course of writing this book they show that the social services of the Soviet Union are as good as and in some ways more comprehensive than those of Western Europe Equally important is their conclusion that a society in which the means of production and distribution are nationalised and which makes a full provision of social services is not necessarily a socialist society This book will appeal to students of sociology political science and area studies Penguin Books and political change Dean Blackburn, 2020-11-12 Founded in 1935 by a young publisher disillusioned with the class prejudices of the interwar publishing trade Penguin Books set out to make good books available to all The Penguin Specials a series of current affairs books authored by leading intellectuals and politicians embodied its democratising mission Published over fifty years and often selling in vast quantities these inexpensive paperbacks helped to shape popular ideas about subjects as varied as the welfare state homelessness social class and environmental decay Using the Specials as a lens through which to view Britain's changing political landscape Dean Blackburn tells a story about the ideas that shaped post war Britain Between the late 1930s and the mid 1980s Blackburn argues Britain witnessed the emergence and eclipse of a meritocratic moment at the core of which was the belief that a strong relationship between merit and reward would bring about social stability and economic efficiency Equal opportunity and professional expertise values embodied by the egalitarian aspirations of Penguin's publishing ethos would be the drivers of social and economic progress But as the social and economic crises of the 1970s took root many contemporary thinkers and politicians cast doubt on the assumptions that informed meritocratic logic Britain's meritocratic moment had passed The Soviet Legacy in Central Asia J. Glenn, 1999-08-05 This book analyses the new pattern of security concerns of the Central Asian successor states This region is said to encompass Kazakhstan Uzbekistan Tadjikistan Kirghizstan and Turkmenistan The main contention of the book is that the security problems of these states are similar to those that faced other Third World countries after they attained independence That is due to the arbitrary creation of these states by external powers they lack a certain degree of societal cohesiveness arising from the fact that several ethnic communities reside within their borders It is this so called insecurity dilemma of each of the Central Asian states that is therefore examined **Western Perspectives on Soviet Education in the 1980s** J.J.
