The Oxford Handbook of Political Institutions R. A. W. Rhodes, Sarah A. Binder, Bert A. Rockman, 2008-06-12 The study of political institutions is among the founding pillars of political science With the rise of the new institutionalism the study of institutions has returned to its place in the sun This volume provides a comprehensive survey of where we are in the study of political institutions covering both the traditional concerns of political science with constitutions federalism and bureaucracy and more recent interest in theory and the constructed nature of institutions The *Oxford Handbook of Political Institutions* draws together a galaxy of distinguished contributors drawn from leading universities across the world Authoritative reviews of the literature and assessments of future research directions will help to set the research agenda for the next decade

Handbook of Fiscal Federalism E. Ahmad, 2006 This volume provides comprehensive coverage of fiscal federalism by some of the leading scholars in the field This *Handbook* is an excellent addition to the present discourse on the role of the state in fiscal matters This reviewer would recommend this book as a required text for a graduate or senior class on public finance or economic development Researchers in economic development public finance and fiscal policy likewise would find this volume useful Highly recommended Upper division undergraduate through professional collections J Raman Choice This

major Handbook addresses fiscal relations between different levels of government under the general rubric of fiscal federalism providing a review of the latest literature as well as an invaluable guide for practitioners and policy makers seeking informed policy options The contributors include leading lights in the field many of whom have themselves made seminal contributions to the literature Comprehensive and wide in coverage the issues covered range from federal systems to other forms of intergovernmental relations such as supra national constructs namely the European Union unitary states regional systems and more decentralized operations including community level organizations The political economy approach emphasizes the importance of institutional arrangements including the legal political and administrative aspects and information flows to ensure that there are appropriate incentives and sanctions to generate good governance This Handbook also devotes attention to emerging issues such as environmental protection the sharing of natural resources among levels of government corruption and the impact of federalism and decentralization on national unity It will be a vital reference tool for the area for many years to come The Oxford Handbook of State and Local Government Donald P.

Haider-Markel,2014-04-03 The Oxford Handbook of State and Local Government is an historic undertaking It contains a wide range of essays that define the important questions in the field evaluate where we are in answering them and set the direction and terms of discourse for future work The Handbook will have a substantial influence in defining the field for years to come The chapters critically assess both the key works of state and local politics literature and the ways in which the sub field has developed It covers the main areas of study in subnational politics by exploring the central contributions to the comparative study of institutions behavior and policy in the American context Each chapter outlines an agenda for future research **Federalism in Asia** Baogang He,Brian Galligan,Takashi Inoguchi,2009-01-01 This book is a collection of 13

articles which grew out of a workshop on federalism and democratisation in Asia But unlike a great many of the publications which have their origins in conferences this volume has a clear theme running through its contributions almost all of which are excellent The individual country studies are highly informative most making imaginative use of the country's history and current politics to illustrate the theme of the tension between nationalising centralisation and pressures for regional decentralisation Many of these chapters have innovative conclusions about ways in which this tension can be understood this is a serious book very well produced and indexed Its chapters are well written with useful notes and lists of references The volume will be of great interest to specialists on the countries concerned and has much to offer for anyone with an interest in federalism and the relationship between regionalism and democratisation Campbell Sharman The Australian Journal of Public Administration Federalism in Asia provides a valuable resource both for scholars of Asia in general and for political theorists of federalism In an academic climate where edited volumes are often assumed to be a lightweight option Federalism in Asia demonstrates how rewarding this form of publication can be Graham K Brown Political Studies Review Until now there have been few attempts to examine the different models of federalism appropriate in Asia let alone to trace the extent to which

these different perspectives are compatible converging or mutually influencing each other This book redresses the balance by demonstrating the varieties of Asian federalism Federalism in Asia explores the range of theoretical perspectives that shape debates over federalism in general and over territorial multinational hybrid and asymmetric federalism in particular relation to Asia The contributors share their understanding of how federal or quasi federal institutions manage ethnic conflicts and accommodate differences how democratization facilitates the development of federalism and how federalism facilitates or inhibits democratization in Asia Their conclusion is that hybrid federalism or quasi federalism is more prevalent in some Asian countries than others and the need and potential for greater federalism in more Asian countries makes this sortie into this area worthwhile While federalism is relevant to Asia the working pattern of Asian federalism does not necessarily follow a Western style Hybrid federal institutional design can be seen as an Asian strategy of managing ethnic conflicts through federal arrangements This unique book will be of great interest to a wide range of scholars and researchers who work on issues of federalism political economy public policy ethnic relations cultural diversity and democratization in the Asian region Policymakers and activists dealing with issues of minority rights and ethnic conflict in the region government officials and NGOs within Asia and officials in international agencies and organizations will also find much to engage them

