Boundary Spanners of Humanity R. S. Zaharna, 2022 Written by a leading scholar of public diplomacy *Boundary Spanners of Humanity* introduces a pan human vision of communication that can revolutionize how we collaborate to solve global problems Never before has humanity enjoyed better technological capabilities for interconnection than today Ironically rather than benefiting from the global pool of human resources and intellectual wealth to solve shared problems nations are experiencing public discord and global divisions *Boundary Spanners of Humanity* tackles the challenge of how to enhance global collaboration by introducing three pan human logics of human communication and public diplomacy that can transform how we view diversity in an interconnected world R S Zaharna begins by asking why the very tools needed for global collaboration communication and public diplomacy are undermining our efforts to work together Her research reveals how contemporary communication is based on a nineteenth century mindset of separateness that divided people into mutually exclusive cultural and national categories That mindset reinforces human divisions and erodes global collaboration In a radical break from conventional models Zaharna introduces a vision of humanity centered public diplomacy featuring three complementary logics of communication Zaharna s innovative approach stems from decade long interdisciplinary research that spans from ancient cosmologies to emerging neurobiology She draws on a rich array of global examples from ancient and indigenous precolonial diplomacies to spontaneous online communication during the Covid 19 pandemic to provide insights into overlooked aspects of emotion empathy spirituality and synchrony in how nations and people communicate in the global arena Ambitiously conceived this book will bring a new global understanding of how to conduct public diplomacy for the world s boundary spanners those who would find commonality among our many divisions and collaborate on humanity s shared global problems

Sociological Social Work Priscilla Dunk-West, Fiona Verity, 2016-04-01 Sociological social work is a lifelong social work practice which is animated by a sociological perspective Social workers shorthand orientations such as strengths perspective task centred or humanistic to name but a few as a way to identify their philosophical and theoretical approaches in professional life Whilst some texts have examined sociology for social work this text instead proposes that sociological social work is a legitimate and theoretically rich orientation and this book demonstrates what sociological social work looks like in our rapidly changing world This text will equip students and practitioners with a way to think sociologically not just while they are studying but as an ever present reference for making sense of social work purpose and how this is realised in a transforming world This follows an established tradition in social work literature but this book elevates and names the importance of this approach which we

argue is critically needed if social work is to achieve its agenda in transformative social political economic and environmental contexts The current landscape in which we live is one that is characterised by rapid changes which have implications for the life experiences of those with whom social workers work social justice advocacy agendas and for fulfilling the purpose of social work more generally This book is essential reading for those looking to keep up with these changes

International Negotiation and Mediation in Violent Conflict Chester A. Crocker, Fen Osler Hampson, Pamela Aall, 2018-02-06 This collection of essays situates the study and practice of international mediation and peaceful settlement of disputes within a changing global context The book is organized around issues of concern to practitioners including the broader regional global and institutional context of mediation and how this broader environment shapes the opportunities and prospects for successful mediation A major theme is complexity and how the complex contemporary context presents serious challenges to mediation This environment describes a world where great power rivalries and politics are coming back into play and international and regional organizations are playing different roles and facing different kinds of constraints in the peaceful settlement of disputes The first section discusses the changing international environment for conflict management and reflects on some of the challenges that this changing environment raises for addressing conflict Part II focuses on the consequences of bringing new actors into third party engagement and examines what may be harbingers for how we will attempt to resolve conflict in the future The third section turns to the world of practice and discusses mediation statecraft and how to employ it in this current international environment The volume aims to situate the practice and study of mediation within this wider social and political context to better understand the opportunities and constraints of mediation in today's world The value of the book lies in its focus on complex and serious issues that challenge both mediators and scholars This volume will be of much interest to students practitioners and policymakers in the area of international negotiation mediation conflict resolution and international relations

Activating Human Rights and Peace GOH Bee Chen, Baden Offord, Rob Garbutt, 2016-03-16 Human rights and peace issues and concerns have come about at a critical time The world has recently witnessed a plethora of turning points that speak of the hopes and vulnerabilities which are inherent in being human and demonstrate that change

in the service of human rights and peace is possible At the same time however other events indicate that wherever there is life there is vulnerability in a world characterized by instability and endemic human suffering On top of all this the collapse of the global financial system and the serious rapid destruction of the environment have brought the world to a precarious state of vulnerability Activating human rights and peace is therefore a project that is always in progress and is never finally achieved This enlightening collection of well thought through cases is aimed at academics and students of human rights political science law and justice peace and conflict studies and sociology Interactive Peacemaking Susan H.

Peace Ohannes Geukjian,2016-04-22 Conflict resolution conflict management and conflict transformations are major themes in this unique book which examines explores and analyses the mediation attempts of the Organization for Security and Cooperation in Europe in the Nagorno Karabakh conflict Ohannes Geukjian shows the most striking characteristic of a protracted internal conflict such as this is its asymmetry and explains that without meeting basic human needs like identity recognition security and participation resolving any protracted social conflict is very difficult The Armenian Azerbaijani case demonstrates how official diplomacy may not be able to solve protracted internal conflicts as without addressing the real causes of the problematic relationship attempts at peace making will always be sporadic and the space for mutual understanding and compromise shrink Geukjian shows that conflict transformation has a particular salience in asymmetric conflicts such as this where the goal is to transform unjust relationships and where a high degree of polarisation between the disputants has taken root Using the Nagorno Karabakh case this book focuses on the anatomy and causes of deadlock in negotiations and highlights the many difficulties in achieving a breakthrough **Restorative Justice, Reconciliation, and**

