The treatments in the first part of the Handbook offer personal syntheses of Catholic teaching but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation Part Two focuses on the historical development of Catholic Theology An initial section offers essays on some of Catholic theology s most important sources between 200 and 1870 and the final section of the collection considers all the main movements and developments in Catholic theology across the world since 1870 This comprehensive volume features fifty six original contributions by some of the best known names in current Catholic theology from the Americas Europe Asia and Africa The chapters are written in an engaging and easily comprehensible style functioning both as a scholarly reference and as a survey of the field There are no comparable studies available in one volume and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts *Vatican II* Matthew L Lamb,Matthew Levering,2008-04-30 From 1962 to 1965 in perhaps the most important religious event of the twentieth century the Second Vatican Council met to plot a course for the future of the Roman Catholic Church After thousands of speeches resolutions and votes the Council issued sixteen official documents on topics ranging from divine revelation to relations with non Christians In many ways though the real challenges began after the council was over and Catholics began to argue over the interpretation of the documents Many analysts perceived the Council s far reaching changes as breaks with Church tradition and soon this became the dominant bias in the American and other media which lacked the theological background to approach the documents on their own terms In *Vatican II Renewal Within Tradition* an international team of theologians offers a different reading of the documents from Vatican II The Council was indeed putting forth a vision for the

future of the Church but that vision was grounded in two millennia of tradition Taken together these essays demonstrate that Vatican II s documents are a development from an established antecedent in the Roman Catholic Church Each chapter contextualizes Vatican II teachings within that rich tradition The resulting book is an indispensable and accessible companion to the Council s developments one that focuses on theology and transcends the mass media storyline of liberal versus conservative

**Context and Text** Kevin W. Irwin,2018-07-12 One of the most influential works in the debate over the concept and definitions of liturgical theology Context and Text by Monsignor Kevin W Irwin is now available in a completely rewritten new edition In light of the historical theological and pastoral mandates of the Constitution on the Sacred Liturgy Context and Text is both a proposal for and an example of an investigation of the Church s liturgical praxis from a liturgical theological perspective This second edition which includes an expanded introduction covers new liturgical and ecclesial contexts resulting from newly promulgated liturgies further research in methodfor liturgical studies consideration for changes in the cultural contexts in which people celebrate the liturgy Besides brand new chapters on time and sacramentality and additions to the chapter on the arts this edition also considers the ongoing texts and contexts of the liturgy as always a new event in the life and ongoing discussion of liturgical theology within Christianity

**True Reform** Massimo Faggioli,2012 In True Reform Massimo Faggioli takes Sacrosanctum Concilium as an interpretive key to the Second Vatican Council He offers a thorough reflection on the relationship between the liturgical constitution and the whole achievement of Vatican II and argues that the interconnections between the two must emerge if we want to understand the impact of the council on global Catholicism