Globalization and the Politics of Pay Susan B. Hansen, 2006-05-23 In the American federal system states actively compete for jobs business investment and factory locations Labor costs have played an important role in such interstate competition since the days of the pre Civil War plantation economy In recent years however global economic trends have put added pressures on businesses and government to reduce labor costs At least that is what most politicians the media and the business community believe *Globalization and the Politics of Pay* examines the economic political and social causes and consequences of declining wages in the United States It challenges the conventional wisdom that globalization is to blame for the decline in workers earnings Susan B Hansen presents a comprehensive analysis of the many factors affecting labor costs and concludes that many of them result from choices made by the states themselves through the laws and policies they enact In addition free market ideologies and low voter turnout have had greater effects in keeping wages down than globalization In fact foreign trade and investment can actually result in higher pay in the state labor market In this rigorous yet surprising study Hansen develops new measures of state and federal labor costs to test competing theories of the consequences of reducing wages and benefits Most economists would argue that higher labor costs cause higher unemployment and that reducing labor costs will lead to higher levels of job creation But citizens and elected officials must weigh any employment gains in lower wage jobs against slower state economic growth declining personal income and a less competitive position in international trade Cutting state labor costs is shown to have adverse social consequences including family instability high crime rates poverty and low voter turnouts The book concludes with policy recommendations for state governments trying to balance their need for more jobs with policies to enhance productivity living standards social stability and international

competitiveness **Local Government Reforms in Countries in Transition** Frederick A. Lazin, Matt Evans, Vincent Hoffmann-Martinot, 2008-05-01 Local Government Reforms in Countries in Transition explores the impacts that the end of the Cold War and increased globalization have had on government around the world The decentralization of national governments has led to a greater role for local governments public administration and democratic representation are the new arena of local governments the world over Focusing not only on countries from the former Soviet Union but also on Israel China South Africa and Egypt the contributors to this volume present a truly global investigation of countries experiencing governmental transformation Do Subnational Fiscal Rules Foster Fiscal Discipline? New Empirical Evidence from Europe Ananya Kotia, Victor Duarte Lledo, 2016-04-07 This paper studies how fiscal rules interact with the intergovernmental fiscal framework to foster fiscal discipline among European subnational governments We use political variables describing the fiscal attitudes of the central government as instruments to obtain consistent estimates of the impact of subnational fiscal rules on fiscal balances The results suggest that the discipline enhancing effect of fiscal rules is weaker when there are large vertical fiscal imbalances that is large differences in revenue and spending assignments across the different levels of government These findings imply that separate reforms to reduce excessive vertical fiscal imbalances complement a rules based fiscal framework that is aimed at fostering fiscal discipline *The Struggle for Soviet Jewry in American Politics* Fred A. Lazin, 2005-04-19 Until 1989 most Soviet Jews wanting to immigrate to the United States left on visas for Israel via Vienna In Vienna with the assistance of American aid organizations thousands of Soviet Jews transferred to Rome and applied for refugee entry into the United States The Struggle for Soviet Jewry in American Politics examines the conflict between the Israeli government and the organized American Jewish community over the final destination of Soviet Jewish migrants between 1967 and 1989 A generation after the Holocaust a battle surrounded the thousands of Soviet Jewish migrants fleeing persecution by choosing to resettle in the United States instead of Israel Exploring the changing ethnic identity and politics of the United States Fred A Lazin engages history ethical dilemma and diplomacy to uncover the events surrounding this conflict This book is essential reading for students and scholars of public policy immigration studies and Jewish history Public Policy in Israel Dani Korn, 2005-01-01 In a nation that lacks consensus on the very nature of the state and where policy making is heavily controlled by partisan politics improved policy implementation capabilities are crucial for the very survival of Israeli society Public Policy in Israel presents a framework for understanding this country s fractured decision making process and a blueprint for the radical reform of its policy making system **Higher Education and Equality of Opportunity** Fred A. Lazin, N. Jayaram, Matt Evans, 2012-07-10 The movement to broaden access to public universities the dominant strategy during the 1970s and 1980s has largely shifted to enable the marketplace rather than the government to shape the contours of higher education Government funding is being reduced affirmative action and other programs designed to insure broader access are in decline and personal fulfillment is replacing a public good designed to

insure greater equality of opportunities This book explores the impact of diminishing government resources and expanding market forces in developing and developed countries to either foster or lessen equality of opportunities in higher education for different racial ethnic religious and gender groupings What are the consequences of a market driven higher education for student access teaching and scholarship Through case studies this book explores issues such as access of minority groups within the larger societies the place of foreign students in a national system and access for students with mental health difficulties and evaluates the success of funding schemes designed to expand opportunities and access The research provides an interesting contrast of the diversity and uniqueness of higher education in the United States France Australia India Israel South Korea The Netherlands Ghana and several other countries while at the same time revealing surprising commonalities These studies reveal world wide trends in higher education including a cutback in government financing a decline in access and a receding of affirmative action This book is an important addition to the literature on higher education during the age of globalization and the decline of government funding of higher education The studies provide important data about the current situation in higher education in countries around the world