Peacebuilding Jennifer J. Llewellyn,Daniel Philpott,2014-04-17 All over the world the practice of peacebuilding is beset with common dilemmas peace versus justice religious versus secular approaches individual versus structural justice reconciliation versus retribution and the harmonization of the sheer number of practices involved in repairing past harms Progress towards

resolving these dilemmas requires reforming institutions and practices but also clear thinking about basic questions What is justice And how is it related to the building of peace The twin concepts of reconciliation and restorative justice both involving the holistic restoration of right relationship contain not only a compelling logic of justice but also great promise for resolving peacebuilding s tensions and for constructing and assessing its institutions and practices This book furthers this potential by developing not only the core content of these concepts but also their implications for accountability forgiveness reparations traditional practices human rights and international law Culture, Conflict, and Peacebuilding Christina Beyene,Leonardo Luna,Nkwazi Mhango,Jessica Senehi,2024-08-17 This book explores the complexity multiplicity intersectionality and dynamism of cultures in connection with critical and emancipatory peacebuilding It includes diverse voices to emphasize local and everyday peacebuilding within a narrative that links the personal to the political It is a valuable resource for students educators and practitioners in peace and conflict studies cultural studies sociology and related disciplines **The SAGE Handbook of Conflict Resolution** Jacob Bercovitch,Victor Kremenyuk,I William Zartman,2008-12-03 The SAGE Handbook of Conflict Resolution demonstrates the range of themes that constitute modern conflict resolution It brings out its key issues methods and dilemmas through original contributions by leading scholars in a dynamic and expanding field of inquiry This handbook is exactly what it sets out to be an indispensable tool for teaching research and practice in conflict resolution Peter Wallensteen Professor of Peace and Conflict Research Uppsala University and University of Notre Dame Bercovitch Kremenyuk and Zartman are among the most important figures in the conflict resolution field They have pieced together with the help of more than 35 colleagues from numerous countries a state of the art review of the sources of international conflict available methods of conflict management and the most difficult challenges facing the individuals and organizations trying to guide us through these conflict ridden times The collection is brimming with penetrating insights trenchant analyses compelling cases and disciplined speculation They help us understand both the promise of as well as the obstacles to theory building in the new field of conflict resolution Lawrence Susskind Professor and Director of the MIT Harvard Public Disputes Program The last three sentences of this persuasive book We conclude this volume more than ever convinced that conflict resolution is not just possible or desirable in the current international environment It is absolutely necessary Resolving conflicts and making peace is no longer an option it is an intellectual and practical skill that we must all possess If you are part of that we intellectually or professionally you will find this book a superb companion Thomas C Schelling Professor Emeritus Harvard University and University of Maryland Conflict resolution is one of the fastest growing academic fields in the world today Although it is a relatively young discipline having emerged as a specialized field in the 1950 s it has rapidly grown into a self contained vibrant interdisciplinary field The SAGE Handbook of Conflict Resolution brings together all the conceptual methodological and substantive elements of conflict resolution into one volume of over 35 specially commissioned chapters The Handbook is designed to reflect where the field is today by drawing on the

Democracy and the Political Unconscious Noëlle McAfee, 2008-04-08 Political philosopher Noëlle McAfee proposes a powerful new political theory for our post 9 11 world in which an old pathology the repetition compulsion has manifested itself in a seemingly endless war on terror McAfee argues that the quintessentially human desire to participate in a world with others is the key to understanding the public sphere and to creating a more democratic society a world that all members can have a hand in shaping But when some are effectively denied this participation whether through trauma or terror instead of democratic politics there arises a political unconscious an effect of desires unarticulated failures to sublimate voices kept silent and repression reenacted Not only is this condition undemocratic and unjust it may lead to further trauma Unless its troubles are worked through a political community risks continual repetition and even self destruction McAfee deftly weaves together her experience as an observer of democratic life with an array of intellectual schemas from poststructural psychoanalysis to Rawlsian and Habermasian democratic theories as well as semiotics civic republicanism and American pragmatism She begins with an analysis of the traumatic effects of silencing members of a political community Then she explores the potential of deliberative dialogue and other talking cures and public testimonies such as the South African Truth and Reconciliation Commission to help societies work through rather than continually act out their conflicts Democracy and the Political Unconscious is rich in theoretical insights but it is also grounded in the practical problems of those who are trying to process the traumas of oppression terror and brutality and create more decent and democratic societies Drawing on a breathtaking range of theoretical frameworks and empirical observations Democracy and the Political Unconscious charts a course for democratic transformation in a world sorely lacking in democratic practice

Zaharna, Amelia Arsenault, Ali Fisher, 2014-02-05 Over the past decade scholars practitioners and leading diplomats have forcefully argued for the need to move beyond one way mass media driven campaigns and develop more relational strategies In the coming years as the range of public diplomacy actors grows the issues become more complexly intertwined and the use of social media proliferates the focus on relations will intensify along with the demands for more sophisticated strategies These changes in the international arena call for a connective mindshift a shift from information control and dominance to skilled relationship management Leading international scholars and practitioners embark on a forward looking exploration of creative conceptual frameworks training methods and case studies that advance relational networking and collaborative strategies in public diplomacy Light on academic jargon and rich in analysis this volume argues that while relationships have always been pivotal to the practice of public diplomacy the relational dynamics are changing Rather than focus on specific definitions the contributors focus on the dynamic interplay of influence in the public diplomacy environment That environment includes state and non state actors public and private partners competitors and collaborators new and old media and is conditioned by power ethics and cultures This book is an essential resource to students and practitioners interested on how to build relationships and transform them into more elaborate network structures through public communication It will challenge you to push the boundaries of what you think are the mechanisms benefits and potential issues raised by a relational approach to public diplomacy