Across Boundaries André Blais,Cristine de Clercy,Anna Lennox Esselment,Ronald Wintrobe,2021-06-09 Why and how does secession happen How do different levels of government interact with each other Why do some multilevel governments work better than others What makes political extremism so virulent in today s society These are some of the most pressing questions in political science today These questions and research areas secession multilevel government and political economy were the focus of the writing and scholarship of Robert Bob Andrew Young 1950 2017 Canada Research Chair in Multilevel Governance at the University of Western Ontario and one of Canada s most distinguished political scientists In Across Boundaries Young s former colleagues and students bring together contributions from his extensive network which included academics government officials and media personalities These essays speak to Young s legacy while providing new insight into research in multilevel governance secession and political economy Young s body of work is exemplary in its attention to concrete policy issues as well as in the breadth of his interest across many subfields of political science Across Boundaries honours his distinguished career and gives students professors and practitioners further insight into his scholarship

Public Financial Management Howard A. Frank,2006-01-13 Public Financial Management covers the five major pillars of this sub discipline of public administration context public finance retirement systems performance measurement and budgeting and international perspectives This text offers practitioners information valuable in their day to day operations while also providing students in public adm

Hong Kong Public Budgeting Brian C. H. Fong,2021-10-25 This book is a comprehensive scholarly account of Hong Kong Public Budgeting spanning from the pre 1997 British rule to the post 1997 Chinese rule Transcending the existing comparative budgeting studies which are either central government focused or symmetric local government focused this book presents Hong Kong Public Budgeting as a distinctive case of territorial autonomy It offers historical and comparative analyses of

Hong Kong Public Budgeting tracing the evolution of budgetary institutions and budgetary decision making and examining the critical issues of budget openness budget oversight and budget allocation This book will be of key interest to scholars and students of comparative budgeting studies It will also be an excellent text for public budgeting instructors and students in East Asia and Hong Kong **Rule-Making Rules** Stefano Bartolini,2022-06-30 This book defines and distinguishes political institutions in their various forms whilst exploring the constitutive ambiguities of the term It will appeal to scholars and advanced students of political institutions in comparative politics and in political science and political sociology more broadly

Equity in the Workplace Heidi Gottfried,Laura Reese,2008-01-01 This edited collection assembles cutting edge comparative policy research on contemporary policies relevant to gender Contributors analyze gender related employment policies including parental leave maternity programs sexual harassment work life balance and gender mainstreaming Equity in the Workplace thoroughly illustrates how the juxtaposition of a variety of research methodologies focused on a common theme can lead to a richer multilayered understanding of a complex issue **Foreign Policy Toward Cuba** Michele Zebich-Knos,Heather Nora Nicol,2005-01-01 Foreign Policy Toward Cuba is a timely exploration of the ways in which Cuba is understood in the Western Hemisphere The book examines the depth of disagreement between different foreign policy making communities and the potential impacts of diverse national approaches not just for Cuba but for the whole Caribbean region **Voluntary Environmental Programs** Peter DeLeon,Jorge E. Rivera,2010-01-01 Voluntary Environmental Programs pose a means by which industry government and other interested groups can cooperatively agree upon socially acceptable restraints Rather than relying on complete government control of environmental laws Voluntary Environmental Programs rely on a voluntary system for businesses They pose their unique problems predicated on the effectiveness of voluntary self constraint **Beyond Realism** Rekha Datta,2010-04-20 Focusing on India and Pakistan this book adopts an innovative combination of realist analysis with a human security approach It will be a valuable resource for a wide variety of scholars practitioners and analysts who focus on policy analysis in South Asia Graduate students and advanced undergraduates studying comparative politics and human security issues in South Asia will find useful perspectives in the volume s fresh focus on including human security as a policy priority

Enjoying the Melody of Appearance: An Mental Symphony within **Politics Institutions And Fiscal Policy Deficits And Surpluses In Federated States**

In a global eaten by displays and the ceaseless chatter of instant connection, the melodic beauty and psychological symphony created by the prepared term usually fade into the backdrop, eclipsed by the relentless noise and disruptions that permeate our lives. Nevertheless, nestled within the pages of **Politics Institutions And Fiscal Policy Deficits And Surpluses In Federated States** a wonderful fictional treasure full of raw thoughts, lies an immersive symphony waiting to be embraced. Crafted by a masterful musician of language, this fascinating masterpiece conducts viewers on a psychological journey, skillfully unraveling the concealed melodies and profound impact resonating within each carefully constructed phrase. Within the depths of this touching review, we shall investigate the book is central harmonies, analyze its enthralling publishing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
